## SETUP

### 1. Charging the Smart Watch

Before initial use, fully charge the smart watch. Connect the provided USB charging cable to the charging port on the back of the watch and a standard USB power source.

**Image:** The magnetic USB charging cable for the smart watch. It features a circular magnetic connector that attaches to the watch's charging pins and a standard USB-A connector for power.

**Image:** The GT21 Y13 Smart Watch connected to its charging cable, displaying a battery icon with a charging indicator. The image also indicates a normal use battery life of 5 days and a standby life of 15 days.

- Charging time: Approximately 1.5 hours.
- Working time: Around 3 days on a full charge.

## 2. Power On/Off

- **To Power On:** Press and hold the side key until the screen illuminates.
- **To Power Off:** Navigate to the power off option in the watch settings or press and hold the side key, then confirm power off.

## 3. App Installation and Pairing

To unlock the full functionality of your smart watch, download the companion mobile application. Search for the app name (usually found in the manual or on the watch screen during initial setup) in your smartphone's app store (Google Play Store for Android, Apple App Store for iOS).

1. Download and install the app on your smartphone.
2. Open the app and follow the on-screen instructions to create an account or log in.
3. Ensure Bluetooth is enabled on your smartphone.
4. In the app, search for your GT21 Y13 Smart Watch and select it to pair.

5. Confirm the pairing request on both your phone and the watch.
