### Yaheetech YTvifx0001001

# Yaheetech Bathroom Mirror Cabinet User Manual

Model: YTvifx0001001

## 1. PRODUCT OVERVIEW

The Yaheetech Bathroom Mirror Cabinet is a versatile, wall-mounted storage solution designed to enhance organization and aesthetics in various rooms, including bathrooms, living rooms, laundry rooms, and mudrooms. This cabinet features three frameless mirrored doors, an adjustable interior shelf, and a durable, moisture-resistant construction.

### 3. SETUP AND ASSEMBLY

Assembly of the Yaheetech Bathroom Mirror Cabinet is required. The product includes all necessary hardware for mounting. Follow the clear and easy-to-understand directions provided in the packaging for a smooth assembly process.

#### 3.1. Tools Required (Not Included)

- Drill (a right-angle Allen wrench attachment may be helpful for tight spaces)
- Screwdriver

- Level
- Measuring Tape
- Pencil

### 3.2. Assembly Steps

1. Unpack all components and verify against the parts list.
2. Assemble the cabinet frame according to the diagrams. Ensure all connections are secure but avoid overtightening screws to prevent stripping the material.
3. Attach the mirrored doors using the provided soft-close metal hinges.
4. Install the adjustable shelf. Note that the shelf is designed to hold approximately 11 pounds of weight.
5. Select a suitable wall location. It is recommended to mount the cabinet into wall studs for maximum stability. If studs are not available, use appropriate wall anchors (included).
6. Mark the drilling points on the wall using a level and pencil.
7. Drill pilot holes and secure the cabinet to the wall using the provided wall mount screws. A helper is recommended due to the cabinet's weight (32.1 lbs).
8. Adjust door alignment as needed to ensure a flush closure.

# Height-Adjustable Shelf

Offer three adjustable positions to meet various storage demands

## 4. OPERATING INSTRUCTIONS

The Yaheetech Bathroom Mirror Cabinet is designed for straightforward operation.

### 4.1. Opening and Closing Doors

The cabinet features three frameless mirrored doors that open outwards. Gently pull the door from the side to open. The soft-close hinges ensure a quiet and smooth closing action.

## 4.2. Adjusting Shelves

The interior shelf is adjustable to accommodate items of varying heights. To adjust the shelf:

1. Empty the shelf of all contents.
2. Carefully lift the shelf and remove it from its current position.
3. Reinsert the shelf into the desired set of pre-drilled holes. Ensure it is level and securely seated.

# Elegant Appearance, Efficient Storage

## 4.3. Storage Capacity

The cabinet offers two levels of storage with a 6-inch depth, providing ample space for toiletries, skincare products, and other daily necessities. The enclosed design helps keep items dust-free and organized.

## 5. MAINTENANCE AND CARE

To ensure the longevity and appearance of your Yaheetech Bathroom Mirror Cabinet, follow these maintenance guidelines:

- Cleaning:** Wipe the mirrored surfaces and cabinet exterior with a soft, damp cloth. For mirrors, use a glass cleaner. Avoid abrasive cleaners or materials that could scratch the surface.
- Moisture Resistance:** The cabinet is crafted from CARB P2-compliant MDF with a smooth, moisture-resistant surface. While designed for humid environments, it is advisable to wipe away any standing water or excessive moisture promptly to prevent long-term damage.

- **Hinge Care:** The soft-close hinges are designed for durability. If doors become misaligned over time, refer to the assembly instructions for adjustment procedures.
- **Shelf Weight Limit:** Do not exceed the recommended weight limit of 11 pounds per shelf to prevent damage or warping.

## 6. TROUBLESHOOTING

This section addresses common issues you might encounter with your cabinet.

### 6.1. Door Alignment Issues

If the doors do not close flush or appear misaligned:

- Check the hinge screws. Ensure they are tightened properly, but not overtightened.
- Adjust the hinges. Most cabinet hinges have adjustment screws that allow for minor vertical, horizontal, and depth

adjustments. Refer to the hinge manufacturer's guide or general cabinet hinge adjustment tutorials if needed.

## 6.2. Shelf Instability

If the adjustable shelf feels loose or unstable:

- Ensure the shelf pins are fully inserted into the pre-drilled holes on both sides.
- Verify that the shelf is seated evenly on all four pins.
- Do not exceed the 11-pound weight limit for the shelf. Distribute weight evenly.

## 6.3. Mounting Stability

If the cabinet feels wobbly after installation:

- Re-check all wall mounting screws to ensure they are securely fastened.
- Confirm that the cabinet is mounted into wall studs where possible. If not, ensure appropriate wall anchors were used and installed correctly for your wall type.
- Consider adding additional mounting points if the existing ones feel insufficient for the cabinet's weight and contents.
