ZGNBSD ZGNBSD-ZY266

ZGNBSD Double Sink Bathroom Vanity with Smart LED Defog Mirror Cabinet

Model: ZGNBSD-ZY266 (Wood, 64IN)

Introduction

Thank you for choosing the ZGNBSD Double Sink Bathroom Vanity. This manual provides essential information for the safe installation, operation, and maintenance of your new vanity. Please read these instructions thoroughly before assembly and use to ensure proper function and longevity of the product. Keep this manual for future reference.

Safety Information

Important Safety Instructions:

- Always ensure the wall can support the weight of the vanity before installation.
- Use appropriate safety gear, such as gloves and eye protection, when handling heavy components and tools.
- Follow the installation instructions carefully to prevent injury or damage to the product or property.
- Keep the area around the vanity clear during and after installation to avoid potential hazards.
- Electrical work for the LED mirror and defogger should be performed by a qualified electrician in accordance with local codes.
- Do not attempt to modify the product in any way, as this may void the warranty and create safety risks.

Package Contents

Verify that all components are present and undamaged before beginning assembly. If any parts are missing or damaged, please contact customer support.

- Vanity Cabinet
- Smart LED Defog Mirror Cabinet
- Double Sink (integrated with countertop)
- Installation Hardware (screws, anchors, brackets)
- User Manual

Specifications

ASIN	B0F91FZD9M
Color	Wood
Size	64IN
Product Dimensions	20"D x 108"W x 22"H (Note: Width varies by model, 64IN for this specific model)
Mounting Type	Wall Mount
Material	Solid Wood Cabinet, Seamless Sink, High Quality Metal Accessories
Special Features	LED lighting, One-touch defog, Seamless double sink, Smart LED defogger mirror cabinet
Assembly Required	Yes

Setup and Installation

This wall-mounted vanity is designed for quick assembly and ships in modular packages. Professional installation is recommended for optimal safety and performance.

1. Pre-Installation Checks

1. **Inspect Components:** Unpack all boxes and inspect each component for any damage. Report any issues to customer support immediately.
2. **Verify Wall Structure:** Ensure the wall where the vanity will be mounted is structurally sound and capable of supporting the total weight of the vanity, mirror, and contents. Reinforcement may be necessary.
3. **Measure and Mark:** Carefully measure and mark the desired height and width for the vanity and mirror cabinet on the wall. Refer to the product dimensions.

Figure 1: Overall dimensions of the vanity and mirror cabinet. Note the 64-inch width for this model.

2. Cabinet Installation

1. **Mount Brackets:** Securely attach the wall mounting brackets to the marked locations on the wall using appropriate fasteners for your wall type (e.g., studs, concrete anchors).
2. **Hang Vanity Cabinet:** Carefully lift and hang the vanity cabinet onto the installed wall brackets. Ensure it is level and securely seated.
3. **Connect Plumbing:** Connect the water supply lines and drain pipes to the sinks. Ensure all connections are tight to prevent leaks.

3. Mirror Cabinet Installation

1. **Mount Mirror:** Install the smart LED defog mirror cabinet above the vanity, following the manufacturer's guidelines for mounting height and securing it to the wall.
2. **Electrical Connection:** Connect the mirror's electrical wiring to a dedicated power source. This should be done by a certified electrician.

4. Storage Features

The vanity features multiple storage options including four drawers and an open bottom design. The mirror cabinet also provides additional enclosed storage.

Figure 4: Smooth slide rails ensure quiet and durable drawer operation.

Figure 5: Damping hinges provide soft-close functionality for cabinet doors.

Operating Instructions

Smart LED Defog Mirror Cabinet

The mirror cabinet features integrated LED lighting and a one-touch defogging function for enhanced convenience.

- **Power On/Off:** Locate the touch-sensitive power button on the mirror surface. A single touch will turn the LED lighting on or off.
- **Defog Function:** The mirror is equipped with a defogging pad. Activate the defogger by touching the designated defog button on the mirror. This will heat the mirror surface to prevent fogging in steamy conditions. The defogger will typically turn off automatically after a set period or can be manually turned off with another touch.

Figure 7: The defogging function ensures a clear mirror surface even in humid conditions.

Maintenance

Regular cleaning and proper care will help maintain the appearance and functionality of your vanity.

- **General Cleaning:** Use a soft, damp cloth with mild soap and water for routine cleaning of the cabinet and sink surfaces. Avoid abrasive cleaners or harsh chemicals, which can damage the finish.
- **Mirror Cleaning:** For the LED mirror, use a glass cleaner specifically designed for mirrors and a soft, lint-free cloth. Spray cleaner onto the cloth, not directly onto the mirror, to prevent liquid from seeping into electrical components.
- **Spills:** Wipe up spills immediately, especially on wood surfaces, to prevent staining or water damage.
- **Hardware:** Periodically check and tighten any loose screws on hinges and drawer slides to ensure smooth operation.
- **Waterproof Coating:** The vanity features a waterproof coating for added durability against moisture. However, avoid prolonged exposure to standing water.

Figure 8: The vanity's waterproof coating helps protect against moisture.

Figure 9: Multilayer solid wood construction provides durability and moisture resistance.

Troubleshooting

If you encounter any issues with your ZGNBSD vanity, refer to the following common troubleshooting steps:

Problem	Possible Cause	Solution

LED mirror lights not working	No power supply, loose connection, faulty switch.	Check power outlet and circuit breaker. Ensure all electrical connections are secure. Contact a qualified electrician if the issue persists.
Mirror defogger not working	Defogger not activated, electrical issue.	Ensure the defogger button has been pressed. Check power supply to the mirror.
Drawers or cabinet doors do not close smoothly	Loose hardware, obstruction in slide rails/hinges.	Check and tighten all screws on drawer slides and hinges. Remove any obstructions.
Water leaks from sink/faucet	Loose plumbing connections, damaged seals.	Tighten all water supply and drain connections. Inspect seals and replace if damaged. Professional plumbing assistance may be required.

If these steps do not resolve the issue, please contact ZGNBSD customer support for further assistance.

Warranty and Support

ZGNBSD is committed to providing high-quality products. For information regarding product warranty, please refer to the documentation included with your purchase or contact ZGNBSD customer support directly. Our responsive customer support team is available to assist with any questions, concerns, or issues you may have regarding your vanity.
