GRANDJOY SGF10GJ-01-BG10

GRANDJOY Shower System User Manual

Model: SGF10GJ-01-BG10

Introduction

Thank you for choosing the GRANDJOY Shower System. This manual provides essential information for the safe installation, operation, and maintenance of your new shower system. Please read this manual thoroughly before installation and keep it for future reference.

The GRANDJOY Shower System with 10" Ceiling Rain Head, Handheld Sprayer, and Pressure Balance Valve is designed to enhance your bathing experience with its dual-functionality and elegant brushed gold finish. It offers both a wide, gentle rainfall experience and the flexibility of a handheld sprayer for targeted rinsing.

Safety Information

Please observe the following safety precautions to prevent injury or damage to the product:

- Always turn off the main water supply before beginning any installation or maintenance work.
- Ensure all connections are secure and watertight to prevent leaks.
- The pressure balance valve is designed to prevent scalding. Do not tamper with its settings unless instructed by a qualified professional.
- If you are unsure about any part of the installation process, consult a licensed plumber.
- Do not use abrasive cleaners or harsh chemicals on the product's finish, as this may cause damage.

Package Contents

Verify that all components are present and undamaged before beginning installation. The package should include:

- 10-inch Ceiling Rain Head
- Handheld Sprayer
- Pressure Balance Valve
- 59-inch Stainless Steel Shower Hose
- All necessary Mounting Hardware
- Instruction Manual

Image: A comprehensive display of all individual components included in the GRANDJOY Shower System package, such as the rain shower head, handheld sprayer, mixing valve, shower hose, and various installation accessories, along with the instruction manual and protective gloves.

Specifications

Feature	Detail
Brand	GRANDJOY

Model Number	SGF10GJ-01-BG10
Color	Brushed Gold
Material	Brass, Stainless Steel
Finish Type	Brushed
Number of Handles	2
Mounting Type	Ceiling Mount
Shower Hose Length	59 inches (1500mm)
Rain Head Size	10 inches (250mm) Square
Product Dimensions	16.54 x 13.19 x 5.71 inches
Connection Standard	NPT 1/2" U.S. Standard

Setup and Installation

Professional installation is recommended. Ensure you have all necessary tools and materials before starting. This

system is compatible with NPT 1/2" U.S. standard connections.

Pre-Installation Checklist:

- Confirm water supply is turned off.
- Inspect all parts for damage.
- Gather necessary tools (e.g., wrench, pipe sealant, tape measure, drill).

Installation Steps:

1. **Prepare Wall Opening:** Create an opening in the wall for the pressure balance valve according to the provided template in the separate installation guide. Ensure proper depth for flush mounting.
2. **Install Pressure Balance Valve:** Connect the hot and cold water lines to the designated inlets on the valve. Secure the valve firmly within the wall opening. Ensure the valve is level.
3. **Connect Shower Head Arm:** Install the ceiling-mounted shower arm into the ceiling water supply line. Apply pipe sealant to threads for a watertight seal.
4. **Attach Rain Head:** Screw the 10-inch rain head onto the shower arm. Hand-tighten, then use a wrench for a final snug fit, being careful not to overtighten.
5. **Install Handheld Sprayer Holder:** Mount the handheld sprayer holder to the wall at a comfortable height using the provided screws and anchors.
6. **Connect Shower Hose:** Attach one end of the 59-inch stainless steel hose to the handheld sprayer and the other end to the outlet on the valve or wall elbow.
7. **Install Trim Plate and Handles:** Once all plumbing connections are complete and tested for leaks, install the decorative trim plate over the valve and attach the control handles.
8. **Test System:** Slowly turn on the main water supply and check for any leaks. Test both the rain head and handheld sprayer functions.

Note: For detailed diagrams and specific measurements, refer to the dedicated installation manual included with your product.

Operating Instructions

Your GRANDJOY Shower System features dual functionality, allowing you to switch between the ceiling rain head and the handheld sprayer. Only one function operates at a time to ensure optimal water pressure.

Temperature Control:

The lower handle controls the water temperature. Rotate it to adjust the mix of hot and cold water to your desired temperature. The built-in pressure balance valve will maintain a consistent temperature, preventing sudden changes due to water pressure fluctuations elsewhere in your home.

Function Selection:

The upper knob on the control valve is the diverter. Rotate this knob to select your desired shower mode:

- **Rainfall Mode:** Rotate the knob to activate the 10-inch ceiling rain head for a wide, gentle rainfall experience. The rain head can rotate 360° and tilt up to 15° for customized coverage.
- **Handheld Mode:** Rotate the knob to activate the handheld sprayer for targeted rinsing, ideal for cleaning, bathing children, or washing pets.

Image: A close-up view of the shower control valve, showing the upper knob used to transition between the two functions: the rainfall shower and the handheld sprayer. Only one function can be active at a time.

Image: A visual representation of the two available spray modes: a wide shot of the ceiling-mounted rain shower head delivering a rainfall effect, and a separate shot of the handheld sprayer providing a more focused stream.

