LIKIMIO Twin Daybed with Storage Drawers Instruction Manual

Model: HK-TBF-034SS

1. INTRODUCTION

This manual provides comprehensive instructions for the assembly, operation, and maintenance of your LIKIMIO Twin Daybed with Storage Drawers. This versatile furniture piece is designed to function as both a comfortable twin bed and a sofa, offering two configurable layouts to suit your space. It features integrated storage drawers and bed rails for enhanced functionality and safety.

2. SAFETY INFORMATION

- **Weight Limit:** Do not load more than 880 pounds (approximately 399 kg) onto the daybed. Exceeding this limit may compromise the structural integrity and lead to injury.
- **Assembly Caution:** Exercise caution when assembling and using the guardrails to avoid pinch point injuries. Ensure all hardware is securely tightened.
- **Regular Inspection:** Periodically check all bolts and connections to ensure they remain tight. Loose connections can lead to instability.
- **Proper Use:** This daybed is intended for sleeping and sitting. Avoid standing or jumping on the bed frame.
- **Children:** Supervise children around the daybed, especially during assembly and when using the storage drawers.

3. PACKAGE CONTENTS

Before beginning assembly, verify that all components listed below are present. If any parts are missing or damaged, please contact customer support.

- Bed Frame Components (Side Rails, End Panels)
- Headboard Panels
- Bed Rails (Guardrails)
- Storage Drawers (2 units)
- Wooden Slats
- Hardware Kit (bolts, screws, Allen wrench)
- Installation Manual

4. SETUP AND ASSEMBLY

Assembly is required for this daybed. It is recommended to have two people for easier and quicker assembly. Follow the detailed instructions provided in the included installation manual. The daybed offers two primary configuration options: a corner setup or a standard bed setup.

General Assembly Steps:

1. **Unpack Components:** Carefully remove all parts from the packaging and lay them out on a clean, soft surface to prevent scratches.
2. **Assemble Frame:** Connect the main bed frame components using the provided hardware. Pay close attention to the orientation of each piece as indicated in the manual.
3. **Attach Headboard/Side Panels:** Depending on your desired configuration (corner or standard), attach the headboard and side panels. Ensure all connections are secure.
4. **Install Slats:** Place the wooden slats across the bed frame. Many slats feature a hook-and-loop fastener for easy and secure attachment to the frame.
5. **Assemble Drawers:** Construct the two storage drawers. These typically feature a wire netting design and may use hook-and-loop fasteners for the front panel.
6. **Insert Drawers:** Slide the assembled drawers into position under the bed frame.

5. OPERATING INSTRUCTIONS

Daybed Functionality:

- **As a Bed:** Place a standard twin-sized mattress (not included) directly onto the wooden slats. No box spring is required.
- **As a Sofa:** When configured with the headboard and side panels, the daybed can serve as a sofa. Arrange pillows against the back and side panels for comfortable seating.

Storage Drawers:

- The two built-in wire netting storage drawers are designed to slide smoothly under the bed frame.
- Pull the front panel of each drawer to access the storage space. Push gently to close.
- These drawers are suitable for storing linens, clothing, books, or other lightweight items. Avoid overloading to ensure smooth operation and prevent damage.

6. MAINTENANCE

- **Cleaning Fabric:** For general cleaning of the upholstered fabric, use a soft, damp cloth. For spills, blot immediately with a clean, dry cloth. Avoid harsh chemicals or abrasive cleaners.
- **Cleaning Wood/Metal:** Wipe wooden slats and metal supports with a dry or slightly damp cloth.
- **Hardware Check:** Every 3-6 months, inspect all bolts and screws and tighten them if necessary to maintain stability.
- **Drawer Maintenance:** Keep the area under the bed clear of obstructions to ensure smooth operation of the storage drawers.

7. TROUBLESHOOTING

Issue	Possible Cause	Solution
Bed frame feels wobbly or unstable.	Loose bolts or incorrect assembly.	Ensure all bolts are securely tightened. Review assembly instructions to confirm all parts are correctly installed.
Storage drawers do not slide smoothly.	Obstruction under the bed or drawer misalignment.	Clear any items from under the bed. Check if the drawers are properly aligned on their tracks or wheels.
Gap between mattress and headboard/side panels.	Mattress size discrepancy or design.	Ensure a standard twin mattress is used. If a gap persists, consider using a bolster pillow or a mattress stopper to fill the space.
Missing parts or damaged components upon arrival.	Shipping damage or packaging error.	Do not proceed with assembly. Contact LIKIMIO customer support immediately for assistance and replacement parts.
