Nespresso Vertuo Pop+

Nespresso Vertuo Pop+ by Breville User Manual

Model: Vertuo Pop+ (Dark Grey)

1. PRODUCT OVERVIEW

The Nespresso Vertuo Pop+ by Breville is a compact and versatile coffee and espresso machine designed for ease of use and exceptional beverage quality. It utilizes Nespresso Vertuo capsules to brew a variety of coffee formats, from single and double espressos to larger coffee sizes (5, 8, and 12 oz), all topped with a rich crema. The machine features a one-touch brewing system and a rapid 30-second heat-up time, making it convenient for daily use. Its sleek design and removable water tank ensure it fits well in various kitchen spaces.

2. IMPORTANT SAFETY INFORMATION

Please read all instructions before operating the Nespresso Vertuo Pop+ machine. Keep this manual for future reference.

- Ensure the machine is placed on a stable, flat, heat-resistant surface, away from water splashes and heat sources.
- Do not immerse the machine, power cord, or plug in water or any other liquid.
- Unplug the machine from the power outlet when not in use, before cleaning, and before performing any maintenance.
- Do not operate the machine with a damaged cord or plug, or if the machine malfunctions or has been damaged in any manner. Contact Nespresso Customer Service for assistance.
- This appliance is intended for household use only.
- Do not open the brewing head during operation. Hot water or coffee may be ejected.

- Use only Nespresso Vertuo capsules in this machine.

3. SETUP AND FIRST USE

3.1 Unboxing

Carefully remove all components from the packaging. Verify that all parts are present as listed below:

- Nespresso Vertuo Pop+ Coffee Machine
- Removable Water Tank
- Drip Tray and Support
- Complimentary Tasting Pack of Nespresso Vertuo Capsules
- User Manual

Figure 2: The Nespresso Vertuo Pop+ machine, two boxes of Togetherness Blend capsules, and a coffee voucher, illustrating typical box contents.

3.2 Initial Setup

1. **Positioning:** Place the machine on a clean, stable, and level surface.
2. **Water Tank:** Fill the removable 25.4 fl. oz water tank with fresh drinking water. Ensure it is securely placed on the side of the machine.
3. **Power Connection:** Plug the power cord into a grounded electrical outlet.
4. **First Rinse:** Before first use, or after a long period of non-use, perform a rinse cycle. Fill the water tank, place a container under the coffee outlet, and press the brew button. The machine will heat up (light will blink) and then perform a rinse. Repeat this process 2-3 times.

4. OPERATING INSTRUCTIONS

4.1 Brewing Coffee or Espresso

The Vertuo Pop+ machine uses barcode recognition to automatically adjust brewing parameters for each capsule, ensuring optimal extraction.

1. **Fill Water Tank:** Ensure the water tank is filled with fresh water.
2. **Power On:** Press the brew button to turn on the machine. It will heat up in approximately 30 seconds (light will blink, then become steady).
3. **Insert Capsule:** Lift the lever to open the brewing head. Insert a Nespresso Vertuo capsule with the dome side down. Close the lever firmly until it locks.
4. **Place Cup:** Place an appropriate-sized cup under the coffee outlet. The adjustable drip tray can be moved to accommodate different cup heights.
5. **Brew:** Press the brew button. The machine will read the capsule's barcode and begin brewing. The light will blink during brewing and become steady when complete.
6. **Eject Capsule:** After brewing, lift the lever to automatically eject the used capsule into the internal container.

SMALL MACHINE. BIG TASTE.

Our smallest, most colorful machine ever. Enjoy a variety of colorful options that perfectly compliments your home, without sacrificing counter space.

Rich Taste. Smooth Coffee Crema
Experience an exceptionally rich, full-bodied cup, topped with velvety layer of coffee foam.

Quick. Simple. One Button.
Designed with simplicity in mind, prepare the perfect coffee with a single touch.

Precision Brewing Technology
Vertuo's innovative system brings the craft of brewing espresso into coffee, for an unparalleled coffee experience.

Figure 3: The Vertuo Pop+ machine offers rich taste with crema, simple one-button operation, and precision brewing technology for a perfect cup.

4.2 Coffee Varieties and Sizes

The Vertuo Pop+ supports a wide range of Nespresso Vertuo capsules, offering various coffee and espresso sizes:

- **Espresso:** Single (1.35 oz) and Double (2.7 oz) espresso shots.
- **Coffee:** 5 oz, 8 oz, and 12 oz coffee sizes.
- Can be brewed hot or over ice for iced coffee beverages.

Figure 4: Illustration of different coffee and espresso sizes available with Nespresso Vertuo capsules, from hot to iced preparations.

4.3 Capsule Information

Nespresso Vertuo pods are filled with freshly roasted ground coffee and hermetically sealed with aluminum to protect aroma and freshness. The machine reads the barcode on each capsule to ensure optimal brewing.

Figure 5: A cross-section view of a Nespresso Vertuo capsule, highlighting the fresh ground coffee sealed within its aluminum casing.

5. MAINTENANCE AND CLEANING

Regular maintenance ensures the longevity and optimal performance of your Nespresso Vertuo Pop+ machine.

5.1 Daily Cleaning

- **Water Tank:** Empty and rinse the water tank daily. Refill with fresh water.
- **Drip Tray and Used Capsule Container:** Empty and clean the drip tray and used capsule container daily. Wash with warm water and mild detergent, then rinse and dry.
- **Machine Exterior:** Wipe the machine's exterior with a damp cloth. Do not use abrasive cleaning agents or immerse the machine in water.

5.2 Descaling

The machine has a descaling alert. When the light indicates descaling is needed, follow the instructions in the full Nespresso descaling kit. Descaling regularly helps maintain brewing temperature and flow rate.

5.3 Recycling Capsules

Nespresso capsules are made from aluminum, which is recyclable. Nespresso offers recycling programs for used capsules.

Hermetically sealed, our aluminium capsules preserve the freshness of roasted ground coffee.

80% of Nespresso capsule's aluminium is from a recycled source.

Figure 6: Nespresso aluminium capsules are hermetically sealed for freshness, and 80% of the aluminium is sourced from recycled materials. Used capsules can be collected for recycling.

6. TROUBLESHOOTING

Problem	Possible Cause	Solution
No coffee flow or very slow flow.	Water tank empty; machine needs descaling; brewing head blocked.	Fill water tank; perform descaling procedure; clean brewing head.
Coffee is not hot enough.	Machine not preheated; cold cup.	Allow machine to fully heat up; preheat cup with hot water.
Machine leaks.	Water tank not properly seated; drip tray full.	Ensure water tank is correctly positioned; empty and clean drip tray.
Used capsules not ejecting.	Capsule container full; mechanism jammed.	Empty capsule container; gently check for obstructions in the mechanism.

For further assistance, please contact Nespresso Customer Service.
