4. SETUP

4.1. Initial Charging

Before first use, connect the power adapter to the DC Jack on your laptop and plug it into a power outlet. Allow the laptop to charge for at least 30 minutes, or until the battery indicator shows a sufficient charge, before powering it on.

4.2. Powering On and Initial Setup

1. Press the power button located on the keyboard to turn on the laptop.
2. Follow the on-screen instructions to complete the Windows 11 initial setup. This includes selecting your region, language, connecting to a Wi-Fi network, and creating a user account.
3. Ensure you have a stable internet connection during the setup process for necessary updates.

5. OPERATING YOUR LAPTOP

5.1. Basic Operations

- **Power On/Off:** Press the power button to turn on. To shut down, click the Start button, then Power > Shut down.
- **Sleep Mode:** Close the lid or click the Start button, then Power > Sleep.
- **Restart:** Click the Start button, then Power > Restart.

5.2. Connecting to Networks

Your laptop supports Wi-Fi 6 for high-speed wireless internet connectivity and Bluetooth 5.0 for connecting wireless peripherals.

6. MAINTENANCE

6.1. Cleaning

- Use a soft, lint-free cloth to clean the screen and exterior surfaces.
- For stubborn marks, slightly dampen the cloth with water or a screen-safe cleaner.

- Avoid using harsh chemicals or abrasive materials.

6.2. Battery Care

- To prolong battery life, avoid fully discharging the battery frequently.
- Store the laptop in a cool, dry place when not in use for extended periods.
- The 38Wh battery provides approximately 8 hours of usage, depending on workload.

6.3. Software Updates

Regularly update your Windows 11 operating system and device drivers to ensure optimal performance, security, and compatibility. You can check for updates via Windows Settings > Windows Update.

7. TROUBLESHOOTING

7.1. Common Issues and Solutions

Issue	Possible Solution
Laptop does not power on	Ensure the power adapter is securely connected and the battery has sufficient charge. Try holding the power button for 10-15 seconds to perform a hard reset.
Screen remains black after opening lid	Press any key or move the mouse to wake the laptop. If unresponsive, perform a hard reset by holding the power button. Check external display connections if applicable.
Wi-Fi or Bluetooth not connecting	Check if Wi-Fi/Bluetooth is enabled in Windows settings. Restart the laptop and your router/Bluetooth device. Update network drivers if necessary.
Keyboard function keys (e.g., mute, brightness) not working	Ensure all system drivers are up to date. Visit the KAIGERR support website for the latest driver downloads.
Slow performance	Close unnecessary background applications. Check for malware. Ensure sufficient free storage space on the SSD. Update Windows and drivers.

If you encounter issues not listed here or if the suggested solutions do not resolve the problem, please contact KAIGERR customer support.
