

VEVOR GY-B004

VEVOR GY-B004 Dual 2-Gallon Glass Beverage Dispenser Instruction Manual

Model: GY-B004 | Brand: VEVOR

1. INTRODUCTION

Thank you for choosing the VEVOR GY-B004 Dual 2-Gallon Glass Beverage Dispenser. This product is designed to provide a convenient and elegant solution for serving various cold beverages at parties, gatherings, or in commercial settings. Featuring two 2-gallon glass cylinders, stainless steel spigots, a sturdy metal stand, and fruit infusers, this dispenser ensures a continuous supply of your favorite drinks. Please read this manual carefully before assembly and use to ensure proper operation and maintenance.

2. SAFETY INSTRUCTIONS

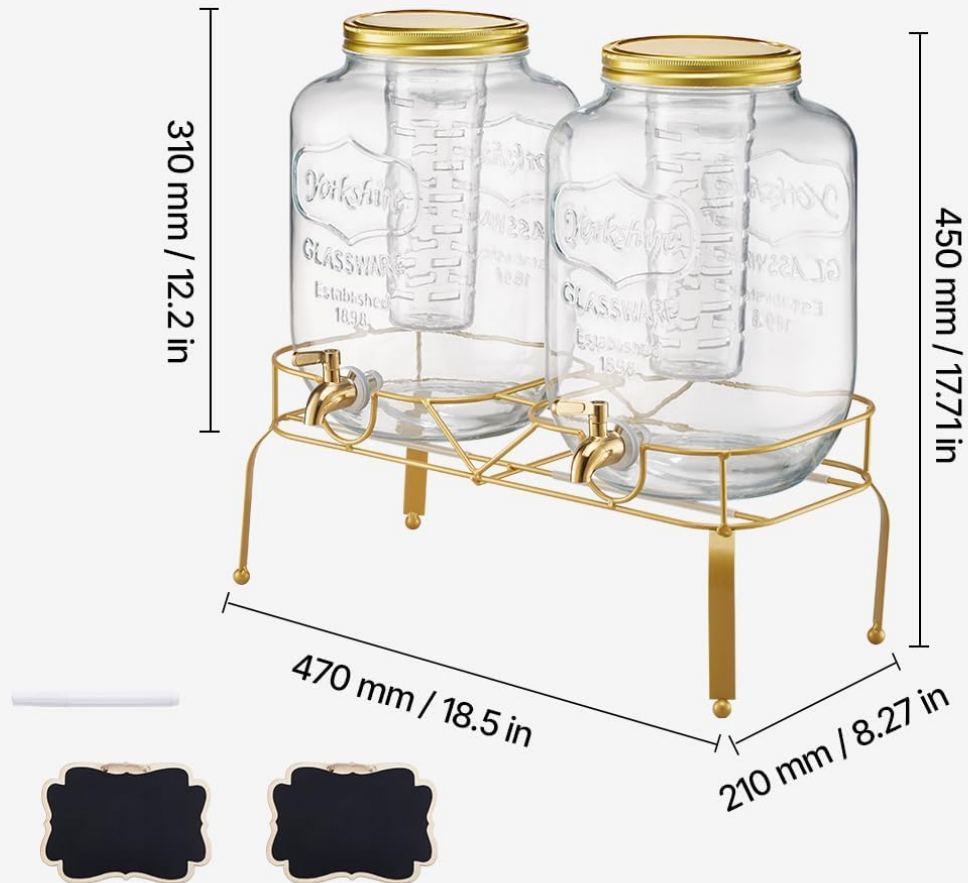

- Handle glass components with care to prevent breakage. Avoid sudden temperature changes that could crack the glass.
- Ensure the dispenser is placed on a stable, flat surface to prevent tipping.
- Do not use for hot beverages, as this product is designed for cold drinks only.
- Keep out of reach of children to prevent accidents.
- Inspect all components for damage before each use. Do not use if any part is damaged.
- Ensure spigots are properly tightened to prevent leaks.

3. PACKAGE CONTENTS

Please verify that all items listed below are included in your package:

- 2 x Glass Beverage Dispensers (2 Gallons each)
- 1 x Metal Stand with Non-Slip Rubber Tubes
- 2 x Stainless Steel Spigots
- 2 x Lids

- 2 x Chalkboards
- 1 x Pen
- 2 x Fruit Infusers
- 1 x Spigot Wrench

Item Model Number: **GY-B004**

Style: **Dual Cylinder**

Capacity: **8 L / 2 Gal x 2**

Color: **Transparent**

Material: **Glass**

Net Weight: **13.4 lbs / 6.1 kg**

Accessories:

2 x Spigots

1 x Metal Stand + Non-Slip Rubber Tube

2 x Lids

2 x Chalkboards 1 x Pen

2 x Fruit Infusers

1 x Spigot Wrench

4. ASSEMBLY AND SETUP

Follow these steps to assemble your beverage dispenser:

1. **Assemble the Metal Stand:** If the metal stand is not pre-assembled, connect its parts securely. Ensure the non-slip rubber tubes are attached to the bottom of the stand legs for stability.

