WUBEN X2Pro and G5

WUBEN X2Pro & G5 Rechargeable EDC Flashlight User Manual

Comprehensive Guide for Operation and Maintenance

INTRODUCTION

This manual provides detailed instructions for the safe and effective use of your WUBEN X2Pro and G5 Rechargeable EDC Flashlights. Please read this manual thoroughly before operation and retain it for future reference.

SETUP AND INITIAL USE

Battery Installation and Charging

The WUBEN X2Pro and G5 flashlights are designed for convenience with rechargeable batteries. Ensure batteries are fully charged before first use.

- **WUBEN X2Pro:** Comes with two 920mAh proprietary rechargeable batteries.

  - Insert batteries according to polarity indicators.
  - Connect the flashlight to a USB-C power source using the provided cable.
  - A charging indicator light will show charging status.
  - The X2Pro can operate with just one battery due to its parallel circuit design.
  - It is also compatible with AA batteries for emergency power, though performance may vary.

- **WUBEN G5:** Features an integrated rechargeable battery.

  - Connect the flashlight to a USB-C power source for charging.

◦ Refer to the charging indicator for status.

For optimal performance and battery longevity, use the recommended charging methods.

OPERATING INSTRUCTIONS

WUBEN X2Pro Operation

The X2Pro features an innovative dual-switch design for versatile control.

Image: The WUBEN X2Pro highlighting its versatile side light with stepless dimming and RGB color options.

- **Toggle Switch:**

  ◦ Use to switch between Main Light, Side Light, and Lock Mode.

  ◦ Lock Mode prevents accidental activation and conserves battery.

- **Rotary Switch:**

- Provides stepless dimming for both main and side lights. Rotate to adjust brightness.

- **Main Light Modes (1500 Lumens, 205m beam):**

  - **6 Modes:** Turbo, High, Medium, Low, Flood, and Spotlight.
  - The main light features 4 LED chips.

- **Side Light Modes (400 Lumens White, 7 RGB Colors):**

  - Offers versatile lighting experiences, including mood lighting or signaling.
  - Features a 20° tilt adjustment for flexible, focused lighting.

WUBEN G5 Operation

The G5 is a compact and powerful EDC flashlight with multiple lighting options.

Image: Overview of WUBEN G5 features, including 400 lumens max brightness, compact size (compared to a lighter), 3 click modes, and 10 lumens RGB rainbow single light.

- **Pulley Switch:**

  - Slide the pulley switch to easily switch between main light modes.

- **Main Light Modes (Cold White Light, 400 Lumens, 82m beam):**

  - **3 Adjustable Modes:** Low, Medium, High.
  - Features an LED dual-bead system.

- **Auxiliary Light (RGB Light, 10 Lumens):**

  - Offers 7 colors: Red, Orange, Yellow, Green, Cyan, Blue, Purple.
  - Useful for signaling or creating ambiance.

- **Rotating Head:**

  - The G5 features a brilliant 180° rotating head and adjustable clip for adaptability to any working angle.

Rotating Boost Adaptability

Brilliant 180° Rotating Head
& Adjustable Clip for adaptability to any working angle you need.

MAINTENANCE

Proper maintenance ensures the longevity and optimal performance of your WUBEN flashlights.

- **Cleaning:** Wipe the flashlight body with a soft, damp cloth. Do not use abrasive cleaners or solvents.
- **Battery Care:**

  - Recharge batteries regularly, even if not in frequent use, to maintain battery health.
  - Avoid fully discharging the batteries for extended periods.
  - Store the flashlights in a cool, dry place when not in use.

- **Water Resistance:** Both models are water resistant (X2Pro is IP68 rated). While designed to withstand splashes and temporary immersion, avoid prolonged submersion or high-pressure water jets. Ensure charging ports are sealed when not charging.

TROUBLESHOOTING

If you encounter issues with your WUBEN flashlight, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Flashlight does not turn on.	Low battery; Lock Mode engaged; Improper battery installation (X2Pro).	Charge the battery; Disengage Lock Mode via toggle switch (X2Pro); Reinstall batteries correctly (X2Pro).
Light output is dim or flickers.	Low battery; Loose connection.	Recharge the battery; Ensure batteries are seated properly (X2Pro).

Problem	Possible Cause	Solution
Cannot change modes or brightness.	Lock Mode engaged (X2Pro); Switch malfunction.	Disengage Lock Mode (X2Pro); Contact customer support if issue persists.
Charging indicator not working.	Cable or power source issue; Flashlight not connected properly.	Try a different USB-C cable or power adapter; Ensure secure connection.

If the problem persists after trying these solutions, please contact WUBEN customer support.
