SAFETY INFORMATION

- Keep the mattress away from open flames and heat sources.
- Do not use sharp objects to open the packaging, as this may damage the mattress fabric.
- Ensure adequate ventilation during the initial expansion period.
- This mattress is designed for adult use.

SETUP INSTRUCTIONS

Your Novilla mattress is compressed and rolled for convenient shipping. Follow these steps for proper setup:

1. **Unpack:** Carefully remove the mattress from its shipping box. Place the rolled mattress on a clean, flat surface, such as your bed frame or foundation. Avoid using sharp objects to cut the outer plastic wrap.
2. **Unroll:** Unroll the compressed mattress onto your bed frame.
3. **Expand:** Carefully cut and remove the inner plastic wrapping. The mattress will begin to expand immediately. Allow 24 to 72 hours for the mattress to fully expand to its intended size and firmness. Expansion time may vary based on room temperature and humidity.
4. **Enjoy:** Once fully expanded, the mattress is ready for use.

CARE AND MAINTENANCE

- **Cleaning:** The mattress cover is designed for spot cleaning only. Use a mild detergent and a damp cloth for any spills or stains. Do not machine wash or dry clean the mattress cover.
- **Ventilation:** Periodically air out your mattress to maintain freshness.
- **Protection:** Using a mattress protector is recommended to safeguard against spills and stains, extending the life of your mattress.
- **Rotation:** Rotate the mattress every 3-6 months to promote even wear and prolong its lifespan. This mattress is designed to be used on one side and does not require flipping.

TROUBLESHOOTING

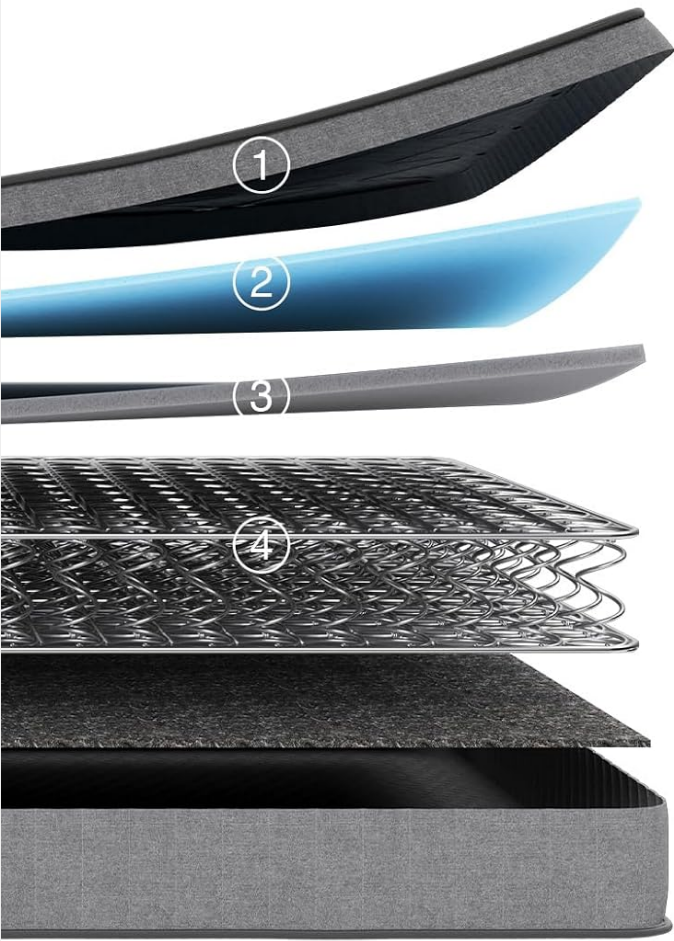

Issue	Possible Cause	Solution
Mattress not fully expanded	Insufficient time for expansion; low room temperature.	Allow up to 72 hours for full expansion. Ensure the room temperature is at least 68°F (20°C). Walking on the mattress gently can sometimes aid expansion.
Slight odor upon unboxing	"New mattress" smell (off-gassing) from manufacturing process.	This is normal and harmless. Ensure good ventilation in the room by opening windows. The odor should dissipate within a few days.
Mattress feels too firm or too soft	Personal preference; mattress still adjusting.	Allow a few weeks for your body to adjust to the new mattress and for the mattress to fully break in. Mattress firmness can be subjective.
