## SETUP

### What's in the Box

- Bettdow Lightweight Magic Keyboard Case
- USB Cable

### Charging the Keyboard

Before initial use, fully charge the keyboard. Connect the provided USB cable to the Type-C charging port located on the hinge of the keyboard and to a power source. The LCD display will show the battery level, and a charging indicator will be visible.

Figure 2: Type-C Charging Port and LCD Display

### Bluetooth Pairing

1. Ensure your iPad's Bluetooth is turned on.
2. Place your iPad onto the magnetic stand of the keyboard case.
3. The keyboard will automatically power on.
4. On your iPad, go to **Settings** > **Bluetooth** and select "Bettdow Keyboard" (or similar name) from the list of available devices to pair.
5. Once paired, the Bluetooth status indicator on the keyboard's LCD display will confirm the connection.

## OPERATING INSTRUCTIONS

### Automatic Sleep and Wake Function

The keyboard case features an automatic sleep and wake function. Opening the case will automatically wake up your iPad and the keyboard. Closing the case will put your iPad and the keyboard into sleep mode, conserving battery life.

Figure 3: Automatic Sleep/Wake Feature

## Multi-Touch Trackpad

The integrated precision trackpad supports full Multi-Touch gestures, allowing for efficient navigation and interaction with your iPad. This includes swiping, scrolling, pinching, and switching applications, similar to a laptop experience.

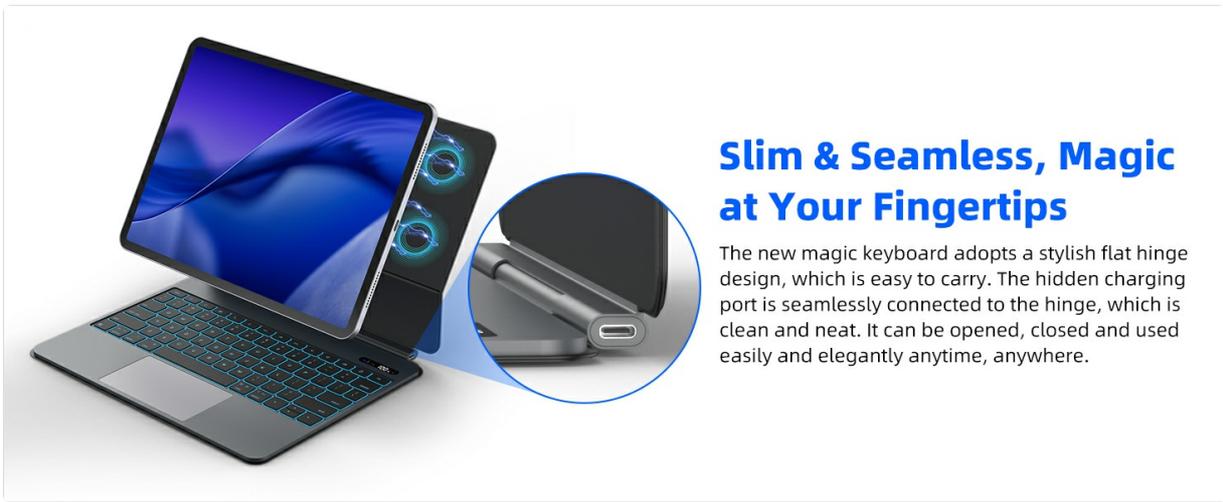

Figure 4: Multi-Touch Trackpad Gestures

## Backlight Control

The keyboard features 7-color backlighting with 3 adjustable brightness levels. This allows for comfortable typing in various lighting conditions.

- To switch on the backlight or adjust brightness: Press **Fn + Cmd**.
- To change the backlight color: Press **Fn + Control**.

