6. MAINTENANCE AND CARE

Proper care will extend the life and appearance of your Serta Tulsa loveseat.

- **Cleaning:** Spot clean with a damp cloth. Use a mild fabric cleaner if necessary, testing on an inconspicuous area first. Do not use harsh chemicals or abrasive cleaners.
- **Spills:** Blot spills immediately with a clean, dry cloth. Do not rub.

- **Vacuuming:** Regularly vacuum the upholstery using a soft brush attachment to remove dust and debris.
- **Sunlight:** Avoid prolonged exposure to direct sunlight to prevent fading of the fabric.
- **Inspection:** Periodically check all bolts and connections to ensure they remain tight. Retighten as needed.

7. TROUBLESHOOTING

If you encounter issues with your Serta Tulsa loveseat, refer to the following common solutions.

Problem	Possible Cause	Solution
Loveseat feels unstable or wobbly.	Loose leg attachments or uneven floor.	Ensure all leg bolts are securely tightened. Move the loveseat to a level surface or use furniture pads to stabilize.
Conversion mechanism is stiff or difficult to operate.	Mechanism may need lubrication or there might be an obstruction.	Check for any obstructions. Apply a silicone-based lubricant to moving parts if necessary (avoiding fabric). Ensure the path is clear.
Fabric appears stained or dirty.	Accumulated dirt or spills.	Refer to the "Maintenance and Care" section for spot cleaning instructions.

If the problem persists after attempting these solutions, please contact customer support.
