Slevoo C2-M25 Carafe

Slevoo Reverse Osmosis System C1-M20 Replacement Carafe User Manual

Model: C2-M25 Carafe

1. Introduction

This manual provides instructions for the proper use and care of your Slevoo C2-M25 Replacement Carafe, designed for use with the Slevoo C1-M20 Reverse Osmosis Water Purifier System. The carafe is constructed from high borosilicate glass, offering durability and clarity for your purified water.

The Slevoo C1-M20 Reverse Osmosis System, with which this carafe is compatible, provides advanced water purification. This carafe serves as a convenient and portable vessel for dispensing and storing the purified water.

2. Product Components

- Slevoo C2-M25 High Borosilicate Glass Carafe

Note: The Slevoo C1-M20 Reverse Osmosis Water Purifier System and its filters are sold separately.

3. Setup and First Use

1. **Unpacking:** Carefully remove the carafe from its packaging. Inspect for any damage.
2. **Initial Cleaning:** Before first use, wash the carafe thoroughly with warm water and mild dish soap. Rinse completely to remove any soap residue.
3. **Placement in System:** Ensure the Slevoo C1-M20 Reverse Osmosis System is powered on and ready for use. Place the clean carafe into the designated dispensing area of the Slevoo C1-M20 system. Ensure it is seated correctly to prevent spills during filling.

Image 2: A user demonstrating the placement of an infuser component into the Slevoo C2-M25 Carafe, indicating its modular design for potential flavor infusion.

4. Operating Instructions

1. **Filling the Carafe:** With the carafe correctly placed in the Slevoo C1-M20 system, select the desired water volume on the system's control panel. The system will automatically dispense purified water into the carafe. The system features an auto-shutoff function to prevent overfilling.
2. **Dispensing Water:** Once filled, carefully remove the carafe from the system. Use the handle to pour purified water into glasses or other containers.
3. **Storage:** The carafe can be stored in a refrigerator or on a countertop. Its design allows for convenient placement in various locations.

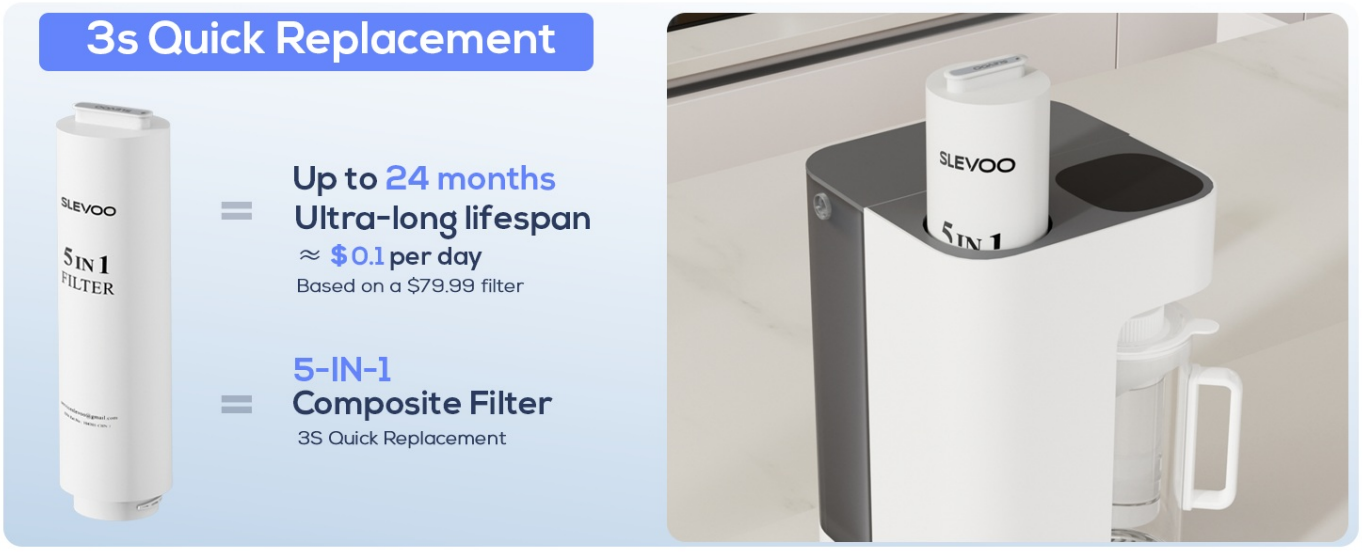

Image 4: A user pouring purified water from the Slevoo C2-M25 Carafe into a drinking glass, demonstrating its ease of use for serving.

