VECELO KHD-TBC01-WHT

VECELO Tilt Out Kitchen Trash Bin Cabinet with Deodorization and Purification

Model: KHD-TBC01-WHT | User Manual

1. Introduction

Thank you for choosing the VECELO Tilt Out Kitchen Trash Bin Cabinet. This product is designed to offer a discreet and hygienic solution for waste management in your home. It features a tilt-out mechanism to conceal your trash bin and includes an integrated ozone purifier with negative ion functions to neutralize odors and purify the air. This manual provides essential information for safe assembly, operation, and maintenance of your cabinet.

2. Safety Information

- This kitchen trash cabinet is intended for home use only.
- For safety reasons, children should not climb on or play with the product.
- Do not exceed the product's weight limit of 35 pounds (approximately 16 kilograms) on the wooden countertop.
- Ensure all components are securely fastened during assembly to maintain stability.
- Regularly clean the cabinet to prevent excessive trash accumulation, which can damage the cabinet doors.
- Keep the ozone purifier away from water and do not immerse it.

3. Product Overview and Features

The VECELO Tilt Out Kitchen Trash Bin Cabinet offers a blend of functionality and aesthetic appeal, designed to integrate seamlessly into various home environments.

3.1 Key Features

- **Versatile Design:** Functions as a hidden trash can, laundry cabinet, or storage for pet food and kitchen supplies. The top surface provides additional display or storage space.
- **Deodorization and Purification:** Equipped with a negative ion and ozone purifier to eliminate odors and harmful substances like formaldehyde, ensuring a fresh environment.
- **Space-saving and Concealment:** Discreetly hides a 10-13 gallon trash bin, contributing to a cleaner and more organized kitchen appearance. Prevents pets from accessing the trash.
- **Sturdy Construction:** Constructed from durable MDF wood, providing stability and supporting kitchen appliances on its countertop.

5. Assembly Instructions

Assembly of the VECELO Tilt Out Kitchen Trash Bin Cabinet requires careful attention to detail. Please follow the step-by-step instructions provided in the separate assembly manual included with your product. All necessary tools for assembly are included in the package.

1. Unpack all components and verify against the parts list in the assembly manual.
2. Identify each part and hardware item.
3. Follow the illustrated steps in the assembly manual to construct the cabinet frame.
4. Attach the tilt-out door mechanism according to the instructions.
5. Install the ozone purifier unit in its designated slot.
6. Ensure all screws and fasteners are tightened securely for stability.

If you encounter any difficulties during assembly, refer to the troubleshooting section or contact customer support.

6. Operating Instructions

The VECELO Tilt Out Kitchen Trash Bin Cabinet is straightforward to operate. The primary operational feature is the integrated ozone purifier.

6.1 Using the Tilt-Out Mechanism

- To access the trash bin, gently pull the handle on the front panel. The panel will tilt forward and down.
- Place a 10-13 gallon trash bin inside the cabinet. Ensure it fits properly and does not obstruct the closing mechanism.
- To close, push the front panel back into the upright position until it is flush with the cabinet frame.

6.2 Operating the Ozone Purifier

The ozone purifier is located inside the cabinet, typically near the top. It features a control panel for activation.

Image 6.1: Ozone purifier control panel and functions.

- **Power On/Off:** Press the power button (usually indicated by a circle with a vertical line) to turn the purifier on or off.
- **Mode Selection:** The purifier may have different modes (e.g., continuous operation, timed cycles). Refer to the specific icons on the control panel and the detailed purifier manual for mode selection.
- **Negative Ion Function:** This function helps to further purify the air by releasing negative ions. It often operates in conjunction with the ozone function or can be activated separately depending on the model.
- **Deodorization:** The ozone generated by the purifier breaks down odor molecules, effectively neutralizing unpleasant smells from waste.
- **Air Purification:** The combination of ozone and negative ions helps to reduce airborne particles and break down certain harmful substances like formaldehyde.

Ensure the purifier is connected to a 5V power source as specified in the specifications.

7. Maintenance and Care

Proper maintenance ensures the longevity and hygienic operation of your VECELO trash bin cabinet.

- **Regular Cleaning:** Wipe down the exterior and interior surfaces of the cabinet regularly with a soft, damp cloth. Avoid abrasive cleaners that could damage the finish.
- **Odor Purifier Maintenance:** Keep the ozone purifier unit clean and free from dust. Do not use liquid cleaners directly on the unit.
- **Prevent Overfilling:** Do not overfill the trash bin inside the cabinet, as this can prevent the door from closing properly and put undue stress on the tilt mechanism.
- **Check Connections:** Periodically check all screws and fasteners to ensure they remain tight. Re-tighten if necessary.
- **Avoid Moisture:** While the cabinet is designed for kitchen use, avoid prolonged exposure to excessive moisture.

8. Troubleshooting

This section addresses common issues you might encounter with your VECELO Tilt Out Kitchen Trash Bin Cabinet.

Problem	Possible Cause	Solution
Cabinet door does not close properly.	Trash bin is too large or overfilled; obstruction in the mechanism; loose hinges.	Ensure trash bin is 10-13 gallons and not overfilled. Check for any debris obstructing the tilt mechanism. Verify hinges are securely fastened.
Ozone purifier is not turning on.	Not connected to power; power cable is damaged; unit malfunction.	Check if the power cable is securely plugged in. Ensure the power source is active. Inspect the cable for damage. If issues persist, contact customer support.
Cabinet feels unstable or wobbly.	Loose fasteners; uneven floor.	Re-tighten all assembly screws. Ensure the cabinet is placed on a flat, level surface.
Odors persist despite purifier operation.	Purifier not operating correctly; excessive odor source; purifier unit needs cleaning.	Ensure the purifier is running in the correct mode. Clean the purifier unit. Consider emptying the trash more frequently.

For issues not covered here, please contact VECELO customer support.

9. Warranty and Support

VECELO is committed to providing quality products. While specific warranty details are not provided in this manual, please retain your proof of purchase for any warranty claims. For product support, replacement parts, or any concerns, please contact VECELO customer service through the retailer where the product was purchased or visit the official VECELO website.

We value your feedback and are here to assist you with any questions regarding your VECELO Tilt Out Kitchen Trash Bin Cabinet.
