MAINTENANCE AND CARE

To ensure the longevity and appearance of your VINGLI bed frame, follow these care instructions:

- **Cleaning:** Wipe the upholstered surfaces with a dry cloth to remove dust and light debris. For spills, blot immediately with a clean, damp cloth. Avoid harsh chemicals or abrasive cleaners.
- **Regular Inspection:** Periodically check all bolts and screws to ensure they remain tight. Re-tighten as necessary to maintain structural integrity and prevent squeaks.
- **Avoid Direct Sunlight:** Prolonged exposure to direct sunlight may cause the fabric to fade.
- **Protect from Moisture:** Keep the bed frame away from excessive moisture or humidity.

TROUBLESHOOTING

If you encounter any issues with your bed frame, refer to the following common solutions:

- **Squeaking Noises:**
 - Ensure all bolts and screws are securely tightened. Loose connections are a common cause of squeaks.
 - Check that the wooden slats are properly seated in their anti-slip grooves.
 - Verify that the center support legs are firmly on the floor and evenly distributed.
- **Instability/Wobbling:**
 - Re-check all assembly connections, especially where side rails meet the headboard and footboard.
 - Ensure the bed frame is on a level surface. Adjust leg levelers if applicable.
- **Headboard Not Adjusting:**
 - Confirm that the headboard bolts are sufficiently loosened before attempting to adjust the height.
 - Ensure no obstructions are preventing the headboard from moving freely along the adjustment points.