2. **Install the Spigots:** For each glass dispenser, insert the spigot through the opening from the outside. Place a silicone washer on both the inside and outside of the glass around the spigot. Securely tighten the nut from the inside using the provided spigot wrench. Ensure it is tight enough to prevent leaks but do not overtighten to avoid damaging the glass.

Figure 4.1: A detailed view of the stainless steel spigot, emphasizing its robust construction and features designed for drip-free dispensing and easy operation. Ensure proper washer placement during installation.

3. **Place Dispensers on Stand:** Carefully place the two glass dispensers onto the assembled metal stand. Ensure they are seated securely in the designated grooves.
4. **Insert Fruit Infusers (Optional):** If you plan to infuse your beverages with fruits, herbs, or other ingredients, place the fruit infusers inside the glass dispensers before filling.
5. **Labeling:** Use the provided chalkboards and pen to label the contents of each dispenser for easy

Figure 4.2: The two VEVOR glass beverage dispensers, empty and resting securely on their elegant gold-colored metal stand, ready for initial setup.

5. OPERATING INSTRUCTIONS

Using your VEVOR beverage dispenser is straightforward:

1. **Filling:** Remove the lid from the top of each glass dispenser. Pour your desired cold beverage into the wide opening. The transparent glass allows you to easily monitor the filling level.
2. **Infusing (if applicable):** If using the fruit infuser, ensure your fruits or herbs are placed inside the infuser before filling with liquid. This prevents pulp from clogging the spigot.
3. **Serving:** To dispense a drink, place a cup or glass under the spigot. Gently push the spigot handle down to open the flow. Release the handle to stop the flow.
4. **Lid Placement:** After filling or between servings, place the lid back on the dispenser to protect the contents from dust and maintain freshness.

Provide stable support and easy dispensing

Provide stable support and easy dispensing

Without Stand

Must be placed on the edge of the table to dispense beverages

**With
Stand**

Easily place cups on the table

Figure 5.2: The beverage dispenser is shown positioned on its sturdy metal stand, which provides elevated support for convenient pouring into cups or glasses. The image also contrasts dispensing with and without the stand.

6. MAINTENANCE AND CLEANING

Regular cleaning ensures hygiene and extends the life of your dispenser:

1. **Empty and Disassemble:** After each use, empty any remaining liquid. Remove the lids, fruit infusers, and spigots from the glass dispensers.
2. **Glass Dispensers:** The glass dispensers are dishwasher-safe. Alternatively, wash them by hand using warm, soapy water and a soft sponge. The wide mouth allows for easy access to the interior. Rinse thoroughly.
3. **Spigots:** Disassemble the spigots by unscrewing the nut. Clean all parts of the spigot (handle, body, washers, nut) with warm, soapy water. Use a small brush if necessary to clean the internal mechanism.

Rinse thoroughly and allow to air dry completely before reassembly.

4. **Fruit Infusers:** Wash the fruit infusers with warm, soapy water and rinse well.
5. **Metal Stand:** Wipe the metal stand with a damp cloth. Do not immerse the stand in water.
6. **Drying and Storage:** Ensure all components are completely dry before reassembling and storing. Store in a clean, dry place.

