WinZo SM8008-2-Gold

WinZo Smart Toilet Instruction Manual

Model: SM8008-2-Gold

Brand: WinZo

1. PRODUCT OVERVIEW

The WinZo Smart Toilet is a state-of-the-art tankless bidet toilet designed for modern bathrooms, offering a blend of luxury, hygiene, and convenience. This manual provides detailed instructions for its installation, operation, and maintenance.

Key Features:

- **Luxury Smart Toilet:** Intelligent design with foot sensor lid opening, heated seat, instant hot water, rinse function, warm air drying, light-sensitive night light, LED display, and remote control.
- **Hygiene and Cleanliness:** Built-in dynamic cleaning module activates high-frequency short-wave closed irradiation for deep cleaning.
- **Foot Sensor Operation:** Automatic lid and seat opening/closing, and flushing upon approach and departure.
- **Tankless Design:** Efficient water usage (less than 1.28 gallons per flush) with foot-sensing, auto, or remote flushing.
- **Heated Seat & Warm Water:** Instant warm water and heated bidet seat with 3-second heating technology and 4 adjustable temperature levels.
- **ADA Chair Height Design:** 17-inch floor-to-bowl height for enhanced comfort and accessibility.

This image shows the sleek, modern design of the WinZo Smart Toilet in a black and gold finish, highlighting its compact, tankless form factor.

2. SAFETY FUNCTIONS

The WinZo Smart Toilet incorporates several safety features to ensure user protection and product longevity.

- **110V American Standard:** Complies with standard electrical requirements, including leakage plugs and CE marking.
- **High/Low Voltage Protection:** Safeguards against electrical fluctuations.
- **Flame Retardant Seat:** Enhances safety in case of electrical issues.
- **IPX4 Waterproof:** Provides protection against splashing water from any direction.
- **Dry Burning Protection:** Prevents damage from overheating when water levels are low.

Figure 2.1: Various Safety Functions

This diagram visually represents the multiple safety features integrated into the WinZo Smart Toilet, including electrical standards, voltage protection, flame retardancy, waterproofing, and dry burning protection.

3. SETUP AND INSTALLATION

Due to the integrated electrical and plumbing components, professional installation is highly recommended for the WinZo Smart Toilet to ensure proper function and compliance with local codes.

3.1 Pre-Installation Checklist:

- Verify power outlet (110V) and water supply are within reach of the toilet's intended location.
- Ensure adequate space for the toilet dimensions.
- Confirm floor drain compatibility.

3.2 Dimensions:

The toilet's compact design allows for flexible placement, but precise measurements are crucial for installation.

- Product Dimensions: 27"D x 15.41"W x 18.9"H
- ADA Comfort Height: 17" floor-to-bowl height.

Various Safety Functions

Figure 3.1: Product Dimensions

This image provides a detailed view of the WinZo Smart Toilet's dimensions, including height, width, depth, and specific measurements for the seat and lid, crucial for installation planning.

