## 1. INTRODUCTION

---

Thank you for choosing the MINISO Vanity Mirror with Lights. This manual provides important information regarding the safe operation, setup, and maintenance of your new mirror. Please read it thoroughly before use and retain it for future reference.

This LED makeup mirror features adjustable lighting with three color modes, touch controls for brightness, a 10X magnifying glass, and 360° rotation for optimal viewing angles.

## 2. SAFETY INFORMATION

---

- Ensure the mirror is placed on a stable, flat surface to prevent tipping.
- Keep the mirror away from water or excessive humidity to avoid electrical hazards.
- Do not expose the mirror to direct sunlight for prolonged periods, as this may damage the LED lights or mirror surface.
- Use only the provided power adapter or one with identical specifications.
- Keep out of reach of children.
- Do not attempt to disassemble or repair the mirror yourself. Contact customer support for assistance.
- Clean the mirror surface with a soft, dry cloth. Avoid abrasive cleaners.

## 3. PACKAGE CONTENTS

---

Please check the package for the following items:

- MINISO Vanity Mirror with Lights

- 10X Magnifying Glass (detachable)
- Power Adapter
- User Manual (this document)

## 4. SETUP

---

### 4.1 Unpacking and Placement

- Carefully remove all components from the packaging.
- Place the mirror on a clean, stable, and flat surface such as a dresser or desk.
- Ensure there is adequate space around the mirror for rotation and access to controls.

Image: The MINISO Vanity Mirror with Lights placed on a dresser, showcasing its design and size (10.6" L x 13.8" W).

### 4.2 Power Connection

- Connect the power adapter to the DC port on the back or side of the mirror.
- Plug the adapter into a standard electrical outlet.

## 5. OPERATING INSTRUCTIONS

### 5.1 Power On/Off and Light Control

The mirror is equipped with smart touch controls located on the mirror surface.

- **Power On/Off:** Lightly touch the power icon (usually a circle or lightbulb symbol) on the mirror surface to turn the LED lights on or off.

### 5.2 Adjusting Brightness

The mirror offers stepless dimming from 20% to 100% brightness.

- **Brightness Adjustment:** With the lights on, press and hold the power icon. The brightness will gradually increase or decrease. Release your finger when the desired brightness level is reached.

Image: A hand interacting with the touch control on the mirror to adjust brightness, with an overlay showing brightness levels from 20% to 100%.

### 5.3 Changing Color Modes

The mirror features three color temperature modes: Cool Light, Warm Light, and Natural Light.

- **Color Mode Selection:** With the lights on, short press the power icon to cycle through the three color modes.

Image: Three different lighting scenarios (Cool, Warm, Natural) demonstrated on a person's reflection in the mirror, illustrating the three color modes.

## 5.4 360° Rotation

The mirror can be rotated 360 degrees to achieve your preferred viewing angle.

- **Adjusting Angle:** Gently hold the sides of the mirror frame and rotate it to the desired vertical or horizontal position. The sturdy base will keep it stable.

