

## AECOJOY Free Standing Retractable Awning

# AECOJOY Free Standing Retractable Awning User Manual

Model: Free Standing Retractable Awning (10'x10' Dual Side)

Brand: AECOJOY

## INTRODUCTION

---

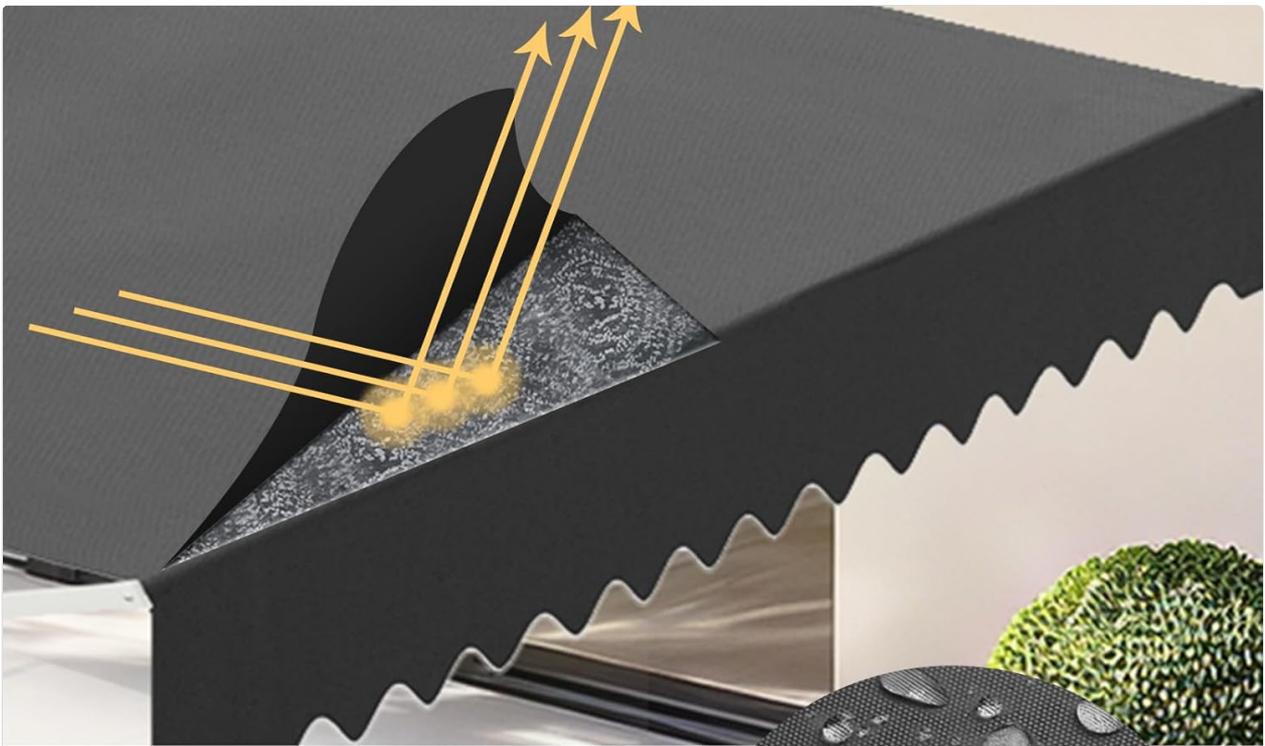

The AECOJOY Free Standing Retractable Awning provides versatile sun protection for various outdoor settings. Unlike traditional fixed awnings, its mobile design allows for flexible repositioning, making it ideal for patios, gardens, carports, or commercial spaces. This manual provides essential information for the proper setup, operation, and maintenance of your awning.