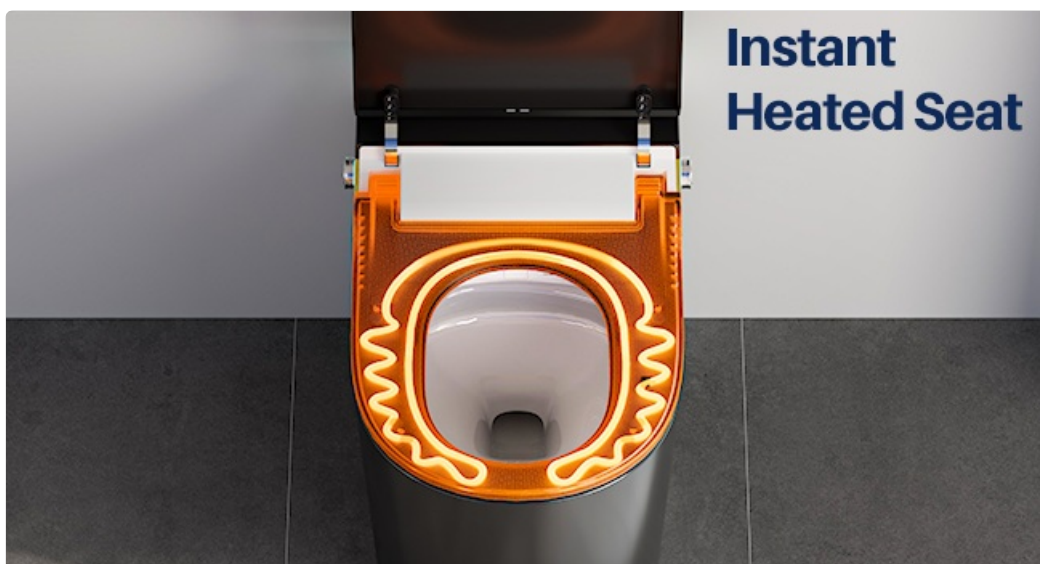

Figure 3.2: ADA Comfort Height

This graphic illustrates the ergonomic advantage of the WinZo Smart Toilet's 17-inch ADA compliant height compared to a standard 15-inch toilet, promoting ease of use and comfort.

4. OPERATING INSTRUCTIONS

The WinZo Smart Toilet offers a range of intelligent features for enhanced user experience. Familiarize yourself with the following operations.

4.1 Automatic Sensing and Flushing:

The toilet features a foot sensor for hands-free operation.

- **Auto Open/Close Lid & Seat:** Approach the toilet, and the lid will automatically open. The seat will also open if a foot sensor is activated.
- **Auto Pre-wetting:** Before use, the bowl is pre-wetted to ensure a cleaner flush.
- **Foot Sensor Flushing:** A foot sensor can initiate flushing.
- **Auto Flush on Departure:** The toilet automatically flushes when you leave.

Auto-Sensing, Free Your Hands

Figure 4.1: Auto-Sensing Operation

This illustration demonstrates the sequence of operations for the foot-sensing feature, including automatic lid opening, seat opening, pre-wetting, flushing, and lid closing.

Figure 4.2: Complete Operation Cycle

This comprehensive flowchart outlines the entire user interaction cycle with the smart toilet, from automatic lid opening to UV sterilization and auto-closing, highlighting each step of the process.

