bokilino 7c2.5DczbxC-w-1

bokilino 7-inch Portable Wireless Car Stereo

Model: 7c2.5DczbxC-w-1

Product Overview

The bokilino 7-inch Portable Wireless Car Stereo is designed to enhance your driving experience by integrating modern smartphone functionalities into any vehicle. This device supports both Wireless Apple CarPlay and Android Auto, offering seamless access to navigation, music, communication, and voice control features.

What's in the Box

- Wireless Car Stereo (1 unit)
- Power cable (1.5M)
- AUX cable (1M)
- LED Backup camera with 18ft cable
- 3M Adhesive mount
- User Manual

Setup

Mounting the Device

The device comes with an adjustable self-adhesive dashboard mount. Simply attach the 7-inch Android Auto Car Stereo to your dashboard. The mount is 90° adjustable, allowing for optimal viewing angles. It can be firmly

attached and easily removed as needed.

Power Connection

Connect the power cable to the device and plug the cigarette lighter adapter into your vehicle's 12V power outlet. The power cable also includes a USB port for charging other devices.

Phone Pairing (Wireless CarPlay & Android Auto)

1. Ensure Bluetooth and Wi-Fi are enabled on your smartphone.
2. On the car stereo, select either 'CarPlay' or 'Android Auto'.
3. Pair your phone to the SmartScreen using Bluetooth.
4. When prompted on your iPhone, select 'Use CarPlay with SmartScreen'. For Android, confirm the connection.

Operating Instructions

Wireless CarPlay & Android Auto

Once connected, you can access your phone's music, map navigation, messages, and hands-free phone calls directly from the 7-inch touch screen. The system supports voice control via Siri or Google Assistant for a safer driving experience.

Image: Demonstrates voice control functionality with Siri and Google Assistant for navigation and music playback, along with real-time GPS navigation display.

Audio Output Modes

The device offers four audio output modes: Bluetooth, AUX, FM transmitter, and built-in speakers. Bluetooth allows wireless audio transmission to your car stereo speakers. You can also use the AUX cable for direct connection or the FM transmitter to broadcast audio to your car's radio frequency.

Image: Visual representation of the four available audio output methods: Bluetooth, AUX interface, FM transmission, and built-in speakers.

Mirror Link Function

The 7-inch HD car touch screen supports smartphone mirror link for both Android and iOS devices. This allows you to display your phone's content, such as videos or GPS, directly on the car stereo screen.

Backup Camera Display

When the vehicle is shifted into reverse, the system automatically displays the view from the LED backup camera, assisting with safer parking. The camera supports night vision for improved visibility in low-light conditions.

Dashcam Recording (if applicable)

The device supports an SD card (not included) for extended functions, which can be used for dashcam recording if the unit has this feature. Please refer to the user manual for specific instructions on activating and managing dashcam recordings.

Maintenance

To ensure optimal performance and longevity of your bokilino car stereo, follow these maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to clean the screen and exterior. Avoid abrasive cleaners or solvents that may damage the surface.
- **Connections:** Periodically check all cables and connections to ensure they are secure and free from damage.
- **Temperature:** Avoid exposing the device to extreme temperatures for prolonged periods.

Troubleshooting

If you encounter issues with your device, please refer to the following common solutions:

- **Connection Issues (CarPlay/Android Auto):** Ensure your phone's Bluetooth and Wi-Fi are on. Try unpairing and re-pairing the device. If using USB, ensure the cable is securely connected and undamaged.
- **Mounting Stability:** If the adhesive mount is not holding securely, especially in hot climates, ensure the dashboard surface is clean and dry before application. Consider using a stronger adhesive if issues persist.
- **Backup Camera Not Displaying:** Check the camera cable connection to the main unit. Ensure the vehicle is properly shifted into reverse.
- **Audio Problems:** Verify the selected audio output mode (Bluetooth, AUX, FM). Adjust the volume on both the car stereo and your vehicle's original audio system.

Specifications

Feature	Detail
Screen Size	7 inches
