**VEVOR DT-J001**

# VEVOR 2.1 Gallon Beverage Dispenser (Model DT-J001) Instruction Manual

Model: DT-J001 | Brand: VEVOR

## INTRODUCTION

---

Thank you for choosing the VEVOR 2.1 Gallon Beverage Dispenser. This manual provides essential information for the safe and efficient use of your new dispenser. Please read these instructions carefully before assembly and operation, and retain them for future reference.

## PRODUCT OVERVIEW

---

### Key Features:

- **2.1 Gallon (8 Liter) Capacity:** Designed for continuous beverage supply, reducing frequent refills.
- **No-Drip Spigot:** Features a spring-loaded spigot with a tight switch to prevent leaks and drips.
- **Integrated Ice Chamber:** Allows for cooling beverages without dilution.
- **Transparent Design:** Provides clear visibility of beverage levels and contents.
- **Food-Grade PC Material:** Constructed from durable, stain-resistant, and BPA-free polycarbonate.
- **Removable Parts:** Wide-mouth design and removable lid facilitate easy cleaning.
- **Drip Tray:** Catches any overflow to maintain a clean serving area.

## Versatile Use

A must-have for every occasion

Restaurant

Hotel Buffet

Cafeteria

Party

## SETUP INSTRUCTIONS

---

1. **Unpack Components:** Carefully remove all parts from the packaging. Verify that all components are present: main dispenser body (PC container), lid, spigot, ice chamber, stand, and drip tray.
2. **Initial Cleaning:** Before first use, wash all parts that will come into contact with beverages using warm, soapy water. Rinse thoroughly and dry completely.
3. **Assemble Spigot:** Insert the spigot into the designated opening at the bottom of the dispenser body. Ensure the rubber washers are correctly positioned on both sides of the dispenser wall to create a watertight seal. Tighten the nut securely by hand, avoiding overtightening to prevent damage.
4. **Place Drip Tray:** Position the drip tray onto the base of the stand.
5. **Mount Dispenser:** Carefully place the assembled dispenser body onto the stand, ensuring it is stable and centered.
6. **Insert Ice Chamber:** Place the ice chamber into the center of the dispenser body.

# Removable Parts for Easy Cleaning

Large opening allows easy access to the interior for cleaning

Food-Grade PC Material

✓ No BPA ✓ Durable

Splash-Proof Tray  
Easy to clean spilled juice

## OPERATING INSTRUCTIONS

1. **Fill Ice Chamber (Optional):** If serving chilled beverages, fill the central ice chamber with ice cubes. Do not overfill.
2. **Add Beverage:** Open the lid and pour your desired beverage into the main dispenser body. The wide opening facilitates easy filling.
3. **Secure Lid:** Place the lid firmly back onto the dispenser to prevent dust or contaminants from entering.
4. **Dispense Beverage:** To dispense, push the spigot lever down. Release the lever to stop the flow.

5. **Monitor Levels:** Due to the transparent design, monitor the beverage level and refill as needed.

## CLEANING AND MAINTENANCE

Regular cleaning ensures hygiene and extends the lifespan of your beverage dispenser.

### Cleaning Steps:

1. **Empty Dispenser:** Ensure all beverage is dispensed or removed from the container.
2. **Disassemble:** Remove the lid, ice chamber, and spigot. Carefully lift the dispenser body from the stand.

3. **Wash Components:** Wash all parts (dispenser body, lid, ice chamber, spigot, drip tray) with warm water and a mild dish soap. Use a soft brush for the spigot to ensure no residue remains.
4. **Rinse Thoroughly:** Rinse all components under clean running water to remove all soap residue.
5. **Dry Completely:** Allow all parts to air dry completely or wipe with a clean, dry cloth before reassembly or storage.
6. **Drip Tray:** The drip tray is designed to catch spills and is easy to remove and clean separately.

**Note:** The food-grade PC material is dishwasher-safe. However, hand washing is recommended for the spigot and its components to ensure thorough cleaning and prevent potential damage from high-pressure dishwashers.

## TROUBLESHOOTING

Problem	Possible Cause	Solution
Spigot leaks	Spigot not tightened correctly; washers misplaced or damaged.	Ensure spigot is securely tightened with washers properly seated. Check washers for damage and replace if necessary.
Slow beverage flow	Spigot clogged; airlock in dispenser.	Clean the spigot thoroughly. Ensure the lid is not creating a complete vacuum; sometimes slightly loosening the lid can help.
Beverage not staying cold	Insufficient ice; ice chamber not used.	Ensure the ice chamber is filled with enough ice. Refill ice as it melts.
Dispenser unstable on stand	Dispenser not properly seated on stand.	Ensure the dispenser body is centered and securely placed on the stand. Place on a flat, stable surface.

## SPECIFICATIONS

- **Model Number:** DT-J001
- **Capacity:** 2.1 Gallons (8 Liters)
- **Material:** Polycarbonate (PC) and Stainless Steel
- **Color:** Stainless Steel Silver
- **Product Dimensions:** 10.63 x 13.78 x 22.05 inches (270 x 350 x 560 mm)
- **Item Weight:** 5.5 lbs (2.5 kg)
- **Dishwasher Safe:** Yes (PC container and drip tray; hand wash recommended for spigot)
- **UPC:** 197988147312

Item Model Number: **DT-J001** Style: **Single Cylinder**  
Capacity: **8 L / 2.2 Gal** Color: **Stainless Steel Silver**  
Material: **Stainless Steel + PC**  
Net Weight: **5.5 lbs / 2.5 kg**
