VVFLU I87010406A1

VVFLU Farmhouse 10 Drawer Dresser Instruction Manual

Model: I87010406A1

INTRODUCTION

This manual provides essential instructions for the assembly, operation, and maintenance of your VVFLU Farmhouse 10 Drawer Dresser. Please read all instructions carefully before beginning assembly and retain this manual for future reference. This dresser is designed for indoor use in bedrooms, hallways, entryways, or closets, offering significant storage capacity and a stable surface.

SAFETY INFORMATION

- **Assembly:** Ensure all parts are present and undamaged before assembly. Do not use power tools for assembly unless specifically instructed, as this may damage components.
- **Stability:** For safety, it is highly recommended to secure the dresser to a wall using the provided anti-tip kit (if included). This prevents accidental tipping, especially in households with children.
- **Weight Capacity:** Do not exceed the maximum weight capacity of 70 lbs on the tabletop. Distribute weight evenly within drawers. Overloading can compromise stability and structural integrity.
- **Placement:** Place the dresser on a level, stable surface. Avoid placing it near heat sources or in direct sunlight to prevent material degradation.
- **Children:** Keep small parts and packaging materials away from children during assembly. Do not allow children to climb on or play with the dresser.

PACKAGE CONTENTS

Before assembly, verify that all components listed in the included hardware and parts list are present. If any parts are missing or damaged, contact customer support immediately. The package typically includes:

- Dresser panels (top, bottom, sides, back, drawer fronts, drawer sides, drawer backs)

- Drawer slides and hardware
- Drawer pulls/handles
- Assembly screws, dowels, and cam locks
- Anti-tip kit
- Assembly tools (e.g., Allen wrench, if required)

SETUP AND ASSEMBLY INSTRUCTIONS

Assembly is required for this dresser. It is recommended to assemble the unit with two people. Follow the step-by-step instructions provided in the separate assembly guide included with your product. General steps include:

1. **Prepare the Area:** Clear a spacious, clean, and level area for assembly. Lay down a blanket or cardboard to protect the dresser components and your floor.
2. **Identify Parts:** Unpack all components and identify them using the provided parts list.
3. **Assemble the Frame:** Begin by assembling the main frame of the dresser, connecting the side panels, bottom panel, and back panel according to the diagrams.
4. **Install Drawer Slides:** Attach the drawer slides to the dresser frame and to the drawer boxes. Ensure they are level and aligned for smooth operation.
5. **Assemble Drawers:** Construct each drawer box, attaching the front, back, and side panels, then inserting the bottom panel.
6. **Attach Drawer Pulls:** Secure the drawer pulls to the front of each assembled drawer.
7. **Insert Drawers:** Carefully insert the assembled drawers into the dresser frame, ensuring they slide smoothly.
8. **Attach Anti-Tip Kit:** Secure the dresser to the wall using the anti-tip kit as per the instructions to prevent tipping.

OPERATING INSTRUCTIONS

- **Drawer Use:** Open and close drawers gently using the provided handles. Avoid forcing drawers, as this can damage the slides.
- **Weight Distribution:** Distribute items evenly within the drawers. Avoid placing excessively heavy items in a single drawer or on one side of the dresser to maintain balance and prevent strain on the structure.
- **Top Surface:** The tabletop can support up to 70 lbs. It is suitable for placing decorative items, lamps, or a television up to 75 inches, provided its base fits within the dresser's dimensions and its weight does not exceed the limit.

MAINTENANCE

- **Cleaning:** Wipe the dresser surfaces with a dry cloth. For stubborn marks, a slightly damp cloth followed by immediate drying is recommended. Avoid abrasive cleaners or harsh chemicals, as these can damage the

finish.

- **Spills:** Promptly wipe up any spills to prevent water damage or staining, especially on the water-resistant finish.
- **Hardware Check:** Periodically check all screws and fasteners to ensure they are tight. Retighten if necessary to maintain structural integrity.
- **Drawer Slides:** If drawers become stiff, a small amount of silicone lubricant can be applied to the ball-bearing slides.

TROUBLESHOOTING

- **Drawers Not Closing Smoothly:**

- Check if the drawer slides are properly aligned and securely attached to both the drawer box and the dresser frame.
- Ensure no items inside the drawer are obstructing its path.
- Verify that the drawer box itself is assembled squarely.

- **Dresser Wobbles:**

- Ensure the dresser is placed on a level surface.
- Check that all assembly screws are tightened.
- Confirm the anti-tip kit is correctly installed and secured to the wall.

- **Missing Parts:** If any parts are missing upon unboxing, refer to the package contents list and contact customer support for replacements.

SPECIFICATIONS

Feature	Detail
Brand	VVFLU
Model Name	I87010406A1
Product Dimensions	15.8"D x 63"W x 31.5"H
Color	Brownish Grey
Room Type	Bedroom
