

## Empava JT801

# Empava PRO Series Whirlpool Tub Instruction Manual

Model: JT801

Brand: Empava

## 1. INTRODUCTION

Welcome to the Empava PRO Series Whirlpool Tub. This manual provides essential information for the safe and efficient operation, installation, and maintenance of your new luxury spa acrylic soaking tub. Please read this manual thoroughly before installation and use to ensure optimal performance and longevity of your product.

### Key Features:

- **Detachable Skirt for Flexible Installation:** Seamlessly adapt to your bathroom layout with a removable skirt, offering freestanding elegance or space-saving alcove integration.
- **Dedicated Milk Bath Nozzles:** Indulge in a silky skincare ritual with specialized milk bath jets, featuring adjustable speed settings for customizable luxury.
- **65 Hydrotherapy Jets + Dual Waterfalls:** Target muscle tension with precision-placed jets while dual waterfalls infuse oxygen for softer, rejuvenated skin—engineered for a full-body spa tub experience.
- **Wireless Audio Sync & Chromatherapy:** Stream your playlist directly to the bathtub's built-in speakers through wireless connectivity, paired with 5-color LED lighting to create a multi-sensory retreat.
- **Ozone-Powered Water Purification:** Enjoy crystal-clean water with eco-friendly ozone technology, eliminating 99% of impurities without harsh chemicals—ideal for sensitive skin.

## 2. SAFETY INFORMATION

Please observe all local plumbing and electrical codes. Installation must be performed by a qualified professional. Failure to follow these guidelines may result in injury or damage to the product.

- Do not operate the tub without sufficient water level to cover all jets.
- Avoid using abrasive cleaners, harsh chemicals, or sharp objects on the acrylic surface.
- Ensure proper grounding for all electrical connections to prevent electrical shock.
- Keep children and pets away from the tub during operation and when unattended.
- Consult a physician before use if you have any medical conditions, especially heart conditions, high blood pressure, or diabetes.

- Do not use electrical appliances near the tub.

### 3. PACKAGE CONTENTS

Verify that all components are present and undamaged before beginning installation. If any items are missing or damaged, please contact Empava customer support immediately.

- Jetted Tub Unit
- Faucets
- Drainer Assembly
- Handshower with Hose
- Headrests (2 units)
- Overflow Assembly

### 4. SETUP AND INSTALLATION

This section outlines the steps for unpacking and preparing your Empava PRO Series Whirlpool Tub for installation. Professional installation by a licensed plumber and electrician is strongly recommended to ensure compliance with local codes and safe operation.

#### 4.1 Unpacking the Tub

The tub is shipped in a protective wooden crate. Carefully follow these steps to uncrate the unit, ensuring not to damage the tub or its components.

Your browser does not support the video tag.

*Video: Unboxing and Initial Setup of the Empava Jetted Tub. This video demonstrates the process of safely opening the wooden crate, removing packaging materials, and identifying key components of the Empava whirlpool bathtub.*

#### 4.2 Component Assembly

Attach the handshower, drain, and headrests as shown in the illustrations below. Ensure all connections are secure.

*Image: Close-up view of the tub's control panel, showing the digital display and various function buttons. The handshower is also visible, ready for connection.*

*Image: Two white, cushioned headrests being placed onto the edges of the bathtub, indicating their easy installation for user comfort.*

### 4.3 Plumbing and Electrical Connections

Refer to the detailed diagram for plumbing and electrical requirements. All connections must comply with local building and safety codes.

*Image: Technical diagram illustrating the plumbing and electrical connections for the bathtub, including dimensions for drainage hole, hot/cold water pipes, and electrical outlet requirements.*

- **Drainage Hole:** >Φ1.57"
- **Power Connection:** Requires two separate 15A Dedicated GFCI Circuits.
- **Hot/Cold Water Pipe Length:** 39.37"
- **Voltage:** 110V
- **Wattage:** 4820 W
- **Drain Pipe Length:** 39.37"
- **Shower Head Hose Length:** 59.05"

## 5. OPERATING INSTRUCTIONS

This section details how to use the various features of your Empava PRO Series Whirlpool Tub for a complete spa experience.

