De'Longhi EXAM44055BG

De'Longhi Rivelia EXAM44055BG Automatic Coffee Machine User Manual

Model: EXAM44055BG

1. INTRODUCTION

Welcome to the De'Longhi Rivelia EXAM44055BG automatic coffee machine. This appliance is designed to provide a wide variety of coffee and milk-based beverages with ease and precision. Featuring two bean hoppers, a personalized menu system, and the innovative LatteCrema Cool system, your Rivelia machine offers a customizable coffee experience. This manual will guide you through the setup, operation, and maintenance of your new coffee machine.

2. PRODUCT OVERVIEW

The De'Longhi Rivelia EXAM44055BG is an advanced automatic coffee machine. Key components include the main

unit, two interchangeable bean hoppers, a water tank, a drip tray, a coffee grounds container, and the LatteCrema milk carafe system. The control panel features a display for menu selection and customization.

3. SETUP

3.1 Unpacking and Initial Placement

1. Carefully remove all packaging materials from the machine and its accessories.
2. Place the machine on a stable, flat surface, away from water splashes and heat sources. Ensure adequate space around the machine for ventilation and access.
3. Remove the protective film from the display.

3.2 First Use Preparation

- Rinse the Water Tank:** Remove the water tank, rinse it with fresh water, and fill it to the MAX level. Reinsert the tank into the machine.
- Fill Bean Hoppers:** Open the lids of the two bean hoppers and fill them with whole coffee beans. The Rivelia allows for two different types of beans to be used.
- Power On:** Plug the machine into a power outlet and press the power button. Follow the on-screen instructions for initial setup, including language selection and water hardness settings.
- Initial Rinsing Cycle:** The machine will perform an automatic rinsing cycle. Place a container under the coffee spouts and hot water spout to collect the water.

3.3 Installing the LatteCrema Cool Upgrade Set

The LatteCrema Cool Upgrade Set allows for the preparation of cold milk-based beverages. To install:

- Ensure the machine is off.
- Attach the LatteCrema Cool carafe to the machine's milk system connection point. Ensure it is securely fitted.
- Fill the carafe with cold milk.

4. OPERATING INSTRUCTIONS

4.1 Basic Coffee Preparation

- Ensure the water tank is filled and bean hoppers contain coffee beans.
- Place a cup under the coffee spouts.
- Select your desired coffee beverage from the display. The Rivelia offers 16 different menu options.
- Adjust the coffee strength and volume using the on-screen options, if desired.
- Press the 'Start' button to begin brewing.

4.2 Milk-Based Drinks (LatteCrema System)

The LatteCrema system automatically froths milk for hot and cold beverages.

- Fill the LatteCrema milk carafe with fresh milk (cold milk for cold beverages).
- Attach the carafe to the machine.

- Place a cup under the coffee and milk spouts.
- Select a milk-based beverage (e.g., Cappuccino, Latte Macchiato, Cold Cappuccino, Cold Latte) from the menu.
- Press the 'Start' button. The machine will first dispense coffee, then frothed milk.

4.3 Personalization Functions

The Rivelia offers advanced personalization features to tailor your coffee experience:

- User Profiles:** Create up to four individual user profiles, each with saved preferences for beverage strength, volume, and temperature.
- Coffee Routine Function:** Program specific coffee settings for different times of the day (e.g., a strong espresso in the morning, a milder latte in the afternoon).
- Bean Adapt Technology:** This feature optimizes the grinding and brewing parameters based on the type of coffee beans you are using, ensuring optimal extraction and flavor.

5. MAINTENANCE AND CLEANING

Regular cleaning and maintenance are crucial for the longevity and optimal performance of your coffee machine.

5.1 Daily Cleaning

- **Drip Tray and Coffee Grounds Container:** Empty and rinse the drip tray and coffee grounds container daily or when prompted by the machine.
- **Milk Carafe:** After each use, perform the automatic cleaning cycle for the LatteCrema carafe. Disassemble and hand wash the components regularly.

5.2 Brew Unit Cleaning

The brew unit should be rinsed with fresh water at least once a month. Refer to the machine's display for instructions on how to remove and reinsert the brew unit.

5.3 Descaling

The machine will prompt you when descaling is required. Use only De'Longhi descaling solution and follow the on-screen instructions carefully. Descaling removes mineral buildup and ensures efficient operation.

6. TROUBLESHOOTING

If you encounter issues with your De'Longhi Rivelia, consult the following common problems and solutions:

Problem	Possible Cause	Solution
No coffee dispensed	Water tank empty, no beans, brew unit blocked.	Fill water tank, add beans, clean brew unit.
Weak coffee	Grind setting too coarse, insufficient coffee dose.	Adjust grind setting finer, increase coffee strength.
Milk not frothing correctly	Milk carafe dirty, milk type unsuitable, milk too warm.	Clean milk carafe, use cold fresh milk (dairy or suitable plant-based), ensure carafe is properly assembled.
"Descaling required" message	Mineral buildup in the machine.	Perform descaling cycle as prompted.

For other issues or persistent problems, please refer to the full product manual or contact De'Longhi customer support.

7. SPECIFICATIONS

- **Brand:** De'Longhi
