GDSAFS P15 Mini Tripod 360

Techlypro P15 Mini Tripod 360 User Manual

Model: P15 Mini Tripod 360 | Brand: GDSAFS

INTRODUCTION

Welcome to the user manual for the Techlypro P15 Mini Tripod 360. This versatile 3-in-1 device functions as a steady handgrip, a flexible selfie stick, and a stable tripod, designed to enhance your mobile photography and videography experience. Its compact and lightweight design makes it an ideal companion for capturing moments anywhere.

Figure 1: Overview of the Techlypro P15 Mini Tripod 360 in its various configurations.

PRODUCT FEATURES

- **Ultra-Portable Mini Quadropod:** This 3-in-1 device is only the size of a palm when folded and weighs approximately 116g, making it easy to carry in your pocket without burden. It is an ideal companion for travel, parties, or outdoor shooting.

**PUT IT IN YOUR POCKET
AND TAKE IT WITH YOU**

Figure 2: The compact design allows for easy portability in a pocket.

- **High-Strength Aluminum Alloy, Lightweight And Durable:** Constructed from high-quality aluminum alloy, the Techlypro P15 Mini Tripod 360 is lightweight yet offers strong load-bearing capacity. It provides stable support for both cell phones and small cameras, helping to eliminate blurred photos.
- **360° Rotation and Adjustable Angle:** Experience seamless switching between portrait and landscape modes with the innovative 360° rotation feature. Whether you are vlogging or taking selfies, you can capture the shot you want from any angle.
- **Remote Control, One Key Remote Control Shooting:** Features a built-in Bluetooth 5.2 chip for fast and stable connection. The detachable remote control supports one-key remote shooting, offering greater convenience for single-person shooting. After use, the remote control can be embedded neatly into the handle.
- **Tripod for Every Creator:** The Pocketflex mini tripod combines durability, flexibility, and ease of use. Crafted with high-quality aluminum alloy, it is sturdy enough for stable shots yet compact enough to carry anywhere. Perfect for on-the-go creators and selfie lovers alike.

PACKAGE CONTENTS

The standard package includes:

- 1 x Techlypro P15 Mini Tripod (Note: Some packages may include 2 Pcs; please verify your specific purchase.)

SETUP

Unfolding the Tripod/Selfie Stick

Gently pull the main body to extend the telescopic pole to your desired length. To use as a tripod, spread the three legs at the base until they are stable on a flat surface.

Attaching Your Device

Open the phone holder clamp. Carefully place your smartphone into the clamp, ensuring it is securely held. The holder supports both horizontal and vertical orientations.

Remote Control Pairing

The remote control is integrated into the handle and can be removed for use.

REMOVABLE EMBEDDED REMOTE CONTROL

THE REMOTE CONTROL CAN BE EMBEDDED IN THE HANDLE AFTER REMOVAL

Figure 3: The remote control can be easily removed from the handle.

1. Remove the remote control from the handle.
2. Turn on the remote control (if it has a power button).
3. On your smartphone, enable Bluetooth and search for available devices.
4. Select "Techlypro P15 Remote" or a similar name from the list to pair. A successful connection will be indicated on your phone.

OPERATING INSTRUCTIONS

Handgrip Mode

Keep the tripod legs folded and the pole retracted for a compact handgrip. This mode is ideal for stable, one-handed shooting, providing a secure grip for your device.

Selfie Stick Mode

Extend the telescopic pole to your desired length. Use the remote control to capture photos or start/stop video recording from a distance, allowing for wider angles and group shots.

Figure 4: Using the remote control for hands-free photo capture in selfie stick mode.

Tripod Mode

Extend the telescopic pole and spread the tripod legs on a flat, stable surface. Adjust the pole height and phone holder angle as needed. Use the remote control for hands-free shooting, perfect for group photos, time-lapses, or stable video recording.

360° Rotation

The phone holder features a 360° rotation mechanism. Gently rotate your phone to switch between portrait and landscape orientations without needing to re-adjust the clamp.

360 DEGREE ROTATING DESIGN

Figure 5: The 360-degree rotating design allows for flexible shooting angles.

Figure 6: The rotating phone holder offers comprehensive adjustability and accessory compatibility.

MAINTENANCE

- Clean the device with a soft, dry cloth. Avoid using harsh chemicals or abrasive materials.
- Store the tripod in a cool, dry place away from direct sunlight and extreme temperatures.
- Ensure the remote control battery is replaced when necessary to maintain optimal performance.
- Do not overload the tripod beyond its stated loading capacity of 2 kg.

TROUBLESHOOTING

Remote Control Not Connecting

- Ensure the remote control is charged or has fresh batteries.
- Make sure Bluetooth is enabled on your smartphone.
- Unpair and re-pair the remote control in your phone's Bluetooth settings.
- Ensure the remote control is within operating range (typically 10 meters).

Tripod Instability

- Ensure all three legs are fully extended and locked into position on a flat, stable surface.
- Do not extend the telescopic pole beyond its recommended maximum height if stability is compromised.
- Verify your device's weight does not exceed the 2 kg loading capacity.

Phone Holder Not Gripping Securely

- Ensure the phone holder clamp is fully open before inserting your device.
- Check for any obstructions in the clamp mechanism.
- The holder is designed for smartphones; ensure your device fits within its adjustable range.
