Globlazer C51

Globlazer C51 51-inch Corner Cat Tree Tower Instruction Manual

Model: C51 | Brand: Globlazer

1. Introduction

Thank you for choosing the Globlazer C51 51-inch Corner Cat Tree Tower. This multi-level cat condo is designed to provide a comfortable and engaging environment for your indoor cats, maximizing space utilization with its corner-friendly design. This manual provides essential information for assembly, usage, maintenance, and safety to ensure a long-lasting and enjoyable experience for your feline companions.

2. Safety Information

- Always assemble the cat tree on a flat, stable surface.
- Keep small parts away from children and pets during assembly.
- Regularly check the firmness of all screws and connections at least once a month to ensure stability. Tighten any loose screws immediately.
- Do not allow children to climb or play on the cat tree.
- Place the cat tree in a corner to enhance stability and prevent tipping. Utilize the included anti-tip kit for added security, especially if you have active or multiple cats.
- Inspect the cat tree periodically for any damaged parts. Discontinue use if any part is broken or compromised.

3. Package Contents

Please verify that all components are present before beginning assembly. Refer to the assembly video for a visual guide to all parts.

Video 1: Globlazer C51 Corner Cat Condo Assembly Guide. This video provides step-by-step visual instructions for assembling the cat tree.

1. **Step 1: Base Assembly**
   Attach the initial posts to the base plate using the provided hardware. Ensure all connections are secure.
2. **Step 2: First Level Platforms and Posts**
   Connect the first set of platforms and posts, including the lower cat cave, following the numerical sequence in the instructions.
3. **Step 3: Mid-Level Components**
   Install the middle platforms, additional scratching posts, and the hammock/basket components.

4. **Step 4: Upper Levels and Perch**
   Assemble the upper cat cave, remaining posts, and the fan-shaped top perch.
5. **Step 5: Attach Hanging Toys**
   Securely attach any hanging toys to designated points on the cat tree.
6. **Step 6: Install Anti-Tip Kit**
   For enhanced stability, especially in homes with active cats, install the anti-tip kit to secure the cat tree to a wall.

5. Features and Usage

- **Corner Design for Stability and Space Saving:**The fan-shaped structure is optimized for room corners, maximizing floor space and enhancing base stability. This design minimizes shaking and tipping, providing a secure environment.

Figure 2: The cat tree's fan-shaped base is designed to fit snugly into a 90-degree corner, optimizing space and stability.

- **51-inch Height with XL Perch:** The 51-inch height caters to a cat's natural climbing instinct. The oversized top platform (17.71" x 17.71") offers ample room for stretching and resting, featuring padded edges for comfort and safety.

Figure 3: A cat enjoying the spacious, soft-edged top perch, measuring 17.7 inches by 17.7 inches.

- **7 Natural Sisal Scratching Posts:** Equipped with seven durable sisal-covered scratching posts at multiple levels to satisfy scratching needs and protect furniture. The sisal material promotes healthy paws.

Figure 4: Close-up of a cat using one of the natural sisal rope scratching posts, designed to keep claws healthy.

- **Multi-Resting Variety:** Includes a spacious cat cave for privacy, a soft plush hammock for gentle swinging, and a cozy hanging basket, offering diverse resting options for multiple cats.

Figure 5: A cat relaxing inside the large cat condo cave, providing a private retreat.

Figure 6: Cats enjoying the comfortable hanging basket bed and plush hammock, part of the multi-resting variety.

6. Maintenance

- **Regular Inspection:** Check the firmness of all screws and connections at least once a month. Tighten any loose components to maintain structural integrity.
- **Cleaning:** Use a lint roller or a vacuum cleaner with a brush attachment to remove loose fur and debris from the plush surfaces. For spot cleaning, use a damp cloth with mild soap and water, then air dry. Avoid harsh chemicals.
- **Sisal Post Care:** The sisal scratching posts are designed for durability. If they become heavily worn, consider replacing them or wrapping them with new sisal rope to extend the life of the cat tree.

7. Troubleshooting

- **Instability/Wobbling:** Ensure all screws are tightly fastened. Verify that the cat tree is placed on a level surface. If wobbling persists, ensure the anti-tip kit is correctly installed and secured to a wall.
- **Missing Parts:** If any parts are missing upon arrival, please contact Globlazer customer support with your purchase details.
- **Cats Not Using the Tree:** Encourage your cat by placing treats or familiar toys on different levels. You can also use catnip to attract them to the scratching posts and resting areas.

8. Specifications

Attribute	Detail
Model Number	C51
Product Dimensions	45L x 45W x 130H Centimetres (17.7 x 17.7 x 51 inches)