# 360 DEGREE ROTATION

Find the best makeup angle for you

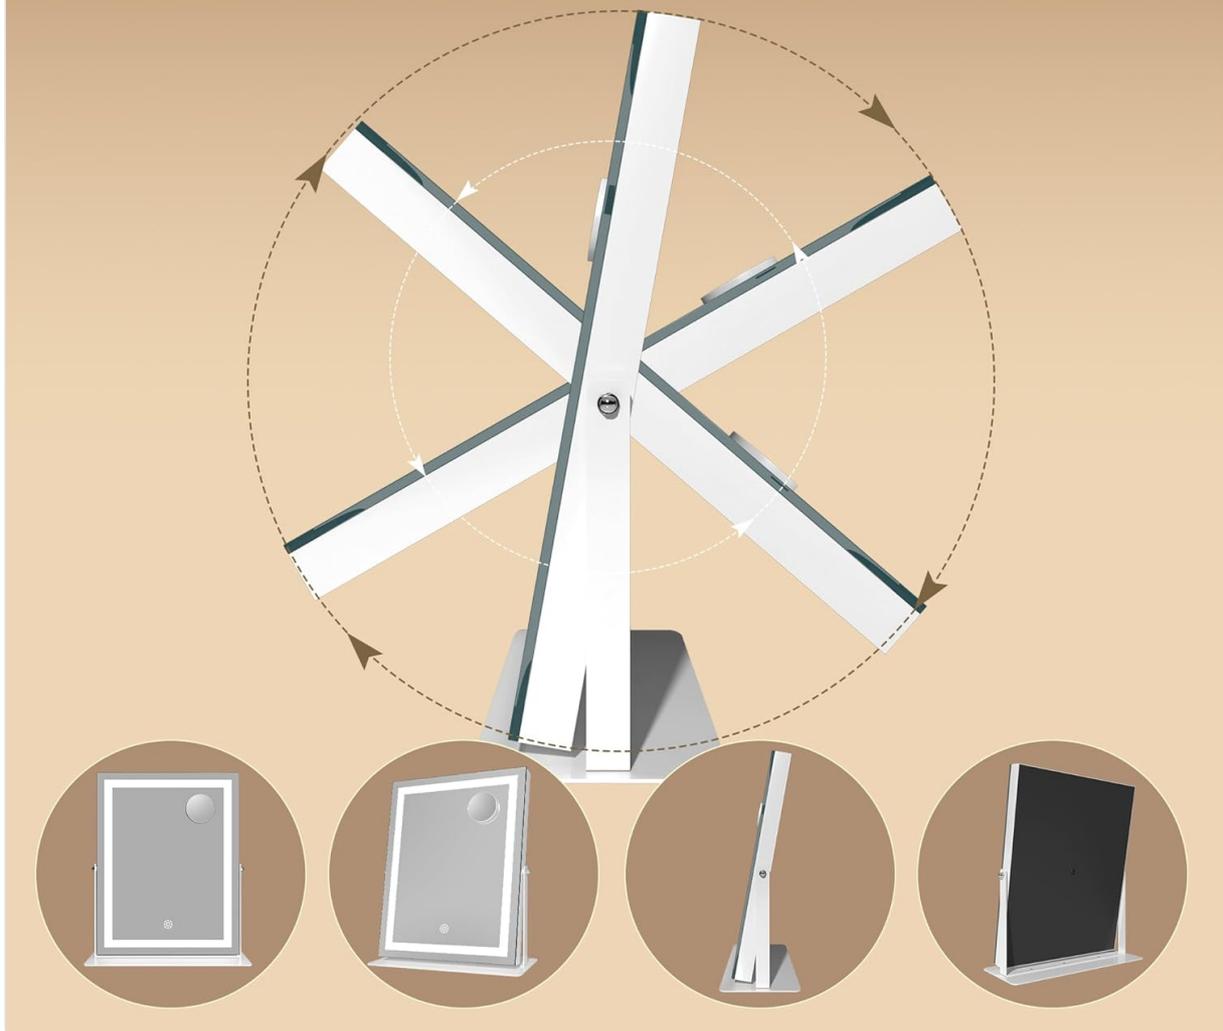

Image: A diagram illustrating the 360-degree rotation capability of the mirror, showing various angles it can be adjusted to.

## 5.5 Using the 10X Magnifying Glass

The detachable 10X magnifying glass is ideal for detailed tasks like eyeliner application or tweezing.

- **Attachment:** The magnifying glass typically attaches to the main mirror surface via suction cups. Press it firmly onto the main mirror at your desired height.
- **Removal:** Gently lift the edge of the suction cup to release the magnifying glass.

## 360 DEGREE ROTATION

This ensures you find the perfect angle for flawless makeup application

Video: An official product video from MinisoDirect demonstrating the features of the MINISO Vanity Mirror with Lights, including its 360° rotation, brightness control, and light color modes.

## 6. MAINTENANCE

---

### 6.1 Cleaning the Mirror

- Ensure the mirror is unplugged before cleaning.
- Wipe the mirror surface with a soft, lint-free cloth. For stubborn smudges, slightly dampen the cloth with water or a mild, non-abrasive glass cleaner.
- Avoid spraying cleaning solutions directly onto the mirror or into the frame openings.
- Do not use abrasive cleaners, alcohol, or solvents, as these can damage the mirror's finish or electronic components.

### 6.2 Storage

- When not in use for extended periods, store the mirror in a cool, dry place, away from direct sunlight and extreme temperatures.
- Keep the mirror covered to protect it from dust.

## 7. TROUBLESHOOTING

---

Problem	Possible Cause	Solution
Lights do not turn on.	No power connection.	Ensure the power adapter is securely plugged into the mirror and a working electrical outlet.
Lights flicker or are dim.	Low power or faulty connection.	Check power connections. Try a different outlet. Ensure the brightness is not set to the lowest level.

Problem	Possible Cause	Solution
Touch controls are unresponsive.	Dirty sensor or temporary malfunction.	Clean the touch sensor area with a dry, soft cloth. Unplug the mirror for 30 seconds and plug it back in to reset.
Mirror does not rotate smoothly.	Obstruction or dirty hinge.	Check for any obstructions around the base or hinge. Ensure the mirror is on a flat surface.

## 8. SPECIFICATIONS

---

Feature	Detail
Brand	MINISO
