ddpai Z60 Pro

DDPAI 4G LTE Module for Z60 Pro Dash Cam - Instruction Manual

Model: Z60 Pro | Brand: DDPAI

INTRODUCTION

This manual provides detailed instructions for the installation, operation, and maintenance of your DDPAI 4G LTE Module. Designed to enhance the functionality of your DDPAI Z60 Pro Dash Cam, this module enables advanced remote monitoring, real-time tracking, and cloud storage capabilities. Please read this manual thoroughly before use to ensure optimal performance and safety.

WHAT'S IN THE BOX

The DDPAI 4G LTE Module package includes the following components:

- 4G Cloud Box
- SIM Card (with 30GB free data for the first 90 days)
- Intelligent Hardwire Kit
- 3M Stickers
- SIM Ejector Tool
- User Manual

KEY FEATURES

- **SIM Card Included:** Comes with a DDPAI SIM card offering 30GB of free data for the first 90 days.
- **Powerful 4G Remote Connectivity:** Enables remote real-time viewing, screen recording, photo capture, and

remote dash cam wake-up via the DDPAI app.

- **Instant App Alerts:** Receive real-time notifications with location, time, and footage for collisions or emergencies.
- **GPS Tracking & Geofencing:** Track your vehicle's location in real-time and set virtual boundaries with instant alerts.
- **Smart Cloud Storage:** Provides 2GB of cloud storage for collision photos and 10-second video clips (720P@30fps, 4Mbps), with full control over your cloud album.
- **Intelligent Hardwire Kit:** Features IPS low-voltage protection to prevent vehicle battery drain.

OPERATING INSTRUCTIONS

1. Remote Live View & Control

Monitor real-time footage remotely via the DDPAI app. You can initiate remote screen recording, capture photos, and even wake up your dash cam from sleep mode.

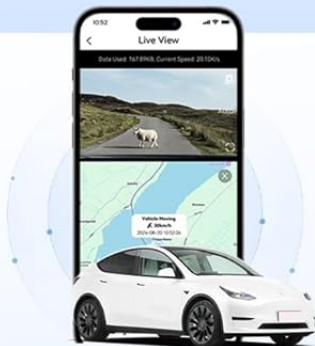

Image: Remote live preview of dash cam footage on a smartphone.

Remote Control with 4G LTE

Remote Photo Capture

Capture critical snapshots when remotely viewing live footage.

Remote GPS Tracking

Track vehicle's location in real-time via GPS on DDPAI app.

Remote Wake-Up

Remotely wake up your dashcam even in sleep mode.

Image: Visual guide to remote photo capture, GPS tracking, and remote wake-up functions.