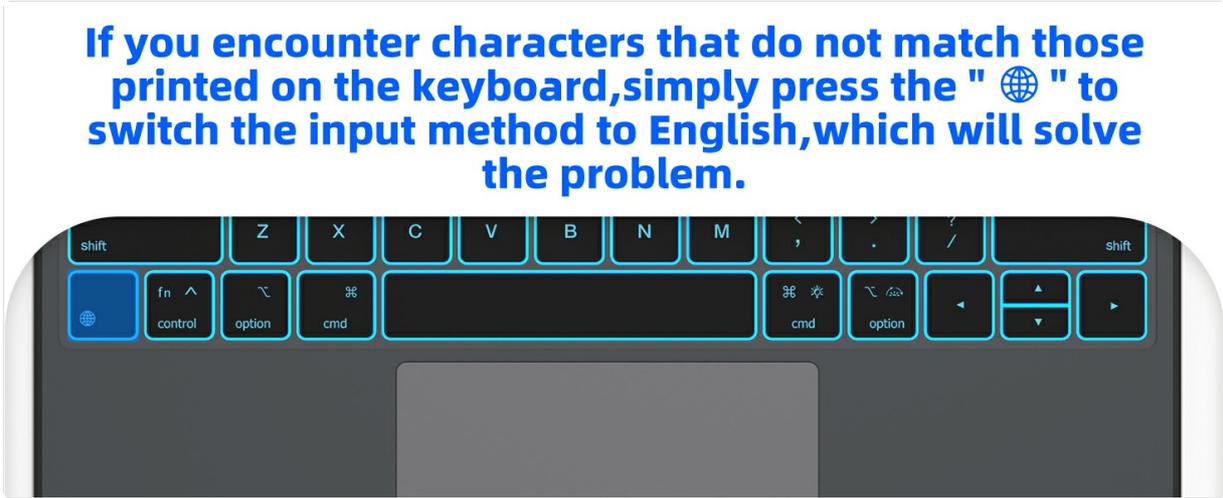

### Slim & Seamless, Magic at Your Fingertips

The new magic keyboard adopts a stylish flat hinge design, which is easy to carry. The hidden charging port is seamlessly connected to the hinge, which is clean and neat. It can be opened, closed and used easily and elegantly anytime, anywhere.

### iPadOS Function Keys

The keyboard includes a full set of iPadOS shortcut keys to quickly access functions such as adjusting brightness, volume, media playback, and activating the voice assistant.

**If you encounter characters that do not match those printed on the keyboard, simply press the " 🌐 " to switch the input method to English, which will solve the problem.**

### Magnetic Levitation Design

The magnetic levitation design allows your iPad to float above the keyboard, providing an adjustable viewing angle of up to 130 degrees for optimal comfort and productivity.

## MAINTENANCE

---

To ensure the longevity and optimal performance of your Bett Dow Magic Keyboard Case, follow these maintenance guidelines:

- **Cleaning:** Use a soft, lint-free cloth slightly dampened with water or a mild cleaning solution to wipe the aluminum alloy surfaces and keys. Avoid harsh chemicals or abrasive materials.
- **Storage:** When not in use, keep the keyboard case closed to protect the screen and keys from dust and scratches. Store in a cool, dry place.
- **Avoid Liquids:** Do not expose the keyboard to excessive moisture or liquids, as this can damage internal components.
- **Handle with Care:** While durable, avoid dropping the case or applying excessive force to the hinge or keys.

## TROUBLESHOOTING

---

### Keyboard Characters Do Not Match Input

If you encounter a situation where the characters typed on the keyboard do not match the output on your iPad screen, it may be due to an incorrect input method setting on your iPad.

**Solution:** Simply press the " " key on the keyboard to switch the input method to English. This should resolve the character mismatch.

### Keyboard Not Connecting via Bluetooth

1. Ensure the keyboard is charged.
2. Verify Bluetooth is enabled on your iPad.
3. Turn the keyboard off and on again.
4. Forget the device in your iPad's Bluetooth settings and attempt to re-pair.
5. Restart your iPad.

### Trackpad Not Responding

1. Ensure the keyboard is connected via Bluetooth.

2. Check for any physical obstructions on the trackpad surface.
3. Restart the keyboard and iPad.