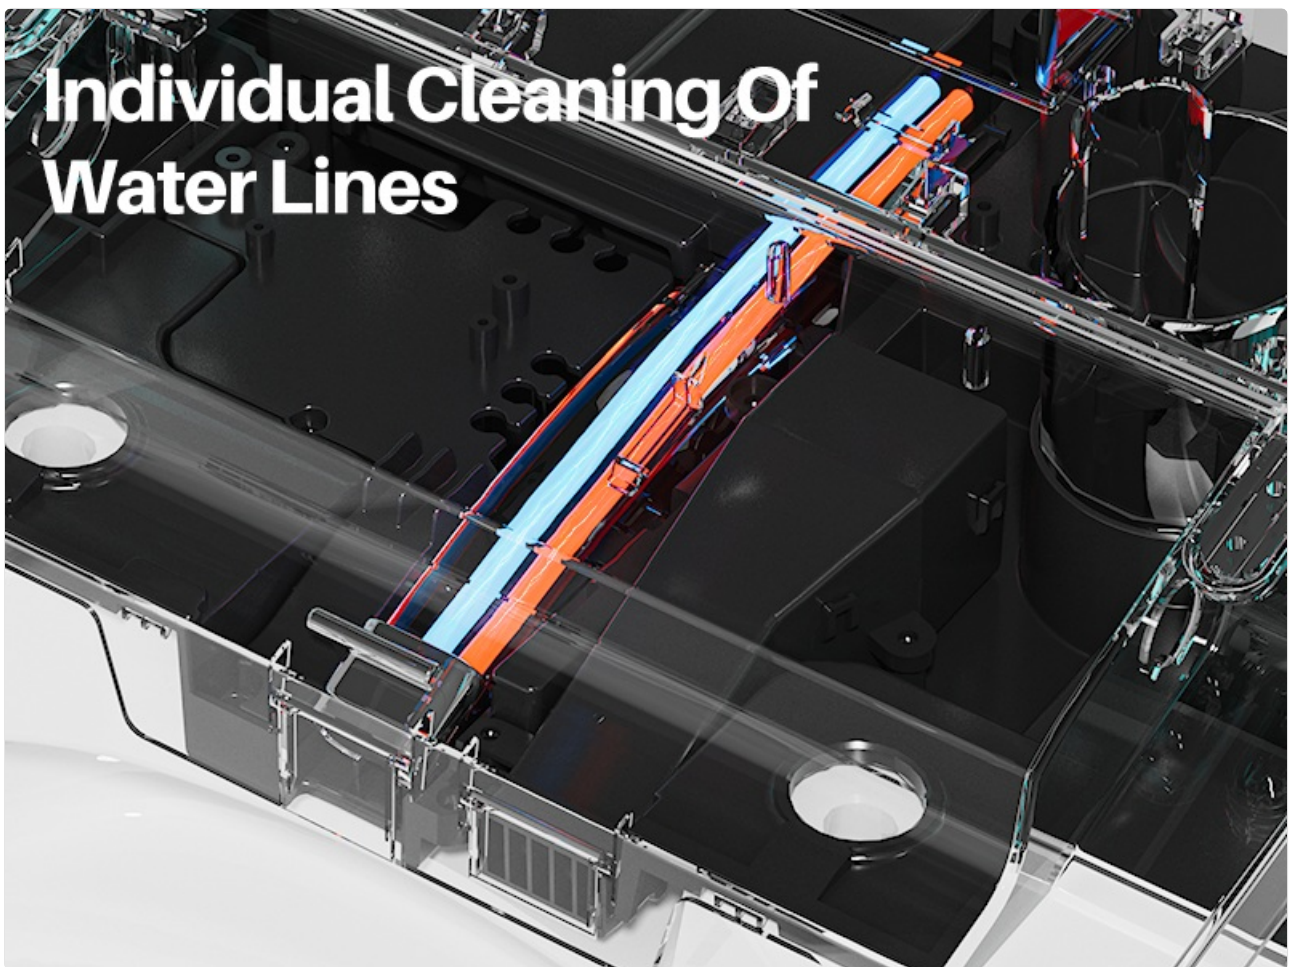

Figure 4.3: Pre-Moistening Function

This image illustrates the pre-moistening function, where a small amount of water is released into the bowl before use to help prevent waste from sticking and ensure a cleaner flush.

4.2 Heated Seat and Warm Water:

Enjoy comfort with adjustable temperature settings.

- **Instant Heating:** The seat and water heat up within 3 seconds.
- **Adjustable Temperature:** Choose from 4 temperature levels for the seat and water, ranging from room temperature to 104°F (40°C).