### 5.1 Filling the Tub

Ensure the drain is closed before filling. Always fill the tub with water to a level above the highest jets before activating any functions to prevent damage to the pumps and heating elements.

### 5.2 Milk Bath Function

Activate the dedicated milk bath nozzles for a luxurious microbubble skin treatment. Press the corresponding button on the control panel once to cycle through different modes, and press it twice to power off the function.

## Built-in Milk Bath Therapy – Microbubble Technology for Skin Renewal

*Image: A graphic depicting the "Built-in Milk Bath Therapy" with microbubble technology for skin renewal, showing a person in a tub with clear water transforming into milky, bubbly water.*

### 5.3 Hydrotherapy Jets and Waterfalls

The tub features 65 hydrotherapy jets and dual waterfalls. Use the control panel to activate and adjust the intensity of the jets for targeted muscle relief. The waterfalls infuse oxygen into the water, enhancing relaxation.

## Dual Waterfalls – Oxygen-Infused Spa Therapy

*Image: A close-up view of the dual waterfalls in the tub, showing water cascading into the bath, labeled "Dual Waterfalls - Oxygen-Infused Spa Therapy."*

*Image: Underwater view of hydro and air jets creating bubbles and streams, illustrating "Hydro & Air Jets - Full Body Massage Therapy."*

#### **5.4 Chromatherapy and Wireless Music System**

Enhance your bathing experience with the integrated 5-color LED lighting system and built-in wireless speakers. Connect your smart device wirelessly to stream your favorite music directly to the tub.

*Image: A detailed view of the digital control panel on the tub's rim, displaying various settings and icons for functions like temperature, music, and lighting.*

## 6. MAINTENANCE

Regular maintenance ensures the longevity and optimal performance of your whirlpool tub. Proper care will keep your tub looking new and functioning efficiently.

### 6.1 Cleaning the Tub

Clean the acrylic surface with a soft cloth and a mild, non-abrasive cleaner. Rinse thoroughly with clean water after cleaning to remove any soap residue. Avoid using harsh chemicals or abrasive pads, which can damage the finish.

*Image: A hand wiping the tub surface with a cloth, demonstrating the "Easy-to-Clean Surface."*

## 6.2 Ozone Sanitization

The built-in ozone technology automatically purifies the water, eliminating 99% of impurities and bacteria. This system operates automatically and requires minimal user intervention for effective sanitization.

*Image: A graphic illustrating the "Ozone Self-Cleaning" process, showing O3 molecules purifying water within the tub for hygienic and odor-free bathing.*

## 6.3 Drain Cleaning

Periodically check and clean the drain assembly to prevent blockages from hair or debris. Regular cleaning will ensure efficient water drainage.

# 7. TROUBLESHOOTING

This section provides solutions for common issues you might encounter with your Empava PRO Series Whirlpool Tub. If the problem persists, please contact customer support.

