CIARRA CBBEH392BF

CIARRA ONE CBBEH392BF Induction Hob with Integrated Extractor Hood User Manual

Model: CBBEH392BF

INTRODUCTION

This user manual provides essential information for the safe and efficient operation, installation, and maintenance of your CIARRA ONE CBBEH392BF Induction Hob with Integrated Extractor Hood. Please read this manual thoroughly before using the appliance and keep it for future reference.

IMPORTANT SAFETY INSTRUCTIONS

Always follow basic safety precautions when using electrical appliances to reduce the risk of fire, electric shock, and injury to persons.

- Ensure the appliance is properly installed and grounded by a qualified technician.
- Do not operate the hob if the power cord is damaged.
- Keep children away from the appliance during operation.
- Do not store flammable materials on or near the hob.
- Use only induction-compatible cookware.
- Clean filters regularly to maintain optimal performance and prevent fire hazards.
- Do not attempt to repair or modify the appliance yourself. Contact qualified service personnel.

PRODUCT OVERVIEW

The CIARRA ONE CBBEH392BF combines an induction hob with an integrated downdraft extractor hood, offering a sleek and space-saving solution for modern kitchens.

Key Features:

- **Integrated Design:** Combines cooking and extraction in one unit.
- **Flex Zone:** Adaptable cooking area for various pot sizes.
- **PowerBoost Function:** Provides rapid heating for faster cooking.
- **Touch Control Panel:** Intuitive and easy-to-use controls.
- **Advanced Filtration System:** Multi-layer filtration for efficient air purification.
- **Child Lock:** Prevents unintended operation.
- **Timer Function:** For precise cooking control.

Figure 2: Appliance Top View. This image shows the overall design of the induction hob with the integrated extractor hood.

Figure 3: Touch Control Panel. A detailed view of the touch-sensitive control panel for operating both the hob and the extractor.

SETUP AND INSTALLATION

Installation should only be performed by a qualified electrician or authorized service technician in accordance with local regulations and standards.

Unpacking:

- Carefully remove the appliance from its packaging.
- Inspect for any damage during transit. Do not install if damaged.
- Retain packaging materials for future transport or disposal.

Cut-out Dimensions:

Ensure the kitchen countertop has the correct cut-out dimensions for proper fitting and ventilation.

Figure 4: Installation Dimensions. This diagram provides precise measurements for the countertop cut-out and the unit's overall dimensions for proper installation.

Electrical Connection:

- Connect the appliance to a suitable power supply as indicated on the rating plate.
- Ensure the electrical installation includes an all-pole disconnection switch.

OPERATING INSTRUCTIONS

Turning On/Off:

- Press the power button (**ON/OFF**) on the control panel to activate the hob.
- Press again to turn off.

Hob Operation:

- Place induction-compatible cookware on the desired cooking zone.
- Select the cooking zone and adjust the power level using the '+' and '-' buttons (levels 1-9).
- **PowerBoost Function:** Press the 'B' button for rapid heating. This function temporarily increases power to the selected zone.
- **Flex Zone:** The large flex zone allows for flexible placement of larger pots or multiple smaller ones.

Figure 5: Hob in Operation. This image demonstrates the hob actively cooking, with the integrated extractor effectively removing steam and odors.

Extractor Hood Operation:

- Press the fan icon (**RANGE HOOD**) to turn on the extractor.
- Adjust fan speed using the '+' and '-' buttons (4 speed levels + Boost).
- The extractor automatically adjusts suction based on cooking intensity (if auto mode is enabled).

Figure 6: Extractor Control. This image highlights the dedicated touch button for controlling the integrated extractor hood.

Timer Function:

- Press the timer button (**TIMER**) and use '+' and '-' to set the desired cooking time.
- The hob will automatically switch off when the timer expires.

Child Lock:

- To activate, press and hold the child lock button for a few seconds.
- To deactivate, repeat the process.

MAINTENANCE AND CLEANING

Regular cleaning and maintenance ensure the longevity and optimal performance of your appliance.

Cleaning the Hob Surface:

- Allow the hob to cool completely before cleaning.
- Use a soft cloth and a non-abrasive cleaner specifically designed for ceramic or induction surfaces.
- Wipe dry with a clean cloth.

Filter Maintenance:

The integrated extractor hood features a multi-stage filtration system that requires regular cleaning or replacement.

- **Grease Filters (Stainless Steel Mesh):** These should be cleaned regularly, ideally after every 20-30 hours of operation, or as indicated by the filter saturation indicator. They are dishwasher safe.
- **Zeolith Filter:** This filter is for odor absorption and typically requires regeneration or replacement less frequently.

Refer to specific instructions for regeneration cycles.

Figure 7: Removing Grease Filter. This image shows how to access and remove the metal mesh grease filter for cleaning.

Figure 8: Dishwasher Safe Filter. This image illustrates that the grease filters can be safely cleaned in a dishwasher.

Figure 9: Multi-Layer Filtration System. This diagram visually explains the different stages of air purification within the integrated extractor hood.

TROUBLESHOOTING GUIDE

Before contacting customer service, please refer to the following table for common issues and their solutions.

Problem	Possible Cause	Solution
Hob not turning on.	No power supply; Child lock activated.	Check power connection; Deactivate child lock.
Cooking zone not heating.	Non-induction compatible cookware; Pan not centered.	Use induction-compatible pots; Reposition cookware.
Extractor fan weak or noisy.	Clogged grease filters; Obstruction in ducting.	Clean or replace filters; Check ducting for blockages.
Error code displayed.	Specific internal fault.	Refer to the full error code list in the comprehensive manual or contact service.

TECHNICAL SPECIFICATIONS

- **Model:** CBBEH392BF
- **Brand:** CIARRA
- **Installation Type:** Built-in
- **Burner Type:** Induction
- **Number of Plates:** 2 with Flex Zones
- **Dimensions (Product):** 39 x 24.5 x 52 cm (Depth x Width x Height)
- **Power Levels:** 9 + Booster
- **Extractor Suction Power:** Up to 460 m³/h (with Boost)
- **Noise Level:** Max 70 dB (at maximum airflow)
- **Special Features:** Recirculation Hood, Timer, Touch Panel, Automatic Shut-off, Safety Lock
- **Power Source:** Electric