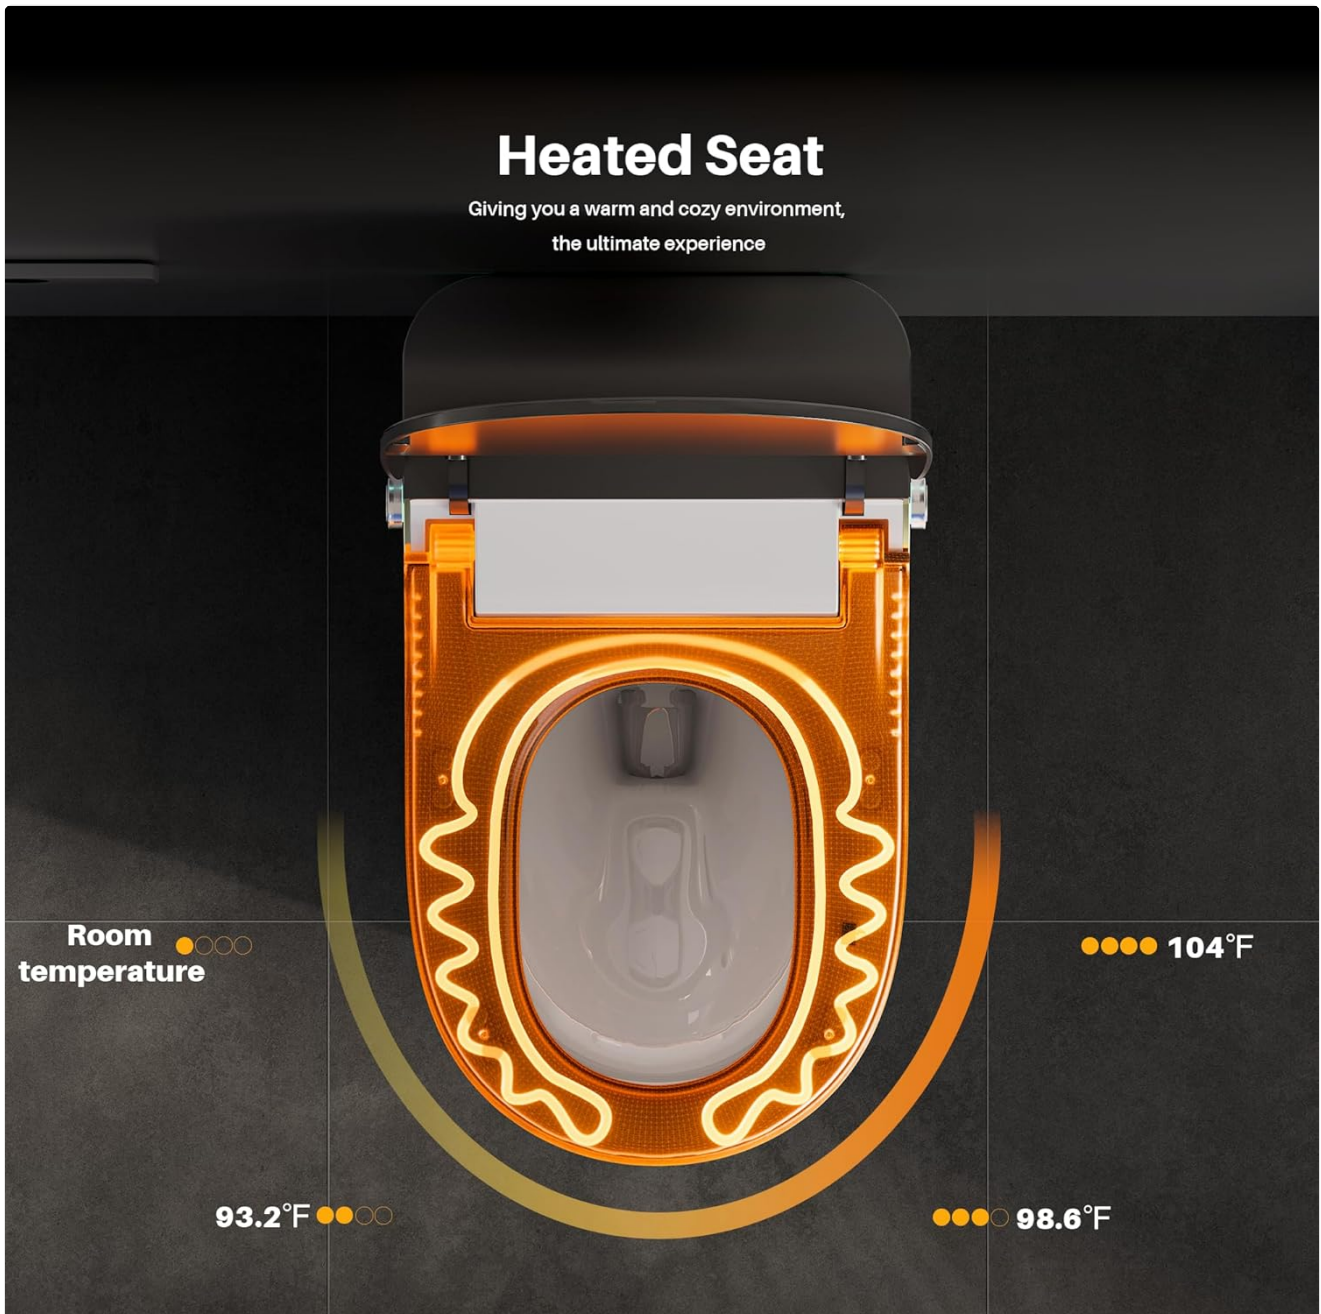

Figure 4.4: Heated Seat Function

This diagram illustrates the heated seat feature, showing the heating elements and indicating various temperature settings from room temperature up to 104°F for personalized comfort.

