VVFLU 8-Drawer Dresser Instruction Manual

Model: I870100364A1

INTRODUCTION

This manual provides detailed instructions for the assembly, operation, and maintenance of your VVFLU 8-Drawer Dresser. Please read this manual thoroughly before beginning assembly and retain it for future reference. Proper assembly and care will ensure the longevity and safe use of your furniture.

IMPORTANT SAFETY INFORMATION

- **Tip-Over Hazard:** This dresser includes a wall anchor kit to prevent tipping. It is crucial to install this kit as instructed to ensure stability and prevent serious injury.
- **Weight Limit:** The tabletop supports up to 70 lbs (31.75 kg). Do not exceed this weight limit.
- **Assembly:** Assembly should be performed by at least two adults. The package can be heavy.
- **Hardware:** Keep all small parts and packaging materials away from children and pets.
- **Stability:** Ensure the dresser is placed on a flat, level surface.

PACKAGE CONTENTS

Before assembly, verify that all components and hardware are present. If any parts are missing or damaged, contact customer support.

- Dresser panels (top, bottom, sides, back, drawer fronts)
- Drawer components (sides, back, bottom)
- Drawer slides (metal runners with safety stops)

- Drawer handles
- Assembly hardware (screws, dowels, cam locks, etc.)
- Wall anchor kit
- Assembly instructions (this manual)

Note: All pieces are labeled for easy identification during assembly.

TOOLS REQUIRED FOR ASSEMBLY

- Phillips Head Screwdriver
- Hammer (for dowels, if applicable)
- Measuring Tape (optional, for placement)
- Drill (optional, for wall anchor installation)

A power tool can expedite assembly, but exercise caution to avoid overtightening screws.

ASSEMBLY INSTRUCTIONS

Follow these steps carefully. It is recommended to assemble the dresser in the room where it will be used due to its weight.

1. **Unpack and Identify Parts:** Carefully unpack all components and hardware. Lay them out on a clean, soft surface (like a rug or blanket) to prevent scratches. Refer to the parts list (if provided in the physical manual) to identify each piece.
2. **Assemble the Main Frame:** Begin by attaching the side panels to the bottom panel using the provided hardware (e.g., cam locks, dowels, screws). Ensure all connections are secure.
3. **Install Drawer Slides:** Attach the metal drawer slides to the inner sides of the dresser frame. Pay attention to the orientation of the slides to ensure smooth operation and proper engagement of safety stops.
4. **Assemble Drawers:** For each drawer, connect the front, back, and side panels. Insert the drawer bottom into the grooves. Attach the remaining part of the metal drawer slides to the sides of each drawer. Secure the drawer handles to the drawer fronts.
5. **Insert Drawers:** Carefully slide each assembled drawer into its corresponding slot in the dresser frame. Ensure they glide smoothly and stop securely.
6. **Attach Back Panel:** Secure the back panel to the dresser frame using the provided fasteners.
7. **Install Wall Anchor Kit:** This is a critical safety step. Position the dresser in its desired location. Attach the wall anchor strap to the back of the dresser and then secure the other end to a wall stud using the provided hardware. Follow the specific instructions included with the wall anchor kit.

OPERATING INSTRUCTIONS

- **Drawer Use:** Open and close drawers gently using the handles. The metal smooth slide rails are designed for easy pulling and include safety stops to prevent accidental removal. Avoid forcing drawers open or shut.
- **Weight Distribution:** Distribute weight evenly within drawers. Avoid placing excessively heavy items in a single drawer.
- **Top Surface:** The tabletop can support up to 70 lbs (31.75 kg). It is suitable for a TV up to 55 inches. Do not place items exceeding this weight.
- **Stability:** Always ensure the dresser is anchored to the wall, especially if children are present. Do not allow children to climb on the dresser.

MAINTENANCE

- **Cleaning:** Wipe the dresser surfaces with a dry cloth. The water-resistant finish allows for easy cleaning of spills with a slightly damp cloth, followed by immediate drying. Avoid harsh chemicals or abrasive cleaners.
- **Drawer Slides:** Periodically check drawer slides for smooth operation. If they become stiff, a small amount of silicone lubricant can be applied.
- **Hardware:** Periodically check all screws and fasteners to ensure they are tight. Retighten if necessary, but do not overtighten.
- **Sunlight Exposure:** Avoid prolonged exposure to direct sunlight to prevent fading or damage to the finish.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Drawers do not align or close properly.	Incorrect installation of drawer slides or frame components. Warped part.	Review assembly instructions for drawer slides and frame. Ensure all screws are tightened evenly. If a part is warped, contact customer support for replacement.
Dresser feels unstable or tips forward.	Wall anchor kit not installed or improperly installed. Uneven floor.	Immediately install the wall anchor kit as per instructions. Ensure the dresser is on a level surface; use shims if necessary.
Drawer slides are stiff or noisy.	Lack of lubrication or debris in slides.	Clean drawer slides and apply a small amount of silicone lubricant.
Missing parts or damaged components.	Manufacturing defect or shipping damage.	Do not proceed with assembly. Contact VVFLU customer support for assistance and replacement parts.

SPECIFICATIONS

Brand	VVFLU
Model Name	I870100364A1
Product Dimensions	15.7"D x 47.2"W x 41.1"H
Color	Brownish Grey
Material	Engineered Wood (eco-friendly)
Finish Type	Matte Grey Wood, Water-Resistant
Number of Drawers	8
Drawer Type	Ball Bearing Slide with Safety Stops
Item Weight	124 pounds (approx. 56.2 kg)
Assembly Required	Yes