## KEY FEATURES

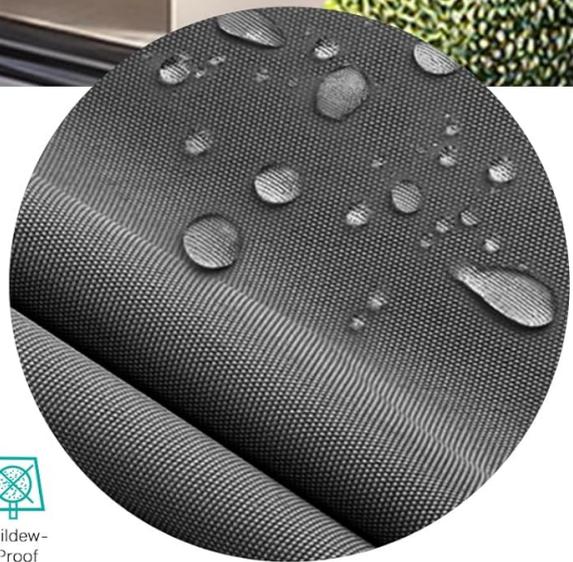

- **Top-Tier Material:** Constructed from 100% 280g/ Polyester Fabric, offering exceptional durability, UV resistance, and wrinkle resistance for long-lasting performance.
- **Beyond Traditional Shade:** Fully mobile design allows for easy movement and repositioning to adapt to different scenarios, providing shade wherever needed.
- **Diverse Styles for Every Need:** Available in single-sided and double-sided options, suitable for both home and commercial applications.
- **Movable Design with Freely Adjustable Telescoping Function:** Revolutionizes traditional awnings by offering more freedom in sun-shading and rain-protection. Features solid and stable iron-aluminum columns.
- **Effortless Angle Adjustment with Hand Crank:** Manually adjust the awning's angle for optimal shade. The awning can be retracted when not in use to save space.

**280g/m<sup>2</sup>**

## **Polyester Fabric**

Withstand sun and rain, high-sun-protection shading fabric, excellent wrinkle-resistance and shape retention.

# Movable Design With Freely Adjustable Telescoping Function

Revolutionize traditional awnings, enjoy more freedom in sun-shading and rain-protection.