4.3 Bidet Functions:

Multiple cleaning modes cater to different needs.

- **Female Cleaning:** Gentle wash for feminine hygiene.
- **Hip Cleaning:** Standard posterior wash.
- **Mobile Cleaning:** Nozzle moves back and forth for a wider cleaning area.
- **Nozzle Self Cleaning:** Automatic cleaning of the bidet nozzle before and after use.

Four cleaning modes for the whole family

Female Cleaning

Hip Cleaning

Mobile Cleaning

Nozzle Self Cleaning

4-step water temperature adjustment

Figure 4.5: Four Cleaning Modes

This image displays the four distinct cleaning modes available: Female Cleaning, Hip Cleaning, Mobile Cleaning, and Nozzle Self Cleaning, along with a 4-step water temperature adjustment scale.

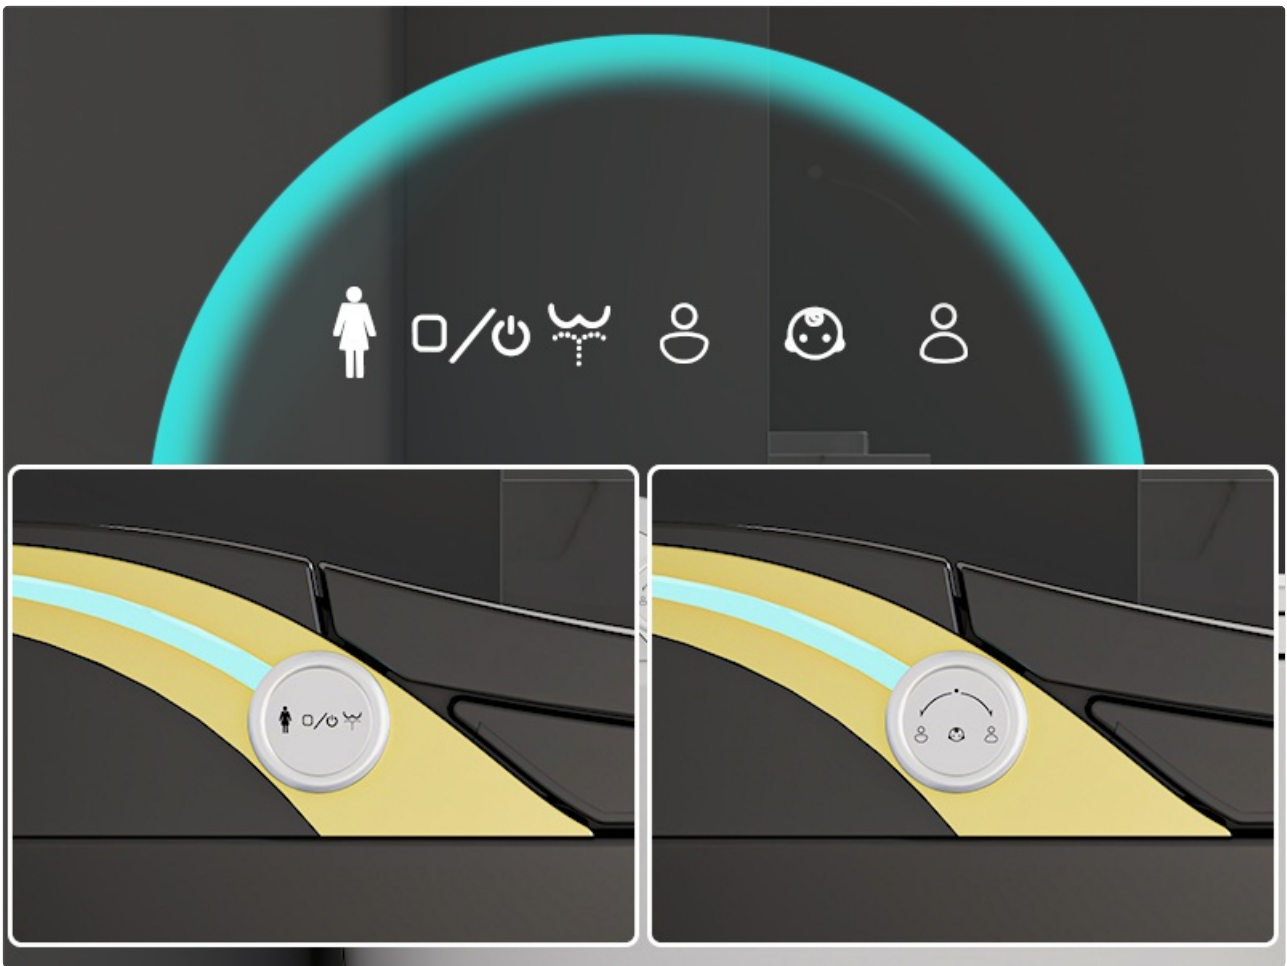

Figure 4.6: Individual Cleaning of Water Lines

This internal view highlights the separate water lines dedicated to different cleaning functions, ensuring hygienic and efficient water delivery for each bidet mode.

4.4 Flushing System:

The tankless design utilizes a powerful flushing mechanism.

- **Double Whirlpool Siphon Rinsing:** Ensures instant, residue-free cleaning with a powerful jet spin and power jet siphon.

Figure 4.7: Double Whirlpool Siphon Rinsing

This diagram illustrates the powerful double whirlpool siphon rinsing system, showing how both a powerful jet spin and a power jet siphon work together for efficient, residue-free flushing.

4.5 Additional Features:

- **Soft Night Light Illumination:** A light-sensitive night light provides gentle illumination for nighttime use.
- **LED Display:** Provides clear feedback on settings and status.
- **Remote Control:** Full control over all functions from a convenient remote.

Figure 4.8: Soft Night Light Illumination

This image shows the WinZo Smart Toilet with its subtle, light-sensitive night light activated, providing gentle illumination for easy use in the dark without disturbing sleep.

5. MAINTENANCE

Regular maintenance ensures the longevity and optimal performance of your WinZo Smart Toilet.

5.1 Cleaning:

- **Nozzle Self-Cleaning:** The bidet nozzle automatically cleans itself before and after each use.
