

## Kviflon 52 Inch Ceiling Fan with RGB Lights

# Kviflon 52 Inch Ceiling Fan with RGB Lights User Manual

Model: 52 Inch Ceiling Fan with RGB Lights

Brand: Kviflon

## 1. IMPORTANT SAFETY INSTRUCTIONS

Please read and understand all instructions before beginning installation. Failure to follow these instructions may result in electric shock, fire, or personal injury.

- Ensure the power is turned off at the circuit breaker before installation or servicing.
- All wiring must be in accordance with national and local electrical codes.
- Consult a qualified electrician if you are unsure about wiring procedures.
- The ceiling fan must be mounted to a ceiling joist or support capable of withstanding a minimum of 35 lbs (15.9 kg).
- Do not bend the blade holders during installation or cleaning.
- Keep children away from the fan during operation.

## 2. PACKAGE CONTENTS

Verify all components are present and undamaged before proceeding with installation.

This image displays the various components included in the package, such as the fan body assembly, canopy, downrod, blades, lamp shade, blades arm, screws, remote control, and instructions.

- Fan Body Assembly
- 5 Wood Blades
- Blade Arms
- Downrod (various lengths)
- Canopy
- Mounting Bracket
- LED Light Kit
- Remote Control
- Hardware Pack (screws, wire nuts, etc.)
- Instruction Manual

### 3. PRODUCT FEATURES

- **52 Inch Design:** Suitable for bedrooms, living rooms, covered patios, and other indoor/outdoor spaces.
- **Remote + APP Dual Smart Control:** Convenient adjustment of wind speed and lighting.
- **Dimmable RGB LED Light:** Adjustable brightness and color temperature (warm/neutral/cool white), with built-in RGB lighting for ambiance.
- **Dual-Finish Wooden Blades:** 5 reversible blades with a silent operation motor for quiet, even airflow.
- **Reversible Motor:** Allows for both downward airflow (summer) and upward airflow (winter) for year-round comfort.

### 4. INSTALLATION GUIDE

Professional installation is recommended. Refer to the detailed installation video below for visual guidance.

Your browser does not support the video tag.

**Video Description:** This official Kviflon installation video provides a step-by-step guide for assembling and mounting the 8903 RGB ceiling fan with light. It covers attaching blades, assembling the light kit, connecting the downrod, and preparing for ceiling mounting.

#### 4.1 Blade Assembly

Attach the 5 wood blades to the blade arms using the provided screws. Ensure they are securely fastened. The blades are dual-finish, allowing you to choose between two aesthetic styles.

This image illustrates the dual-finish wooden blades and the process of attaching them to the fan motor housing.

## 4.2 Light Kit Assembly

Connect the LED light module to the fan body wiring. Secure the light module and then attach the lamp shade. Ensure all connections are firm.

## 4.3 Downrod Assembly

Insert the downrod through the canopy and cover. Feed the fan wires through the downrod. Secure the downrod to the fan motor assembly using the provided pin and screws.

## 4.4 Mounting Bracket Installation

Secure the mounting bracket to the ceiling junction box using appropriate screws. Ensure the bracket is firmly attached to a structural support.

## 4.5 Wiring

Connect the fan's electrical wires to the household wiring according to the color codes (typically black to black, white to white, and green/bare copper to ground). Install the remote receiver unit within the mounting bracket, connecting its wires to the fan and household wiring as per the diagram in the full manual.

## 4.6 Canopy Installation

Carefully lift the fan assembly and hang it on the mounting bracket. Slide the canopy up to cover the mounting bracket and wiring, securing it with the provided screws.

# 5. OPERATING INSTRUCTIONS

---

The Kviiflon ceiling fan offers versatile control options via remote and a dedicated mobile application.

Your browser does not support the video tag.

**Video Description:** This official Kviiflon video demonstrates the various scene displays and lighting effects of the 8903 RGB white ceiling fan, showcasing its functionality and ambiance.

## 5.1 Remote Control Functions

The included remote control provides convenient access to all fan and light functions.

This image displays the remote control layout with labeled buttons for light on/off, color temperatures, night light, brightness adjustment, code matching, forward/reverse, RGB changing, wind speed control (1-6), and timer functions (2H).

- **Light On/Off:** Toggles the main light.
- **Color Temperatures:** Cycles through warm, neutral, and cool white light.
- **Night Light:** Activates a low-brightness setting.
- **Brightness +/-:** Adjusts the main light's intensity.
- **Code Matching (SETUP):** Used to pair the remote with the fan.
- **F/R (Forward/Reverse):** Changes the fan's rotation direction.
- **RGB:** Cycles through RGB lighting colors and modes.
- **Wind Speed Control (1-6):** Selects desired fan speed.
- **Timer (2H):** Sets the fan to turn off after 2 hours.

## 5.2 APP Control Setup and Functions

Control your fan conveniently from your smartphone using the dedicated app.

Your browser does not support the video tag.

**Video Description:** This official Kviflon video demonstrates the process of installing and connecting the mobile application to the 8903 RGB ceiling fan, showcasing its smart control features.

**To download the app:** Scan the QR code provided in the product packaging or visit <https://www.jasonghost.com/fanlamppro/> to download the "Fan Lamp Pro" app.

**Pairing Method:** Turn on the ceiling fan power using the wall switch, then open the app and follow the on-screen instructions to connect. The fan light will blink twice to indicate a successful connection.

### 5.3 Fan Speed Adjustment

The fan features 6 adjustable speeds to suit various comfort levels.

This image illustrates the 6-speed adjustment feature, categorizing speeds 1-2 as comfortable wind for sleep, 3-4 as natural wind for daily life, and 5-6 as strong wind for hot summer.

