

XQ001

PIANTION Animal Graffiti Skeleton Bear Micro Building Blocks Set (XQ001) Instruction Manual

Model: XQ001

PRODUCT OVERVIEW

This manual provides detailed instructions for assembling and maintaining your PIANTION Animal Graffiti Skeleton Bear Micro Building Blocks Set, model XQ001. This advanced construction set is designed for adult builders and features a unique half-and-half design combining a decorative black exterior with pink flower motifs and an intricate anatomical skeleton display.

The completed model stands approximately 43cm (17 inches) tall and consists of 6000 micro building blocks, offering a complex and rewarding building challenge.

SETUP AND ASSEMBLY

The PIANTION Animal Graffiti Skeleton Bear Micro Building Blocks Set requires assembly. Please follow the included instruction manual carefully for step-by-step guidance. This set contains 6000 micro building blocks, and patience is key for a successful and enjoyable building experience.

Preparation:

- Unpack all components and verify that all 6000 pieces are present according to the parts list in the included manual.
- Organize the micro blocks by color and shape to streamline the assembly process.
- Ensure you have a clean, well-lit, and spacious work area.

Assembly Steps:

1. Refer to the detailed diagrams and instructions provided in the physical instruction manual included in the box.
2. Begin by constructing the base structure as indicated in the first steps of the manual.
3. Carefully connect each micro block, ensuring a secure fit. Due to the small size of the blocks, precision is important.
4. Pay close attention to the color coding and placement of blocks to achieve the intended graffiti and skeleton design.
5. If any sections feel loose during assembly, re-examine the connections to ensure all blocks are properly interlocked.

Note: Some users have reported that certain sections, particularly extremities, may feel less secure during assembly. Ensure each piece is firmly pressed into place. If issues persist, consider applying a small amount of model adhesive (not included) to critical connection points for added stability, especially if the model is intended for display rather than frequent handling.

USAGE AND DISPLAY

Once assembled, the PIANTION Animal Graffiti Skeleton Bear is designed as an artistic sculpture and display piece. It is not intended for rough play due to the intricate nature and small size of its components.

Display Recommendations:

- Place the assembled model on a stable, flat surface to prevent accidental falls.
- Avoid direct sunlight or extreme temperatures, which could potentially affect the plastic material over time.
- Position it in a location where its unique design can be appreciated as a conversation piece.

CARE AND MAINTENANCE

Proper care will help maintain the appearance and integrity of your PIANTION building block set.

Cleaning:

- To remove dust, gently wipe the model with a soft, dry cloth or use a soft brush.
- For more stubborn dirt, lightly dampen a cloth with water and a mild soap solution. Wipe carefully and then dry immediately with a clean, dry cloth.
- Avoid using harsh chemicals, abrasive cleaners, or excessive water, as these can damage the plastic.

Storage:

- If disassembling for storage, keep all micro blocks in a sealed container to prevent loss.
- Store in a cool, dry place away from direct heat sources or prolonged sunlight.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Assembled parts are loose or fall off easily.	Blocks not fully interlocked; incorrect piece placement; inherent design of micro blocks.	Ensure each block is pressed firmly into place. Double-check the instruction manual for correct placement. For display models, consider using a small amount of plastic-safe adhesive on critical joints.
Missing pieces.	Packaging error; pieces misplaced during assembly.	Thoroughly check your work area and packaging. If pieces are genuinely missing, contact the seller or manufacturer for assistance.
Difficulty understanding instructions.	Complex diagrams; language barrier (if applicable).	Take your time to study each diagram. Look for online community forums or videos for similar micro building block sets for visual guidance. Contact the seller if the included manual is unclear.
