

Naifay Model A For Civic 2013-2017

Naifay Android Car Radio User Manual

For Honda Civic 2013-2017 (Model A)

1. INTRODUCTION

This manual provides detailed instructions for the installation, operation, and maintenance of your Naifay Android Car Radio, Model A, designed for Honda Civic vehicles manufactured between 2013 and 2017. Please read this manual thoroughly before installation and use to ensure proper functionality and safety.

Important Compatibility Note:

- This unit is not compatible with EX series models.
- If your vehicle has a premium sound system (J.B.L or B.O.S.E) or a large factory navigation screen, this Android head unit is not supported.
- Always double-check your car model, year, dimensions, OEM unit style, and the shape of your vehicle's center console before purchasing and installing.

2. PRODUCT OVERVIEW

The Naifay Android Car Radio is an upgraded multimedia system featuring a 9-inch 2.5D IPS touch screen. It runs on an Android 12 system with a 4-Core processor, 2GB RAM, and 32GB ROM, offering enhanced performance and a wide range of functionalities.

Key Features:

- **Operating System:** Android 12
- **Processor:** 4-Core
- **Memory:** 2GB RAM + 32GB ROM
- **Display:** 9-inch 2.5D IPS Touch Screen (1280x720 HD)
- **Connectivity:** Wireless CarPlay, Wireless Android Auto, MirrorLink (iOS wireless, Android wireless/wired), Bluetooth 5.0, WiFi
- **Navigation:** Offline/Online GPS Navigation (GPS module included)
- **Audio:** FM Radio, Equalizer Sound Effects

- **Inputs/Outputs:** AHD Backup Camera support, Steering Wheel Control (SWC), 2 USB ports
- **User Interface:** Multiple UI themes and wallpaper options, Split Screen functionality

3. WHAT'S IN THE BOX

Carefully unpack the box and ensure all items are present and in good condition. If any items are missing or damaged, please contact customer support.

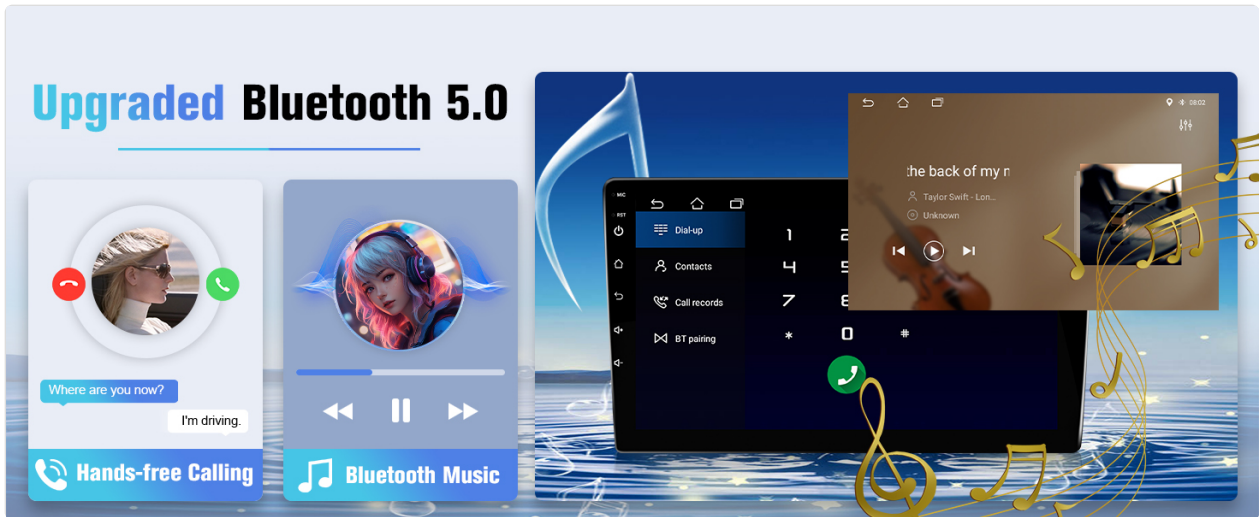

Image: Unit Size & Packing List. This image illustrates the dimensions of the head unit and the various cables and accessories included in the package.

