## 2. SAFETY GUIDELINES

To ensure safe use of your wine bar cabinet, observe the following guidelines:

- Always assemble the unit on a soft, clean surface to prevent scratches.
- Ensure all screws and fasteners are securely tightened before use. Periodically check and re-tighten as necessary.
- Do not overload shelves. Distribute weight evenly to maintain stability.
- Utilize the included anti-toppling fittings to secure the cabinet to a wall, preventing accidental tipping, especially in households with children or pets.
- Keep electrical components (LED lights, remote) away from water and moisture.

### 3. PACKAGE CONTENTS

Before beginning assembly, verify that all components are present and undamaged. Refer to the parts list provided in your assembly instructions. Typically, the package includes:

- Cabinet panels (wood and metal frame sections)
- Hardware components (screws, bolts, cam locks, dowels, etc.)
- LED light strip and remote control
- Wine glass rack
- Anti-toppling fittings
- Assembly instructions

### 4. ASSEMBLY INSTRUCTIONS

The Housoul Wine Bar Cabinet is designed for straightforward assembly. Follow the step-by-step instructions and diagrams included in your product packaging. All hardware components are individually packaged and labeled with codes for easy identification.

1. Unpack all components and lay them out on a clean, soft surface.
2. Identify each part using the provided labels and diagrams.
3. Begin by attaching the metal frame sections as indicated in the manual.
4. Secure the wooden panels and shelves using the designated hardware.
5. Install the wine glass rack and drawer slides.
6. Attach the adjustable leg pads to the base of the cabinet. Adjust them to ensure the cabinet is level on uneven floors.
7. Mount the LED light strip according to the instructions.
8. Finally, install the anti-toppling fittings to a wall stud or appropriate anchor point to prevent tipping.

If you encounter any difficulties during assembly, refer to the troubleshooting section or contact customer support.

## 5. OPERATING YOUR CABINET

---

### 5.1 LED Lighting System

Your wine bar cabinet features integrated LED lights with customizable settings:

- **Colors:** Choose from 16 main colors to match your ambiance.
- **Modes:** Select from 4 flashing modes for dynamic lighting effects.
- **Control:** Use the included remote control to adjust colors, modes, and brightness. Ensure the remote has fresh batteries and is pointed towards the LED receiver.

## 5.2 Storage Features

The cabinet offers versatile storage solutions:

- **5-Tier Design:** Provides ample space for various items.
- **Display Shelves:** Two open shelves are ideal for showcasing decorative items, bottles, or glassware.
- **Detachable Wine Glass Rack:** Conveniently hang wine glasses to keep them organized and accessible.
- **Drawer:** A handy drawer keeps smaller bar tools or accessories neatly stored.
- **Wine Racks:** The lower section includes built-in wine racks for secure bottle storage.

## 6. CARE AND MAINTENANCE

To maintain the appearance and longevity of your cabinet:

- Wipe surfaces with a soft, damp cloth. Avoid abrasive cleaners or harsh chemicals.
- For spills, clean immediately to prevent staining.
- Keep the cabinet away from direct sunlight and excessive heat or moisture to prevent material damage.
- Periodically check all connections and tighten any loose hardware.

## 7. TROUBLESHOOTING

If you encounter issues, refer to the following common problems and solutions:

| Problem                                            | Possible Cause                                                 | Solution                                                                                                                                                                                   |
|----------------------------------------------------|----------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Screws do not fit or strip easily during assembly. | Incorrect screw type used; misaligned parts; excessive force.  | Verify screw numbers against the manual. Ensure parts are correctly aligned before tightening. Do not overtighten. If a screw is stripped, contact customer support for replacement parts. |
| LED lights not working.                            | Remote battery low; power connection loose; LED strip damaged. | Replace remote batteries. Check all power connections. Ensure the LED strip is properly plugged in. If issues persist, contact customer support.                                           |
| Cabinet feels unstable or wobbly.                  | Uneven floor; loose connections; anti-tip kit not installed.   | Adjust the leg pads to level the cabinet. Re-tighten all assembly screws. Ensure the anti-toppling fittings are securely installed to a wall.                                              |