## Iron-aluminum columns

Solid and stable, without shaking  
Accompany you for more than a decade

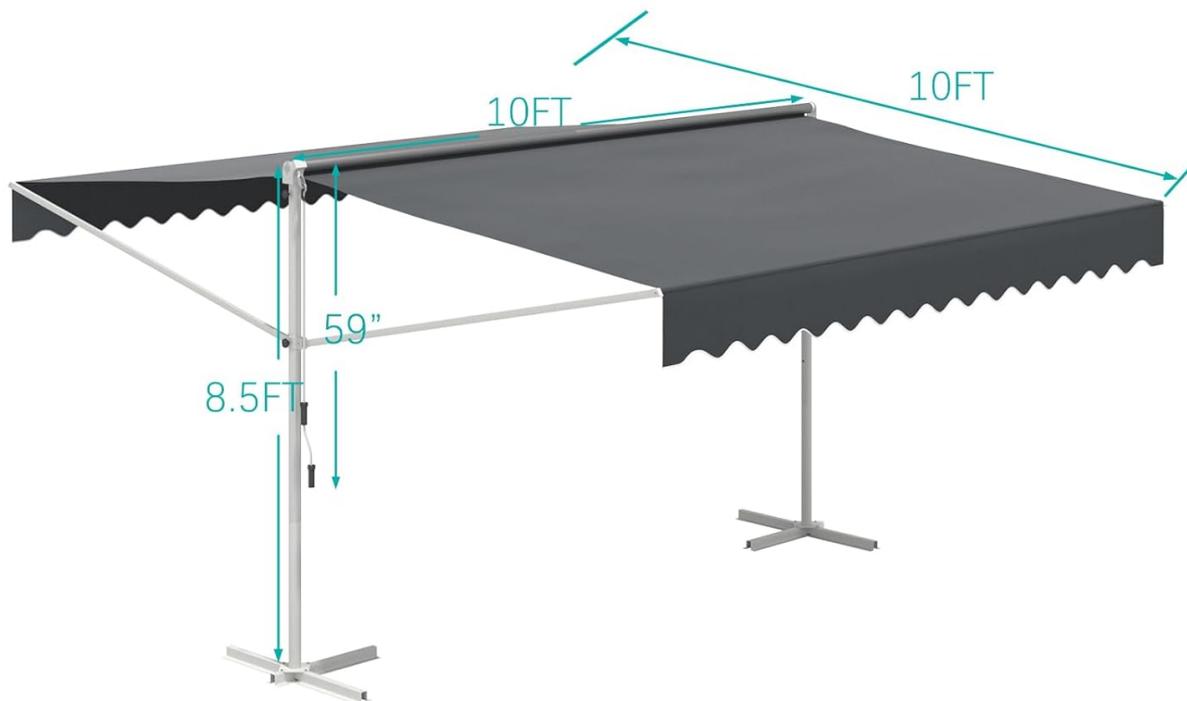

PS: But we still recommend that you use it with a 4-pcs umbrella stand&base that can bear at least 200 pounds to enhance stability in severe weather conditions such as strong winds and heavy rains.

## SETUP AND INSTALLATION

Due to the large size of the awning, a minimum of two people is recommended for assembly to ensure safety and ease of installation. Follow the detailed instruction manual included with your product for step-by-step guidance. Ensure all parts are accounted for before beginning assembly.

## PRODUCT DIMENSION

Overall Dimensions of Fabric: 10x10FT

PS: Our item comes in one box only, but there are many accessories inside. If you find any missing or damaged parts upon receipt, please let us know in a timely manner.

## OPERATING INSTRUCTIONS

The AECOJOY Free Standing Retractable Awning features a manual operation mode. Use the provided hand crank to extend or retract the awning fabric. To adjust the angle of the awning, utilize the reserved hole positions on the support columns. You may drill additional holes if needed to meet specific height requirements for your usage.