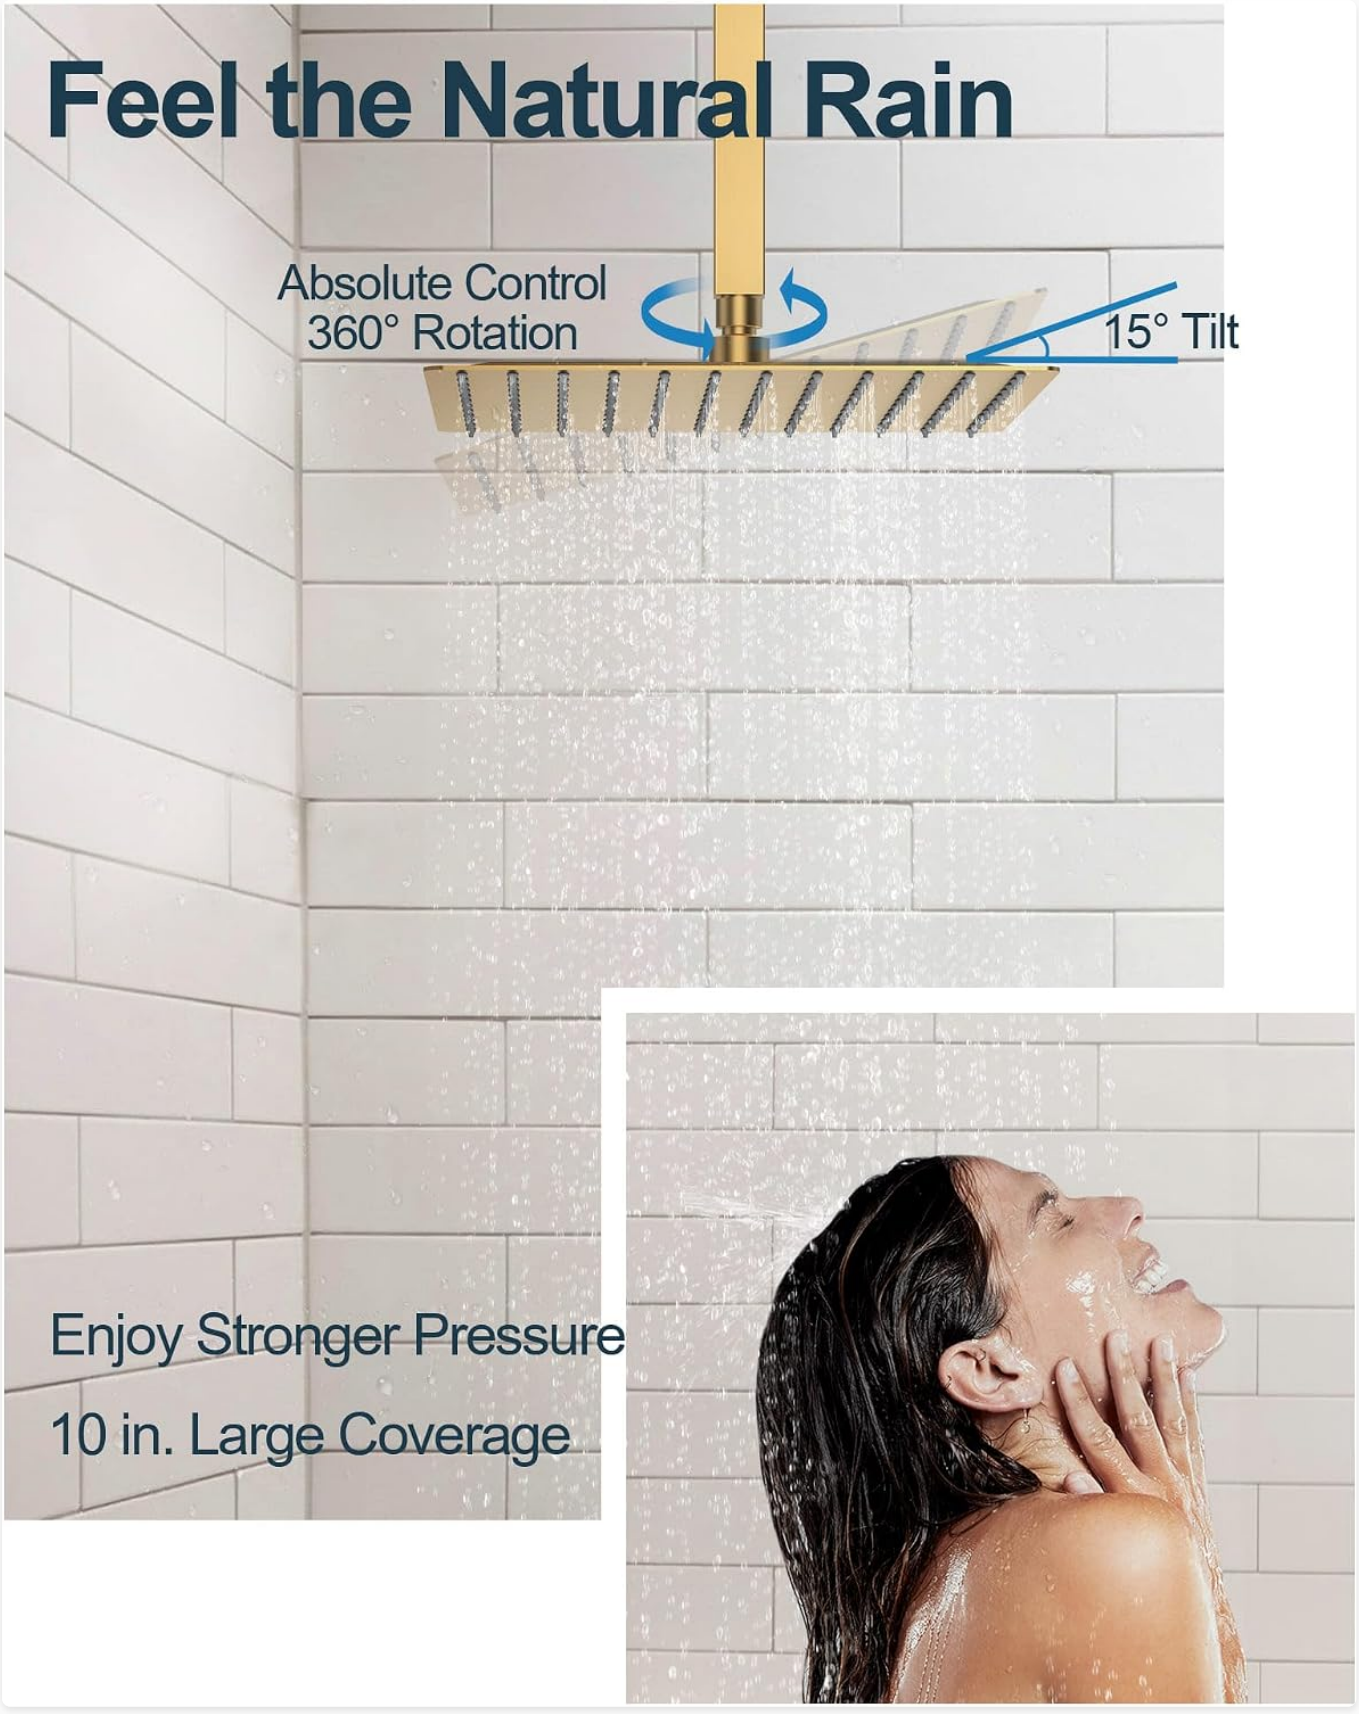

Image: The 10-inch square rain shower head in operation, demonstrating its wide coverage and adjustable features, including 360-degree rotation and a 15-degree tilt for personalized comfort.

Image: A close-up view of the handheld sprayer in use, showing its focused water stream and the brushed gold finish of the unit and hose.

Maintenance

Proper care and maintenance will ensure the longevity and performance of your GRANDJOY Shower System.

Cleaning the Finish:

- Clean the brushed gold finish regularly with a soft, damp cloth.
- For stubborn spots, use a mild soap and water solution. Rinse thoroughly and dry immediately with a soft cloth to prevent water spots.
- **DO NOT** use abrasive cleaners, harsh chemicals, ammonia-based cleaners, or scouring pads, as these can damage the finish and void the warranty.

Cleaning the Nozzles:

- The eco-friendly silicone nozzles are designed to prevent clogging. If mineral deposits build up, gently rub the silicone nozzles with your finger or a soft brush to dislodge them.
- For more severe mineral buildup, you can soak the shower head (if removable) in a solution of white vinegar and water for a few hours, then rinse thoroughly.

Troubleshooting

If you encounter issues with your shower system, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Low Water Pressure	Clogged nozzles; partially closed shut-off valve; low household water pressure.	Clean shower head/handheld nozzles; ensure shut-off valves are fully open; consult a plumber for household water pressure issues.
Water Leaking from Connections	Loose connections; worn O-rings/gaskets; insufficient pipe sealant.	Tighten connections; replace O-rings/gaskets; reapply pipe sealant. Turn off water supply before attempting.
Inconsistent Water Temperature	Pressure balance valve issue; hot/cold water supply imbalance.	Ensure hot and cold water supplies are stable. If problem persists, contact a qualified plumber or customer support.
Diverter Knob Not Switching Functions	Internal mechanism obstruction or wear.	Ensure no debris is obstructing the knob. If it's stiff or not engaging, contact customer support.

If the problem persists after attempting these solutions, please contact GRANDJOY customer support.

Warranty and Support

GRANDJOY products are manufactured to the highest quality standards and are backed by a limited warranty. Please refer to the warranty card included in your package for specific terms and conditions.

For technical assistance, replacement parts, or warranty claims, please contact GRANDJOY customer support:

- **Website:** Visit the GRANDJOY Store on Amazon
- **Email:** Refer to your product packaging or warranty card for direct contact information.
- **Phone:** Refer to your product packaging or warranty card for direct contact information.

When contacting support, please have your model number (SGF10GJ-01-BG10) and purchase date ready.