Included Components:

- Naifay Android Car Radio Unit
- Power Cable
- Backup Camera (if included in your package)
- GPS Antenna
- USB Cables (x2)
- MIC (External Microphone)
- RCA Cable
- Can Bus Decoder
- Antenna Adapter Cable
- User Manual (this document)

4. INSTALLATION GUIDE

Professional installation is recommended. Ensure the vehicle's power is disconnected before beginning installation. All necessary cables are provided, and there is no need to cut existing vehicle wiring.

4.1. Pre-Installation Check

- Verify your vehicle's compatibility as outlined in the Introduction section.
- Ensure all components listed in 'What's in the Box' are present.

5.2. Wireless CarPlay & Android Auto

Connect your smartphone wirelessly to access navigation, music, calls, and more directly on the car radio screen.

Image: Wireless CarPlay & Android Auto & Mirrorlink. This image illustrates the wireless connectivity options for Apple CarPlay and Android Auto.

Connection Steps:

1. Ensure Bluetooth and Wi-Fi are enabled on your smartphone.
2. On the car radio, navigate to the CarPlay/Android Auto application.
3. Pair your phone with the car radio via Bluetooth.
4. Confirm the connection on both devices.

Once connected, you can use voice commands (Siri/Google Assistant) for hands-free calling, access phone contacts, emails, notifications, map navigation, music, and videos.

Your browser does not support the video tag.

5.3. Wireless MirrorLink

MirrorLink allows you to display your smartphone's screen directly onto the car radio. iOS devices support wireless connection, while Android devices support both wireless and wired connections.

Image: Wireless CarPlay & Android Auto & MirrorLink. This image also shows the MirrorLink functionality for both iOS and Android systems.

Connection Steps:

1. Enable Personal Hotspot on your iPhone or Mobile Hotspot on your Android phone.
2. On the car radio, go to Android Settings > Network & Internet > Wi-Fi. Connect to your phone's hotspot.
3. Open the MirrorLink app on the car radio.
4. Follow the on-screen prompts to initiate screen mirroring from your phone.

Your browser does not support the video tag.

5.4. GPS Navigation & WiFi

The unit includes a GPS module for accurate navigation. You can use both online and offline maps.

Image: GPS Navigation & WiFi Connection. This image highlights the navigation capabilities and the ability to connect to WiFi for online services.

Connect to Wi-Fi via your phone's hotspot to download offline maps or access online applications from the Play Store. **Note:** Due to 2GB RAM, it is recommended to download only 1-2 applications to prevent system slowdowns.

5.5. Bluetooth 5.0 & FM Radio

Enjoy stable hands-free calls with the upgraded Bluetooth 5.0, featuring a built-in microphone and support for an external microphone. The FM radio supports manual and automatic station search with unlimited preset stations.

Touch Screen Type	Capacitive
Display Type	LCD
Human-Interface Input	Touchscreen
Compatible Devices	iPhone, Android Phone
Control Method	Touch, Voice
Supported Satellite Navigation System	GPS

Connectivity Protocol	Bluetooth, Wi-Fi
Item Weight	1.5 Kilograms

7. MAINTENANCE

To ensure the longevity and optimal performance of your Naifay Android Car Radio, follow these general maintenance guidelines:

- Keep the screen clean using a soft, lint-free cloth. Avoid abrasive cleaners.
- Ensure proper ventilation around the unit to prevent overheating.
- Regularly check cable connections to ensure they are secure.
- Avoid exposing the unit to extreme temperatures or direct sunlight for prolonged periods.

8. TROUBLESHOOTING

If you encounter any issues with your Naifay Android Car Radio, please refer to the following common troubleshooting tips:

- **System Freezing:** If the system freezes, it may be due to too many applications running simultaneously or insufficient memory. It is recommended to limit the number of downloaded applications to 1-2, as the unit has 2GB RAM. Try restarting the unit.
- **Connectivity Issues:** Ensure Bluetooth and Wi-Fi are enabled on both the car radio and your smartphone. Check that you are connected to the correct network/device.
- **No Sound:** Verify all audio cables are securely connected. Check the volume settings on both the unit and your connected device.
- **Backup Camera Not Displaying:** Confirm the backup camera is correctly wired and receiving power. Ensure the vehicle is in reverse gear.

For further assistance, Naifay provides online help, user manuals, and installation videos. You can also contact the seller directly for support.
