# WypAll GeneralClean X60 Multi-Task Cleaning Cloths

Model: 34790

Brand: Wypall

## 1. PRODUCT OVERVIEW

---

The WypAll GeneralClean X60 Multi-Task Cleaning Cloths are designed for light to medium-duty general cleaning tasks. These cloths utilize Hydroknit technology for superior absorbency and are engineered for strength and durability, whether wet or dry. They are a versatile solution for various cleaning needs.

Key features include:

- **High Absorbency:** Absorbs more than two times as much water as traditional rags.
- **Durable Construction:** Reinforced for strength, allowing for reusability.
- **Low Lint:** Designed to leave minimal residue.
- **Multi-Task Capability:** Suitable for applying thinners and solvents, cable lubricant removal, adhesive cleaning, and removing grease and soil.

## 2. SETUP AND DISPENSING

---

The WypAll GeneralClean X60 cloths are provided in a convenient pop-up box for easy dispensing. To begin using the cloths, locate the perforated opening on the top of the box. Carefully open this section to reveal the first cloth. Pull the first cloth through the opening, and subsequent cloths will automatically pop up, ready for use.

## 3. OPERATING AND USAGE

WypAll X60 cloths are designed for versatility across various cleaning applications. Their Hydroknit technology ensures efficient absorption and durability.

### General Cleaning Applications

- **Surface Wiping:** Use for general wiping of counters, tables, and other surfaces. The cloths are effective for removing dust, dirt, and light spills.
- **Solvent Application:** The cloths are suitable for applying thinners and solvents due to their strength and low lint properties.
- **Grease and Soil Removal:** Effective in removing grease and soil, particularly in tight or hard-to-reach

areas.

- **Cable Lubricant Removal:** Can be used for cleaning up cable lubricants.
- **Adhesive Cleaning:** Assists in cleaning adhesive residues without leaving fibers behind.

Figure 3: WypAll X60 cloths are effective for cleaning various surfaces, such as kitchen counters.

### Hydroknit Technology

The cloths are made with Hydroknit technology, which interlinks cellulose fibers into polypropylene webs using high-pressure water jets. This process creates a material that is both highly absorbent and strong, ensuring effective cleaning performance.

Behind every wipe is a material engineered for performance.

**X60** From heavy messes to everyday wiping.  
**GENERALCLEAN™**

**Hydroknit®**

**HYDRO-ENTANGLING**

A process known as hydroentangling that bonds cellulose fibers into polypropylene nonwoven webs through the use of high-pressure water jets.

Choose the right wiper for your task.

### **RELIABLE**

A wiper that will still get the job done, but may not be the most suited to the task at hand.

### **RECOMMENDED**

A wiper that will meet your expectations in completing the task at hand.

### **BEST IN CLASS**

A wiper that will exceed your expectations, and is perfectly suited to the task.

## **4. MAINTENANCE AND REUSABILITY**

---

WypAll GeneralClean X60 cloths are designed to be sturdy and can often be used more than once, depending on the cleaning task and the substances involved. For light cleaning tasks, the cloths can be rinsed and reused. This reusability helps to reduce waste.

## 5. TROUBLESHOOTING

---

While WypAll X60 cloths are designed for high performance, consider the following if issues arise:

- **Reduced Absorbency:** If a cloth shows reduced absorbency, it may be saturated or nearing the end of its useful life. Replace with a fresh cloth.
- **Lint Residue:** Although designed to be low-lint, some residue may occur on very sensitive surfaces. For critical cleaning tasks requiring zero lint, consider WypAll's CriticalClean range.
- **Tearing/Breakage:** If cloths are tearing frequently, the task may require a heavier-duty wiper. Refer to the WypAll task selection chart (Figure 5) for stronger options like X70 or X80 cloths.

## 6. SPECIFICATIONS

---

Attribute	Detail
Brand	Wypall
Model Number	34790
Manufacturer Part Number	KCC34790CT
Material Type	Hydroknit
Color	White
Ply Rating	1-Ply
Sheet Count (per box)	118
Total Sheet Count (10-pack)	1180
Product Dimensions	8.94 x 4.49 x 9.25 inches (per box)
Item Weight	16.3 pounds (total for 10 boxes)
Special Feature	Super Absorbent

## 7. WARRANTY AND SUPPORT

---

For specific warranty information or product support, please refer to the manufacturer's official website or contact Kimberly-Clark Professional customer service. General product returns are typically subject to the retailer's return policy, which for this product is 30 days for refund/replacement when sold by Amazon.