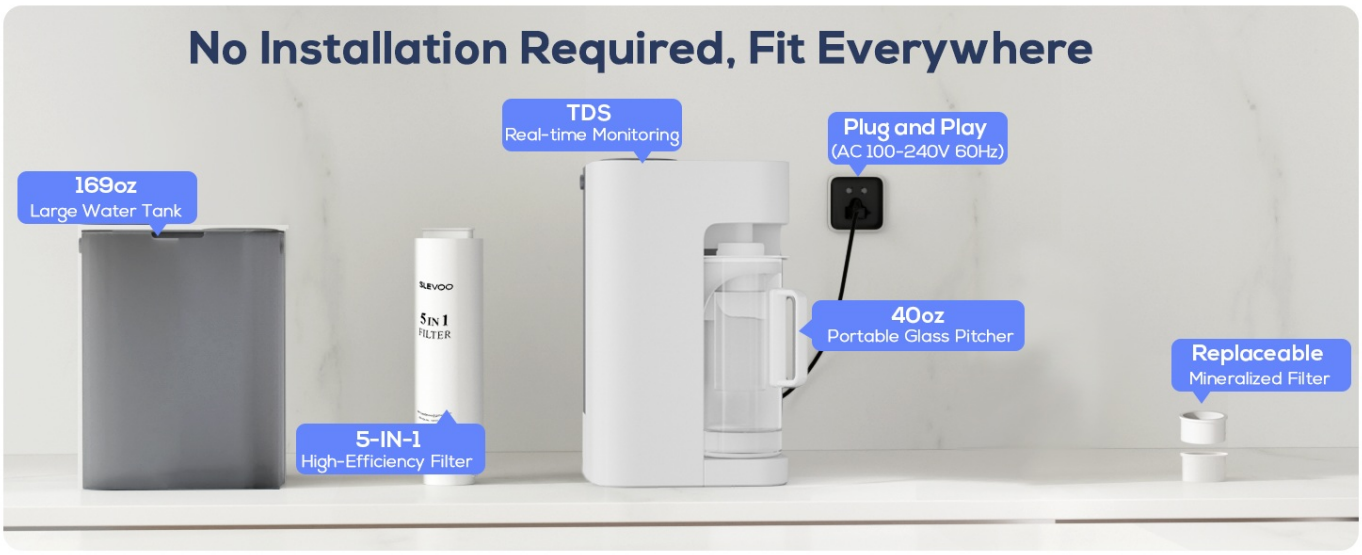

Image 5: The Slevoo C2-M25 Carafe displayed in different environments, including a refrigerator, bedroom, kitchen (for cooking), and with a humidifier, highlighting its versatility.

5. Care and Maintenance

- **Regular Cleaning:** Wash the carafe regularly with warm water and mild dish soap. Use a soft brush or sponge to clean the interior and exterior.
- **Rinsing:** Ensure all soap residue is thoroughly rinsed from the carafe after cleaning.
- **Drying:** Allow the carafe to air dry completely or dry with a clean, lint-free cloth before storing or refilling.
- **Stain Removal:** For stubborn stains or mineral buildup, a solution of white vinegar and water can be used. Let it soak for a few hours, then scrub and rinse thoroughly.
- **Handling:** The carafe is made of glass. Handle with care to prevent chipping or breakage. Avoid sudden temperature changes, such as pouring very hot water into a cold carafe or vice-versa.

6. Troubleshooting

- **Carafe not fitting properly in system:** Ensure the carafe is aligned correctly with the dispensing area of the Slevoo C1-M20 system. Check for any obstructions.
- **Water taste or odor:** If the purified water from the carafe develops an unusual taste or odor, it may indicate an issue with the Slevoo C1-M20 system's filters. Refer to your Slevoo C1-M20 system manual for filter replacement instructions.
- **Leaks from carafe:** Inspect the carafe for any cracks or damage. If damaged, discontinue use and replace the carafe.

7. Specifications

Feature	Detail
Model Name	C2-M25 Carafe
Material	High Borosilicate Glass
Compatibility	Slevoo C1-M20 Reverse Osmosis System
Package Dimensions	11.42 x 6.89 x 5.51 inches
