SETUP INSTRUCTIONS

Assembly of your modular sofa is required. It is recommended that two people assist with the assembly process due to the size and weight of the components.

1. **Unpack Components:** Carefully remove all parts from the packaging. The cushions are vacuum-sealed and typically located inside the sofa bases.
2. **Identify Modules:** Separate the sofa bases and cushions. Ensure all parts are present according to the packing list.
3. **Attach Legs (if separate):** If the sofa legs are not pre-attached, screw them securely into the designated points on the bottom of each module.
4. **Prepare Covers:** The fabric covers for the cushions and bases are detachable. Carefully place the covers onto the respective foam inserts. This step may require some effort to ensure a snug fit.
5. **Arrange Modules:** Position the modular sections in your desired configuration. The sections are designed to connect securely to prevent shifting.
