Product Overview

The Bellemave Full Over Full Bunk Bed is designed for durability, safety, and space efficiency. Key features include:

- **Sturdy Metal Construction:** Crafted from heavy-duty, rust-proof metal with thickened steel support legs and 20 robust slats for enhanced weight capacity and long-term use.
- **Noise-Free Design:** Equipped with noise-reducing rubber stoppers that securely fix the slats, preventing movement and associated noise. High-quality screws and anti-tip fittings ensure wobble-resistant sturdiness.
- **Enhanced Safety:** Features a built-in ladder with reinforced steps and heightened guardrails (13 inches high) on the upper bunk to prevent accidental falls. The low bunk design provides 40 inches of height between the upper and lower beds, reducing the risk of head bumps.
- **Space-Saving Solution:** This modern bunk bed offers a spacious 9.8-inch high storage area underneath the bottom bunk, ideal for storing items like trunks, toys, shoes, or books.