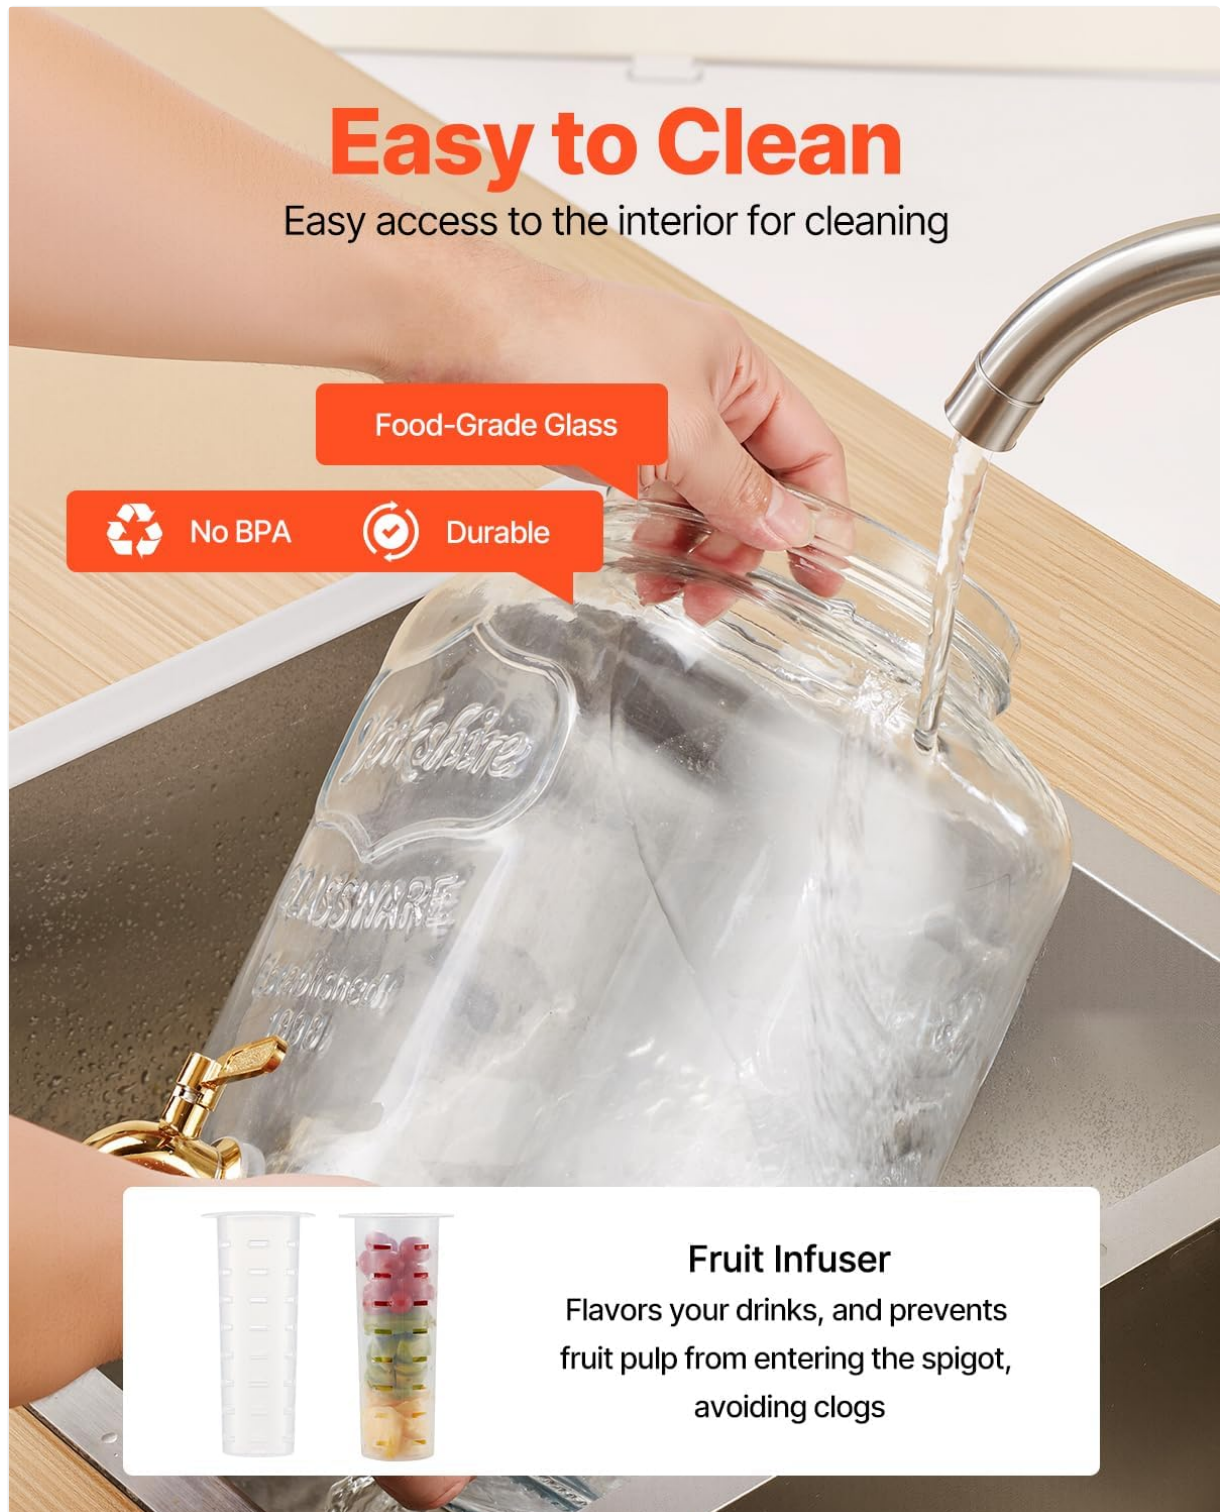

Figure 6.1: This image shows the wide opening of the beverage dispenser, facilitating easy access for cleaning. It also highlights the food-grade glass material and the fruit infuser component.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Spigot leaks	Spigot not tightened correctly; washers misplaced or damaged.	Disassemble the spigot, ensure washers are correctly positioned on both sides of the glass, and tighten the nut firmly with the spigot wrench. Replace washers if damaged.
Slow or no liquid flow	Spigot clogged by fruit pulp or other particles; airlock.	If using a fruit infuser, ensure it is properly positioned. If not, check the spigot for blockages and clean if necessary. Ensure the lid is not creating a vacuum; briefly lift it to allow air in.
Dispenser unstable on stand	Stand not assembled correctly; uneven surface.	Ensure the metal stand is fully assembled and all connections are secure. Place the dispenser on a flat, level surface.