- **Levels 1-2:** Comfortable wind, ideal for sleep.
- **Levels 3-4:** Natural wind, suitable for daily use.
- **Levels 5-6:** Strong wind, for maximum cooling.

### 5.4 Lighting Control

The integrated LED light offers dimmable white light and vibrant RGB options.

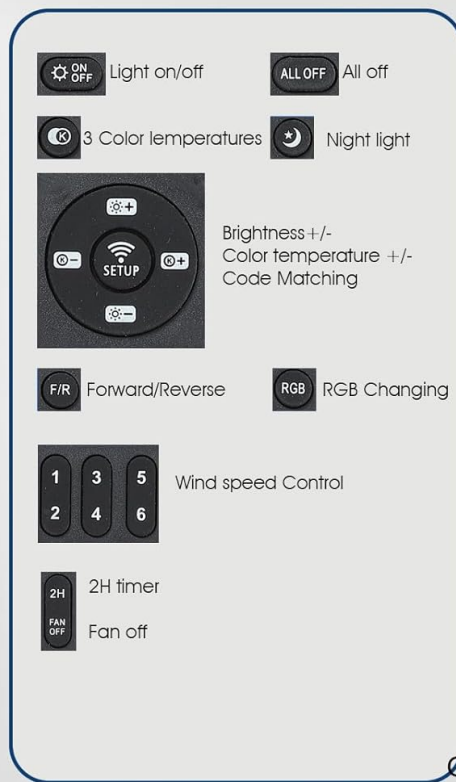

## SILENT OPERATION

Experience coolness without the disturbance of noise, ensuring a serene environment.

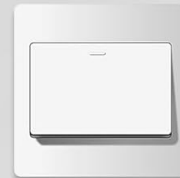

This image showcases the side RGB light multi-mode effects, including various RGB colors, white light, and combinations of both.

# Remote & APP Control

Download the APP

Only Control Fan ON/OFF  
(not include)

Pairing Method: Turn on the ceiling fan power using the wall switch, then press and hold the "SETUP" button on the remote control for 5 seconds to complete the pairing.

This image displays the three main light color temperature options: 3000K Warm Light, 4500K Natural Light, and 6000K White Light, along with a brightness adjustment scale.

- **Dimmable White Light:** Adjust brightness from 0% to 100% and choose between 3000K (warm), 4500K (natural), and 6000K (cool white).
- **RGB Lighting:** Activate the side RGB lights to create various atmospheric effects.

## 5.5 Reverse Rotation (Summer/Winter Mode)

The reversible motor allows for optimal air circulation year-round.

# HIGH QUALITY BRIGHT LIGHTS

**3000K**  
Warm Light

**4500K**  
Natural Light

**6000K**  
White Light

This image illustrates the forward rotation (downward airflow for cooling in summer) and reverse rotation (upward airflow for circulating warm air in winter).

- **Summer Mode (Forward Rotation):** Air flows downward, creating a cooling breeze.
- **Winter Mode (Reverse Rotation):** Air flows upward, circulating warm air trapped near the ceiling.

## 5.6 Timer Function

Set the fan to automatically turn off after a specified period using the remote control's timer button.

## 6. MAINTENANCE

Regular maintenance ensures optimal performance and longevity of your ceiling fan.

- **Cleaning:** Use a soft, damp cloth to clean the fan blades and motor housing. Do not use abrasive cleaners or solvents.
- **Tighten Screws:** Periodically check and tighten all screws on the fan blades and mounting hardware.
- **Lubrication:** The motor is permanently lubricated and does not require additional oiling.

## 7. TROUBLESHOOTING

If you experience issues with your fan, refer to the following common problems and solutions.

Problem	Possible Cause	Solution
Fan does not start	No power to the fan; loose wire connections; remote not paired.	Check circuit breaker; ensure all wire connections are secure; re-pair remote control.
Fan wobbles	Loose blade screws; unbalanced blades; loose mounting bracket.	Tighten all blade screws; ensure blades are balanced; secure mounting bracket.
Light does not work	Loose wire connection; faulty LED module.	Check light kit wiring; contact customer support for replacement if faulty.
Remote not working	Dead batteries; remote not paired; interference.	Replace batteries; re-pair remote; ensure no obstructions.

## 8. PRODUCT SPECIFICATIONS

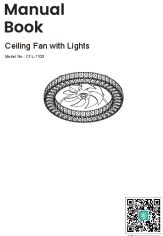

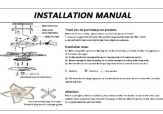

Feature	Detail
Brand	Kviflon
Color	White-RGB
Electric fan design	Ceiling Fan
Power Source	AC/DC
Style	Modern
Product Dimensions	52"D x 52"W x 11"H
Room Type	Bedroom, Living Room, Patio, Porch, Outdoor (Covered)
Special Feature	App Operable, LED Light, Quiet Operation, Remote Controlled
Recommended Uses	Air Circulation, Cooling
Wattage	66 watts
Number of Blades	5
Air Flow Capacity	350 Cubic Meters Per Minute
Blade Length	20.3 Inches
Voltage	110 Volts
Included Components	Light Kit, Remote
Indoor/Outdoor Usage	Indoor
Control Method	App, Remote
Efficiency	5.3 cubic meters per minute per watt
Number of Power Levels	6
Motor Type	Brushless

Feature	Detail
Installation Type	Professional Installation
Item Weight	13.84 pounds
Batteries	2 AAA batteries required (included)

## 9. WARRANTY AND SUPPORT

For warranty information or technical support, please refer to the contact details provided with your purchase or visit the official Kviflon website. Keep your purchase receipt for warranty claims.