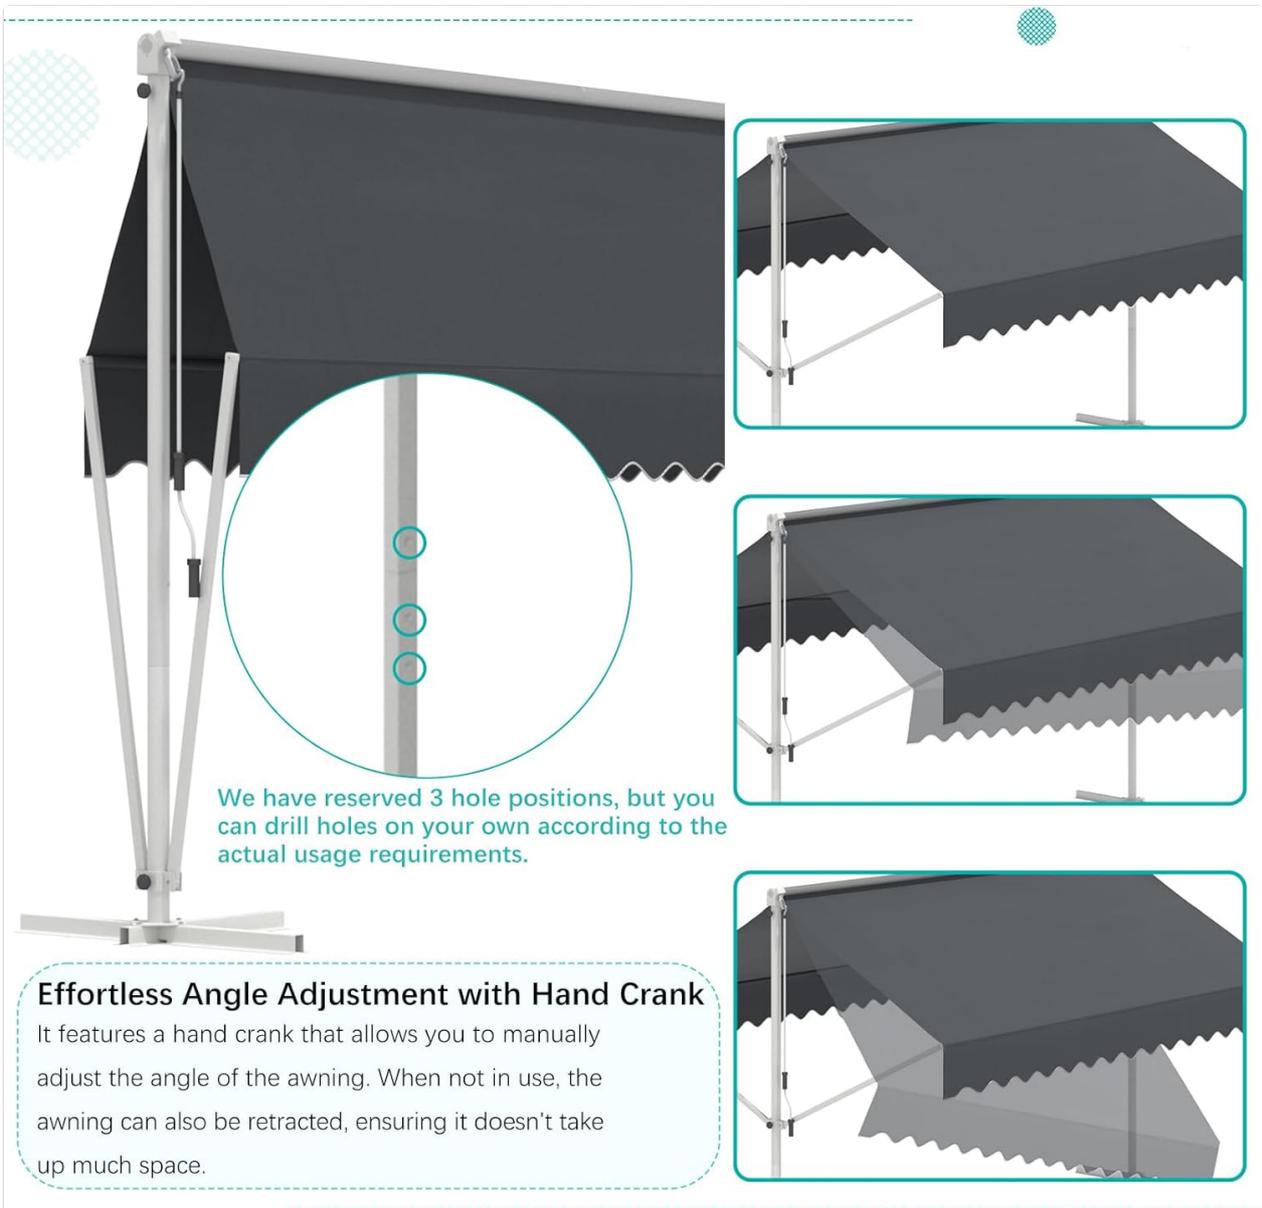

Image: Visual guide demonstrating the hand crank operation for extending/retracting the awning and the adjustable height settings on the support poles.

## STABILITY AND USAGE TIPS

While the awning is designed for stability under normal conditions, for long-term outdoor use, it is strongly suggested to use an extra base as per instructions. This will significantly enhance its stability and prevent unwanted tipping, especially in varying weather conditions. Always secure the awning properly and retract it during high winds or severe weather to prevent damage and ensure safety.

Image: The awning providing comfortable shade for outdoor dining tables near a swimming pool, demonstrating its commercial application.

## MAINTENANCE

---

To ensure the longevity and optimal performance of your AECOJOY awning, regular maintenance is recommended:

- **Cleaning:** Clean the fabric regularly with mild soap and water. Avoid harsh chemicals or abrasive brushes that could damage the material. Rinse thoroughly and allow to air dry completely before retracting.
- **Frame Inspection:** Periodically check the frame and all moving parts for any signs of wear, corrosion, or loose connections. Tighten any loose bolts or screws.
- **Storage:** When not in use for extended periods, especially during off-season or severe weather forecasts, ensure the awning is fully retracted and secured. Consider covering it for added protection if possible.

## TROUBLESHOOTING

---

If you encounter issues with your awning, consider the following:

- **Awning Instability:** If the awning feels unstable, ensure that the base is properly weighted or secured. For long-term outdoor use, an extra base is highly recommended to enhance stability, especially in windy conditions. Always retract the awning during strong winds.
- **Difficulty in Operation:** Check if the hand crank mechanism is clear of obstructions. Ensure the fabric is not snagged or misaligned. Lubricate moving parts if necessary.
- **Missing or Damaged Parts:** If you find any missing or damaged parts upon receipt, please contact customer support immediately for assistance.