- **Ultraviolet Spray Bar Sterilization:** After closing the lid, the UV sterilization function automatically turns on to deeply clean the toilet bowl, preventing cross-infection.
- **Exterior Cleaning:** Use a soft, damp cloth and mild, non-abrasive cleaner for the exterior surfaces. Avoid harsh chemicals or abrasive materials that could damage the finish.

Ultraviolet Spray Bar Sterilization

Automatically turn on the UVsterilization after closing the lidall-round scanning

Avoid cross-infectionprotect your family's health

6. TROUBLESHOOTING

Refer to this section for common issues and their potential solutions.

Problem	Possible Cause	Solution
Toilet does not flush automatically.	Foot sensor obstructed or dirty; power interruption.	Clean sensor area; check power connection; use remote or manual flush.
Heated seat not warming.	Heating function off; power issue.	Activate heating via remote; ensure stable power supply.
Bidet spray weak or inconsistent.	Water pressure low; nozzle clogged.	Check water supply valve; run nozzle self-cleaning cycle.

Problem	Possible Cause	Solution
Lid/seat not opening/closing automatically.	Foot sensor not detecting presence; obstruction.	Ensure clear path to sensor; clean sensor.
Power outage.	No electrical power.	The toilet is designed with a power outage flush feature. Consult the full manual for specific instructions on manual flushing during power loss.

For issues not listed here, or if solutions do not resolve the problem, please contact WinZo customer support.

7. SPECIFICATIONS

Detailed technical specifications for the WinZo Smart Toilet.

Specification	Detail
Model Number	SM8008-2-Gold
Color	Black Gold
Product Dimensions (D x W x H)	27"D x 15.41"W x 18.9"H
Material	Ceramic (Bowl), Plastic (Seat)
Item Weight	98 Pounds
Installation Type	Floor Mounted
Shape	Oval
Water Consumption	Less than 1.28 gallons per flush
Heated Seat Temperature Levels	4 adjustable levels (up to 104°F)
Bidet Water Temperature Levels	4 adjustable levels
Certifications	CUPC, Watersense (as per brand information)
First Available Date	May 20, 2025
