

Alen BreatheSmart 75i

Alen BreatheSmart 75i HEPA Air Purifier Instruction Manual

Model: BreatheSmart 75i

1. INTRODUCTION

The Alen BreatheSmart 75i HEPA Air Purifier is designed to provide clean, fresh air in large spaces up to 2800 sq ft. It features a high-efficiency fan, quiet motor, and advanced medical-grade filtration to capture particles as small as 0.1 micron. The SmartSensor technology automatically adjusts fan speed based on air quality, providing real-time feedback.

2. SETUP

Your Alen BreatheSmart 75i comes ready for use with a Fresh HEPA filter pre-installed. Follow these steps for initial setup:

1. **Unpack:** Carefully remove the air purifier from its packaging.

2. **Placement:** Place the unit on a flat, stable surface in your desired room. Ensure there is adequate space around the air intake and outlet for optimal airflow.
3. **Power Connection:** Plug the power cord into a standard electrical outlet.
4. **Power On:** Press the power button on the control panel to turn on the unit.

3. OPERATING INSTRUCTIONS

The BreatheSmart 75i features an intuitive control panel and smart functions for effortless air purification.

- **Power Button:** Press the central power button to turn the unit on or off. The color of the ring around the power button indicates the current air quality.
- **Air Quality Indicator:** The LED ring changes color to reflect air quality:
 - **Blue:** Excellent air quality.
 - **Green:** Good air quality.

- **Orange:** Moderate particle presence.
- **Red:** High particle presence.
- **Purple:** Very high particle presence.
- **Speed Control:** Manually adjust the fan speed using the 'Speed' button. There are multiple speed settings.
- **Auto Mode:** Activate 'Auto' mode for automatic fan speed adjustment based on real-time air quality readings from the SmartSensor. This ensures optimal purification without constant manual intervention.
- **Timer:** Use the 'Timer' button to set the unit to operate for a specific duration (e.g., 2, 4, 8, 12 hours) before automatically turning off.
- **Lock Feature:** The 'Lock' button prevents accidental changes to settings, useful in households with children or pets.
- **Ionizer:** The 'Ionizer' button activates or deactivates the ionizer function, which helps to clump particles together for easier capture by the filter.

temperature, and humidity, along with device controls.

4. MAINTENANCE

Regular filter replacement is crucial for maintaining optimal performance of your Alen BreatheSmart 75i. The filter typically lasts between 12 to 15 months, depending on usage and air quality.

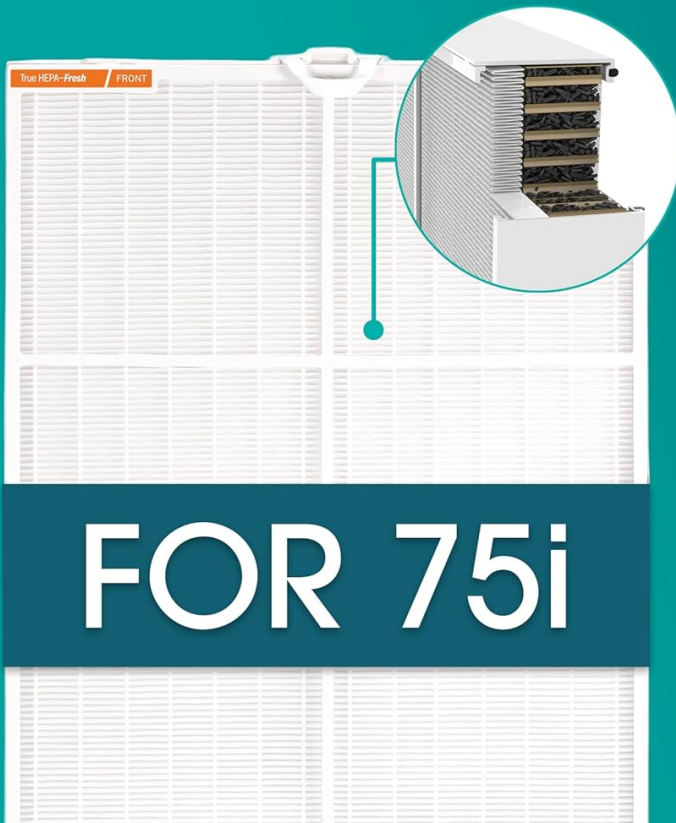

- **Filter Indicator:** The 'Filter' light on the control panel will illuminate when it's time to replace the filter.
- **Replacing the Filter:**
 - a. Gently pull the front cover off the unit. It is held by magnets and will detach easily.
 - b. Locate the used filter inside the unit.
 - c. Pull the filter out using the designated tabs. Dispose of the old filter responsibly.
 - d. Insert the new Alen Fresh HEPA filter, ensuring it is oriented correctly (usually indicated by an arrow or 'FRONT' label).
 - e. Reattach the front cover by aligning it with the unit and allowing the magnets to secure it. The unit will automatically power on.
- **Filter Types:** The BreatheSmart 75i supports various filter types to address specific air quality concerns:
 - **Pure (Essential):** Ideal for allergens, dust, mold, bacteria, and viruses.
 - **Fresh (Advanced):** Ideal for wildfire smoke, secondhand smoke, chemicals, and VOCs. (This is the filter included with your unit).
 - **Odor (Ultimate):** Ideal for stubborn household odors, pet dander, allergens, dust, mold, bacteria, and viruses.

Video: A user demonstrates the ease of filter replacement for the Alen BreatheSmart 75i. The video shows how to remove the front panel, extract the old filter, and insert a new one, highlighting the simplicity of the process.

ALÉN®

FRESH (ADVANCED)

Our mid-level filter. Starts with a medical-grade HEPA filter and adds targeted filtration for asthma triggers, chemicals and VOCs, smoke, and other common pollutants.

5. TROUBLESHOOTING

If you encounter any issues with your Alen BreatheSmart 75i, please refer to the following common solutions or contact Alen customer support.

- **Unit Not Turning On:** Ensure the power cord is securely plugged into both the unit and a working electrical outlet. Check if the front panel is correctly attached.
- **Reduced Airflow/Effectiveness:** The filter may be clogged or due for replacement. Check the filter indicator light. Ensure the unit is not obstructed.
- **Unusual Noises:** Check for any foreign objects inside the unit or if the filter is improperly seated.
- **Persistent Odors:** If using a Fresh or Pure filter, consider switching to an Odor filter for enhanced odor removal. Ensure the filter is not expired.

6. SPECIFICATIONS

Feature	Detail
Brand	Alen
Model Number	BreatheSmart 75i_V2
Color	White
Product Dimensions	11.5"D x 18.5"W x 27"H
Item Weight	27 pounds
Floor Area Coverage	Up to 2800 Square Feet
Noise Level	49 Decibels (max)
Particle Retention Size	0.1 Micrometer
Filter Class	HEPA
Wattage	45 watts
Controller Type	Button Control, Android, iOS App
Special Feature	Programmable, SmartSensor
Included Components	Air Purifier, Fresh HEPA Filter, Quick Start Guide
Certifications	CARB Certified, Energy Star Certified

7. WARRANTY & SUPPORT

Alen stands behind the quality of its products with a comprehensive warranty program.
