SAFETY INFORMATION

WARNING: This 12V Kids Ride on Dump Truck can only be used with parental supervision. Always ensure children are supervised during operation.

- Always wear a helmet and appropriate safety gear.
- Do not operate near stairs, hills, roads, or swimming pools.
- Ensure the vehicle is fully charged before each use.
- Maximum weight capacity: 66 lbs.
- Recommended age: 3 years and up.

PACKAGE CONTENTS

Upon opening the package, please verify that all components are present and undamaged:

- Ride on Car Body
- Car Remote Control
- Screw Pack Accessories
- 12V Battery (pre-installed or separate, included)
- Charger (not explicitly listed but implied)

Image: An overview of the 12V Electric Tractor with Trailer, highlighting its main features through icons and text. Features include safe speeds, 12V 7AH battery, 2.4G remote control, one-start button, LED lights, music design, 2*35W motors, and USB input.

SETUP AND ASSEMBLY

Assembly is required before first use. Please follow the included assembly instructions carefully. Ensure all screws are tightened securely and all connections are firm.

1. Unpack all components and lay them out.
2. Attach the wheels according to the diagram.
3. Connect the battery terminals.
4. Install the seat and steering wheel.
5. Ensure all electrical connections are secure.
6. Charge the battery fully before initial use (approximately 8-12 hours).

Image: A detailed diagram illustrating the dimensions of the Garvee 12V 4WD Ride-On Dump Truck, including its length, width, and height. Key components such as the control panel, dump bed, lockable doors, extra shovel, and wear-resistant wheels are labeled. Icons indicate suitability for children 3+ years old, a maximum load of 66 lbs, and a wide seat for comfort.

OPERATING INSTRUCTIONS

Driving Modes

The Garvee Ride-On Dump Truck offers two driving modes: Manual and Parental Remote Control.

- **Manual Mode:** Children can operate the truck themselves using the steering wheel and foot pedal. This mode typically has 2 speed settings.
- **Remote Control Mode:** Parents can control the truck's direction and speed (3 different speeds) using the included 2.4G remote control. This is ideal for younger children or for ensuring safety.

Two Modes to Drive

Image: This image illustrates the two primary driving modes of the truck: Manual mode, where the child directly controls the vehicle, and Remote mode, indicating parental control via a remote. A child is shown driving the truck on a paved path, demonstrating its use.

Starting the Vehicle

The truck features a key start and a slow startup function for safety.

- Insert the key and turn to the 'ON' position.
- The vehicle will accelerate gradually to ensure a smooth and safe start for the child.

Start the Kids car a slow speed to make sure the safety of your Baby

Image: A graph demonstrating the slow startup feature of the truck. It shows how the speed gradually increases over time from a standstill, ensuring a gentle and safe acceleration for the child, preventing sudden jolts.

Operating the Electric Dump Bed

The electric dump bed can be lifted and lowered for interactive play.

- Locate the joystick control for the dump bed near the driver's seat.
- Push the joystick to tilt the dump bed upwards.
- Pull the joystick to lower the dump bed.
- An extra shovel is included for enhanced play.

Electric Tippling Bucket Design

Image: This image highlights the electric tipping bucket design of the dump truck. It shows the dump bed in a raised position, indicating its functionality. An inset image provides a close-up of the joystick control used to operate the dump bed.

How to control The Dump Bed

Pull out the safety handle under the seat

Push the joystick to tilt the dump bed

Image: A visual guide demonstrating how to control the dump bed. It shows two steps: pulling out a safety handle located under the seat and pushing a joystick to tilt the dump bed, providing clear operational instructions.

Wide Dump Bed with Shovel

Image: Two children are shown playing on a sandy beach with the Garvee 12V 4WD Ride-On Dump Truck. One child is using the included shovel to interact with the wide dump bed, demonstrating the vehicle's play features in an outdoor setting.

Multimedia Features

The truck is equipped with an onboard MP3 player, speakers, and a USB port for entertainment.

- Connect a USB device to play music.
- Use the control panel to adjust volume and switch tracks.
- The truck also features horn sounds and headlights for a realistic driving experience.

Terrain Suitability

The 11-inch wear-resistant wheels and powerful motors allow the truck to operate on various surfaces.

- Suitable for: Brick Road, Grass, Cobbled Road, Asphalt Road, Sand Area Road.

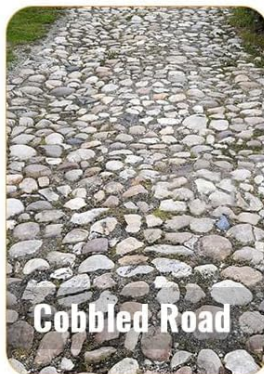

Suitable for all terrains

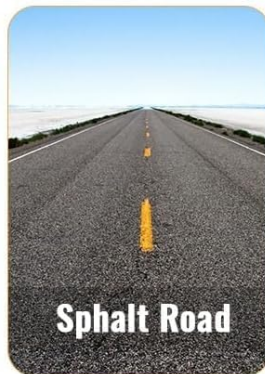

Brick Road

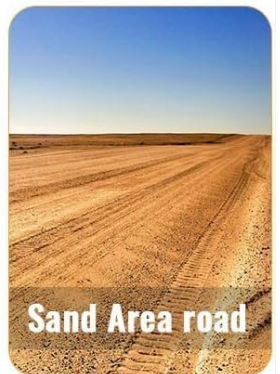

Grass

Cobbled Road

Sphalt Road

Sand Area road

Image: This image displays the Garvee 12V 4WD Ride-On Dump Truck alongside five icons, each representing a different type of terrain: brick road, grass, cobbled road, asphalt road, and sand area road. This visually communicates the vehicle's versatility across various surfaces.

MAINTENANCE

Battery Care

- Charge the 12V battery for 8-12 hours before first use.
- Do not overcharge the battery (maximum 18 hours).
- Recharge the battery after each use, even if only for a short period, to prolong its lifespan.
- If storing the vehicle for an extended period, charge the battery monthly.

Cleaning and Storage

- Wipe the vehicle with a damp cloth. Do not use abrasive cleaners.
- Store the vehicle in a dry, cool place away from direct sunlight and moisture.

- Protect the vehicle from extreme temperatures.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Vehicle does not move	Battery low or not connected; Power switch off; Loose wiring.	Charge battery; Turn power switch on; Check all connections.
Remote control not working/pairing	Remote batteries low; Remote not paired correctly; Interference.	Replace remote batteries; Refer to remote pairing instructions (usually involves holding specific buttons on remote and vehicle); Move to an area with less interference.
Slow speed or short run time	Battery not fully charged; Overloaded vehicle; Old battery.	Charge battery fully; Reduce load; Consider battery replacement if old.
Dump bed not operating	Loose connection to dump bed motor; Obstruction.	Check wiring to dump bed mechanism; Clear any obstructions.