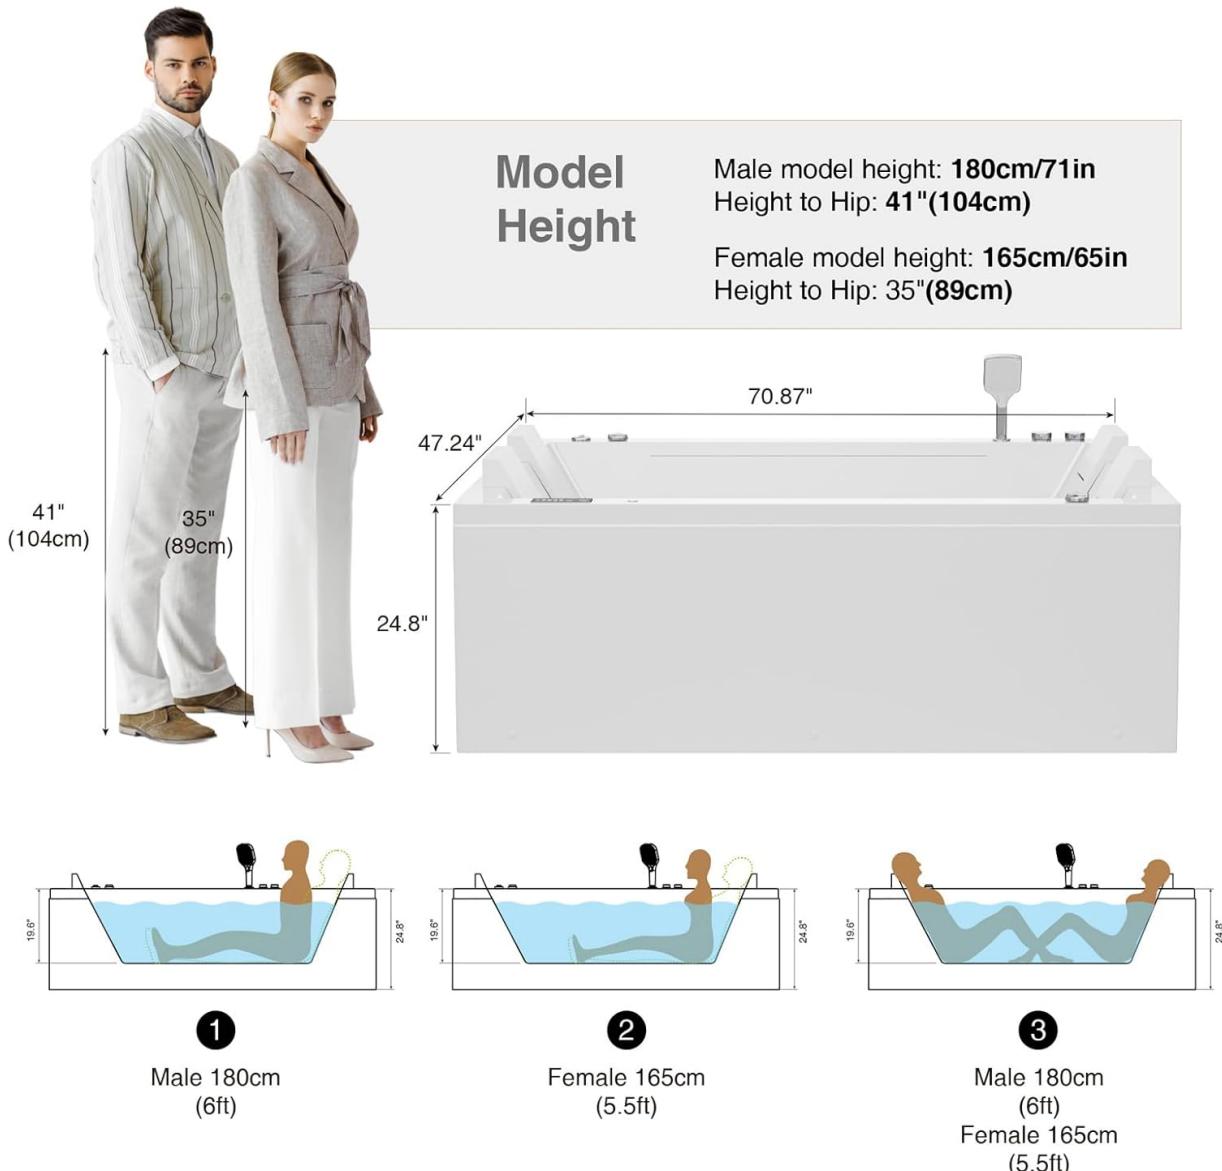

Problem	Possible Cause	Solution
Jets not working	Insufficient water level, power supply issue, clogged jets.	Ensure water level is above jets. Check power connection and GFCI. Clean jets if necessary.

Problem	Possible Cause	Solution
No sound from speakers	Bluetooth not connected, volume too low on device or tub.	Re-pair Bluetooth device. Increase volume on both your device and the tub's control panel.
Water not draining	Drain stopper closed, blockage in drain.	Ensure drain stopper is fully open. Check for and remove any physical blockages in the drain.

## 8. SPECIFICATIONS
