Dyson Airwrap Co-anda2x Multi-Styler and Dryer Instruction Manual

Model: 587990-01

1. INTRODUCTION

The Dyson Airwrap Co-anda2x Multi-Styler and Dryer is an advanced hair styling tool designed for versatile styling without extreme heat damage. Powered by the Dyson Hyperdymium 2 motor, it offers 30% more power and 2x the air pressure compared to its predecessor, enabling faster drying, better curling, and straighter styles. This 6-in-1 device allows you to dry, curl, wave, straighten, smooth, and volumize your hair with intelligent attachments that adapt to your hair type and styling preferences.

Key Features:

- **No Heat Damage:** Utilizes the Coanda effect to style hair with air, preventing extreme heat damage.
- **Powerful Motor:** Equipped with the Dyson Hyperdymium 2 motor, providing 30% more power and 2x the air pressure for efficient styling.

- **6-in-1 Versatility:** Capable of drying, curling, waving, straightening, smoothing, and volumizing.
- **Intelligent Attachments:** Automatically adapt heat and airflow settings, remembering your styling preferences.
- **MyDyson App Connectivity:** Bluetooth wireless technology allows connection to the MyDyson app for personalized styling sequences based on your hair profile.
- **Lightweight Design:** Our lightest Airwrap multi-styler for improved control and maneuverability.

2. SETUP

Before first use, ensure all packaging materials are removed. Connect the main power cord to a suitable electrical outlet. The Dyson Airwrap Co-anda2x comes with various attachments designed for different styling needs. To attach an accessory, align it with the main unit and push until it clicks securely into place. To remove, pull the accessory away from the main unit while holding the release button (if applicable).

Full hair dryer performance

Our most powerful motor generates high-velocity airflow, for faster drying.¹

MyDyson App Connection:

For a personalized styling experience, download the MyDyson app. Connect your Dyson Airwrap Co-anda2x via Bluetooth. The app will guide you through creating a hair profile by answering a few questions about your hair type. This allows the machine to intelligently adapt to the best heat and airflow settings and remember your preferred styling sequences.

3. OPERATING INSTRUCTIONS

The Dyson Airwrap Co-anda2x is designed for intuitive use. Ensure your hair is damp for most styling, or clean and dry for smoothing attachments. Select the appropriate attachment for your desired style.

Power and Settings:

- **Power Button:** Press to turn the device on or off.
- **Temperature Control:** Adjust heat settings using the dedicated button. The intelligent heat control prevents extreme heat damage.
- **Airflow Control:** Adjust the fan speed for desired airflow intensity.
- **Cold Shot:** Press and hold the cold shot button to set your style with a burst of cool air.

i.d. Curl Sequence:

The advanced i.d. curl sequence senses hair movement, automatically wrapping hair around the barrel and adapting heat, airflow, and timings to your specific hair type. This ensures perfectly timed and consistent curls every time.

4. ATTACHMENTS

The Dyson Airwrap Co-anda2x comes with a variety of attachments to achieve different styles:

- **AirSmooth2x Attachment:** Designed to finish dried hair, creating smooth, frizz-free styles. 91% of users reported healthy-looking hair, and 81% reported frizz-free results.
- **Co-anda2x Barrels (1.6"):** These barrels create loose, voluminous curls and waves. They feature stronger Coanda airflow for easier, tighter wrapping and defined curls, with the ability to curl in both directions.
- **Round Volumizing Brush:** Adds body and shape to hair.
- **Firm Smoothing Brush:** Designed to smooth and control unruly, frizz-prone hair.
- **Soft Smoothing Brush:** Engineered to gently align and smooth finer hair.
- **Coanda Smoothing Dryer:** Pre-dries hair and finishes styles, reducing flyaways.

5. MAINTENANCE

Regular maintenance ensures optimal performance and longevity of your Dyson Airwrap Co-anda2x.

Cleaning the Filter:

The filter at the base of the main unit should be cleaned regularly to prevent blockages and maintain airflow.

Twist and pull down the filter cage to remove it. Use the provided filter cleaning brush to gently remove any dust or debris. Rinse the filter cage under warm water if necessary, ensuring it is completely dry before reattaching.

Our most powerful hair care motor

30% more powerful than the previous generation. 2X the air pressure.

Image: Demonstrates how to remove and clean the filter of the Dyson Airwrap.

General Care:

- Wipe down the main unit and attachments with a soft, damp cloth.
- Avoid using abrasive cleaners or solvents.
- Store the device and its attachments in the provided storage case to protect them from damage.

6. TROUBLESHOOTING

If you encounter any issues with your Dyson Airwrap Co-anda2x, refer to the following common solutions:

- **Device Not Turning On:** Check if the power cord is securely plugged into a working outlet. If the device still doesn't turn on, locate the red reset button on the plug (if applicable) and press it for 30 seconds to reset the unit.
- **Weak Airflow:** This is often caused by a clogged filter. Refer to the Maintenance section for instructions

on how to clean the filter.

- **Attachments Not Staying On:** Ensure the attachment is properly aligned and pushed firmly until it clicks into place.
- **MyDyson App Connectivity Issues:** Ensure Bluetooth is enabled on your device and the Airwrap is within range. Try restarting both the Airwrap and your mobile device.

For further assistance, consult the MyDyson app or contact Dyson customer support.

7. SPECIFICATIONS

Feature	Detail
Product Dimensions	2 x 1 x 10 inches
Item Model Number	587990-01
UPC	885609038766
