

MOFT MagSafe Multi-Stand

MOFT MagSafe Compatible Multi-Stand

Model: Multi-Stand

INTRODUCTION

This manual provides instructions for the MOFT MagSafe Compatible Multi-Stand. Designed for versatility and portability, this stand offers multiple viewing angles and modes to enhance your smartphone experience. Please read this manual carefully before use.

PRODUCT OVERVIEW

The MOFT Multi-Stand features a patented foldable design, transforming from a slim card-sized accessory into a robust phone stand. It is compatible with MagSafe-enabled iPhones and can be used with other smartphones using the included iron ring.

SETUP AND INSTALLATION

For MagSafe Compatible iPhones (iPhone 12 series and newer):

Simply align the MOFT Multi-Stand with the MagSafe magnets on the back of your iPhone or MagSafe-compatible case. The strong magnetic connection will secure the stand in place.

For Non-MagSafe Smartphones (using the included Iron Ring):

If your smartphone or case does not have MagSafe, use the provided iron ring for compatibility. Follow these steps:

1. **Identify Placement:** Confirm the attachment position to avoid interfering with the smartphone camera.
2. **Attach Iron Ring:** Temporarily fix the iron ring to the magnetic part of the product (by magnetic force). Once the magnetic part's position is confirmed, peel off the sticker. Carefully align and press the adhesive side of the iron ring onto the back of your smartphone case or directly onto the phone if no case is used. Ensure the adhesive side is attached to the phone/case, not the stand.

3. **Secure Attachment:** After attaching, press firmly and leave for 2 hours before use to ensure a strong bond.
4. **Attach Stand:** Now, you can magnetically attach the MOFT Multi-Stand to the newly installed iron ring.

Important Notes:

- The adhesive on the iron ring is very strong and is not designed for re-positioning.
- The iron ring should be attached to a smooth, non-textured surface (e.g., TPU, PC, or flat, uncoated aluminum cases).
- It cannot be used on rubber, leather, fabric, wood, painted cases, or glass material.

OPERATING INSTRUCTIONS

The MOFT Multi-Stand offers seven versatile modes for various uses. Its unique folding structure allows for quick and easy transformation.

1. Standard Stand Mode:

Fold the stand into a triangular shape to create a stable base for vertical or horizontal viewing. Ideal for watching videos, video calls, or browsing content.

2. Floating Mode (High-Angle Lens & Multi-Angle):

Extend the stand to its maximum height (up to 20cm) to elevate your phone's camera lens. This mode is perfect for:

- **Macro Photography:** Capture detailed close-up shots.
- **Video Calls:** Achieve a more natural eye-level perspective.
- **Live Streaming/Vlogging:** Position your phone for optimal recording angles.
- **Document Scanning/Handheld Filming:** Use the elevated position for overhead shots or stable recording.

3. Selfie/Vlog Mode:

Utilize the stand's dynamic folding to create a stable grip for handheld filming or selfies, providing a more cinematic and engaging video experience.

Angle Adjustment:

The stand allows for angle adjustments from -10 degrees (forward tilt) to 45 degrees (backward tilt) to suit your viewing or recording needs.

PRODUCT FEATURES

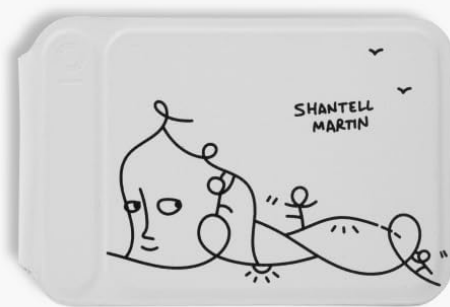

MOVAS™ Durable Material:

The stand is crafted from MOFT's proprietary vegan leather, MOVAS™. This material offers a soft texture, high durability, and resistance to dirt. It is also environmentally friendly, as it is produced without DMF.

Slim and Lightweight Design:

When folded, the stand is only 0.74cm thick and weighs approximately 85g, making it highly portable and unobtrusive.

Patented Integrated Folding Structure:

The unique design allows for quick and stable deployment, ensuring your phone remains secure during use.

COMPATIBILITY

The MOFT Multi-Stand is compatible with iPhone 12, 13, 14, 15, 16, and 17 series (including Pro, Pro Max, Plus, and Mini models) with MagSafe. For other smartphone models, use the included iron ring for magnetic attachment.

MAINTENANCE

To maintain the quality and appearance of your MOFT Multi-Stand:

- Wipe clean with a soft, damp cloth.
- Avoid using harsh chemicals or abrasive cleaners.
- Store in a cool, dry place away from direct sunlight.
- While the MOVAS™ material is durable, prolonged exposure to extreme conditions or sharp objects may cause wear.

TROUBLESHOOTING

If you experience any issues with your MOFT Multi-Stand, please consider the following:

- **Stand Instability:** Ensure the stand is fully unfolded into its triangular structure for maximum stability.
- **Magnetic Attachment Issues:** For MagSafe devices, ensure no foreign objects are between the phone/case and the stand. For non-MagSafe devices, verify the iron ring is securely attached and properly aligned.
- **Wear and Tear:** Over time, like any product, the material may show signs of wear. This is normal with regular use.

WARRANTY AND SUPPORT

For warranty information or technical support, please refer to the official MOFT website or contact MOFT customer service directly. Keep your purchase receipt for warranty claims.

SAFETY INFORMATION

- Keep out of reach of small children.
- Do not expose to extreme temperatures or open flames.
- Avoid placing near strong magnetic fields that could interfere with other electronic devices.
