Sojagg Kiruna Gazebo 10x14 Instruction Manual

Model: kiruna1216

INTRODUCTION

This instruction manual provides detailed guidance for the assembly, operation, and maintenance of your Sojagg Kiruna Gazebo 10x14. Designed to enhance your outdoor living space, this gazebo offers a durable structure and a comfortable shaded area. Please read this manual thoroughly before beginning assembly or use to ensure proper installation and safe operation.

The Kiruna Gazebo features a high-quality aluminum frame, a galvanized steel roof with ACP panels, and includes PVC coated mosquito netting for added comfort. Its robust design is intended to provide a long-lasting outdoor solution.

IMPORTANT SAFETY INFORMATION

Always prioritize safety during assembly and use. Failure to follow these instructions may result in injury or damage to the product.

- Read all instructions carefully before assembly.
- Ensure all parts are present and undamaged before starting assembly.
- Assemble the gazebo on a level surface with adequate space.
- Use appropriate safety gear, such as gloves and eye protection, during assembly.
- Securely anchor the gazebo to the ground to prevent wind damage.
- Do not hang heavy objects from the gazebo frame.
- In case of heavy snow, high winds, or severe weather, remove snow from the roof and consider disassembling or securing the gazebo to prevent damage.
- Keep children and pets away from the assembly area.

PACKAGE CONTENTS

Before assembly, verify that all components listed below are included in your package. If any parts are missing or damaged, please contact customer support.

- Aluminum Frame Components (posts, beams, connectors)
- Galvanized Steel Roof Panels with ACP Top
- PVC Coated Mosquito Netting
- Hardware Kit (screws, bolts, washers, anchors)
- Assembly Tools (basic wrenches, hex keys - specific tools may vary)

SETUP AND ASSEMBLY

Before You Begin

- **Tools Required:** You will need a ladder, a drill (optional, for anchoring), a measuring tape, and possibly a rubber mallet.
- **Site Preparation:** Choose a flat, level area for installation. Clear any debris or obstacles. Ensure adequate clearance around the gazebo for assembly and future use.
- **Assistance:** Assembly typically requires two or more people.

Assembly Steps (General Overview)

1. **Unpack and Identify Parts:** Lay out all components and verify against the parts list.
2. **Assemble the Main Frame:** Connect the posts and beams to form the base structure. Ensure all connections are secure but do not fully tighten bolts until the frame is squared.
3. **Install Roof Supports:** Attach the roof support beams to the main frame.
4. **Attach Roof Panels:** Carefully place and secure the galvanized steel and ACP roof panels. Follow the specific instructions for panel overlap and sealing.
5. **Install Mosquito Netting:** Utilize the double track system to hang the PVC coated mosquito netting.
6. **Anchor the Gazebo:** Securely anchor the gazebo to the ground using the provided hardware or suitable alternatives for your specific surface.
7. **Final Tightening:** Once the entire structure is assembled and squared, fully tighten all bolts and screws.

Sojagg Kiruna Gazebo 10x14, fully assembled, showcasing its robust black aluminum frame and galvanized steel roof.

OPERATION AND USAGE

Using Your Gazebo

The Sojagg Kiruna Gazebo is designed to provide a comfortable and shaded outdoor area for relaxation, dining, or entertaining. Its sturdy construction allows for various uses, creating an inviting extension of your home.

Mosquito Netting

The included PVC coated mosquito netting can be easily deployed using the double track system. This allows you to enclose the gazebo, protecting against insects while maintaining airflow. The double track system also accommodates optional curtains (sold separately) for additional privacy or sun protection.

Sojagg Kiruna Gazebo 10x14 configured with lounge furniture and mosquito netting, highlighting its versatility as an outdoor living space.

MAINTENANCE AND CARE

Cleaning

- **Aluminum Frame:** Clean with a mild soap and water solution. Rinse thoroughly with clear water and dry with a soft cloth. Avoid abrasive cleaners or harsh chemicals.
- **Galvanized Steel Roof:** Wipe down with a damp cloth to remove dirt and debris. For stubborn stains, use a mild detergent and soft brush, then rinse well.
- **Mosquito Netting:** The PVC coated netting can be hand washed with mild soap and water. Allow to air dry completely before storing or re-installing.

Seasonal Care

- **Winter:** While the roof is designed for durability, it is recommended to remove heavy snow accumulation to prevent structural stress. Consider storing the mosquito netting indoors during winter months.
- **High Winds:** Ensure the gazebo is securely anchored at all times. In anticipation of severe weather or high winds, it is advisable to remove the mosquito netting and any other hanging accessories to reduce wind resistance.

TROUBLESHOOTING

- **Loose Connections:** Periodically check all bolts and screws and tighten as necessary to maintain structural integrity.
- **Sagging Netting:** Ensure the netting is properly installed on the tracks and that all hooks are securely attached. Clean tracks if movement is restricted.

- **Water Pooling on Roof:** The roof is designed for drainage. If water pools, check for proper panel installation and ensure the gazebo is level.

SPECIFICATIONS