2. Incident Alerts & GPS Tracking

The DDPAI app will send instant alerts to your phone if unusual events like collisions or vehicle entry/exit from geofenced areas occur. You can track your vehicle's real-time location via GPS.
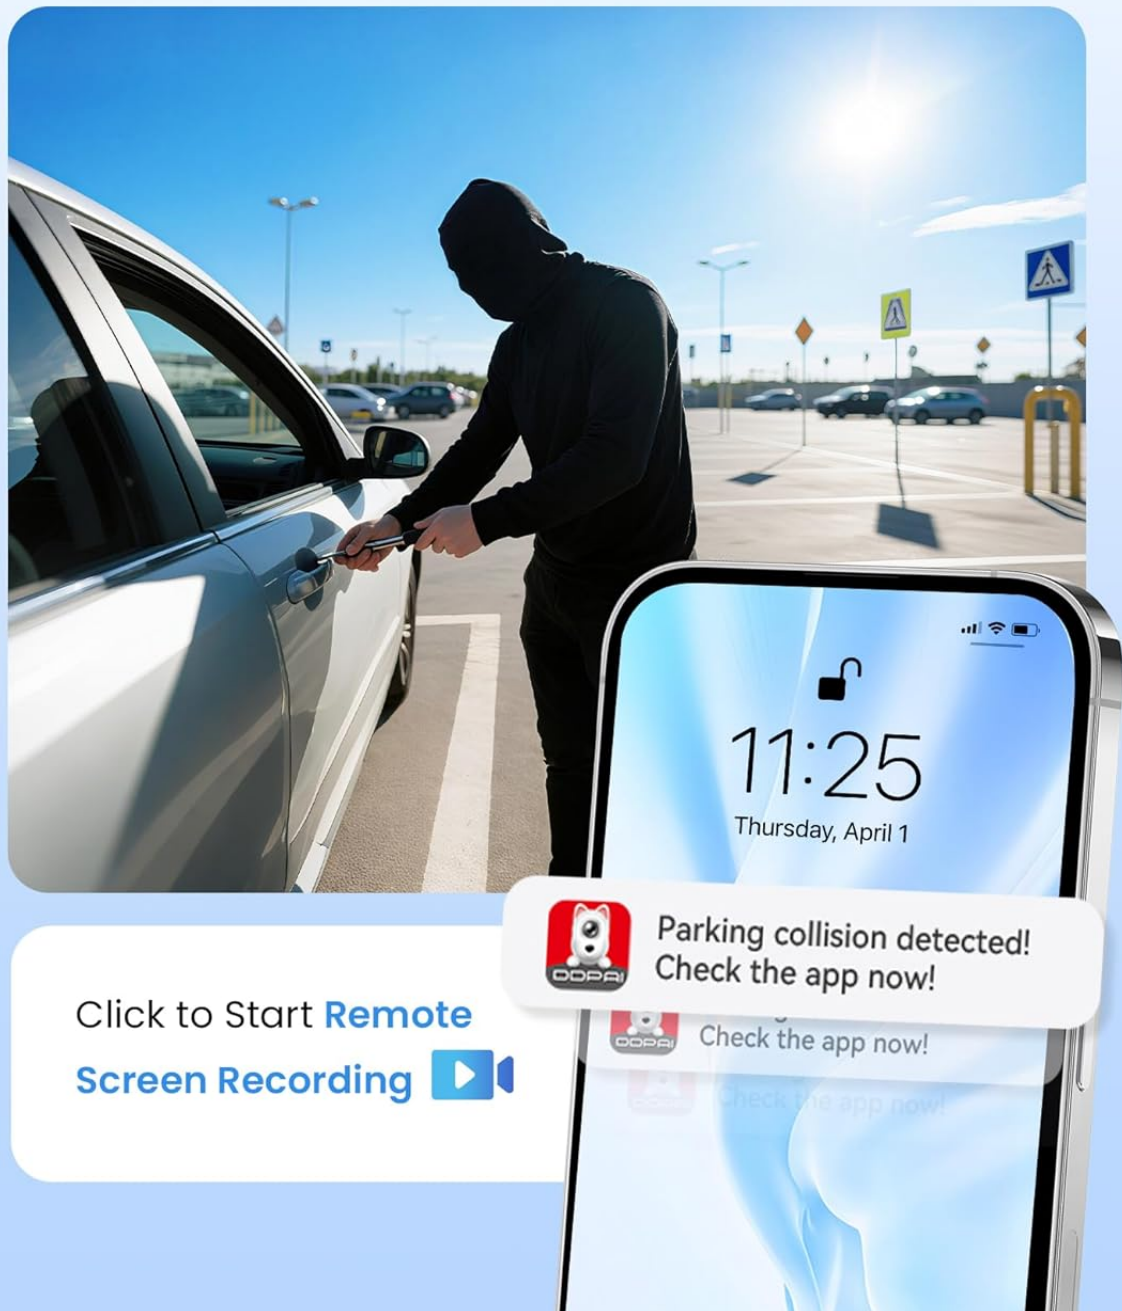

Image: An example of an instant app alert for a parking collision.

3. Cloud Storage Management

Collision photos and 10-second video clips are automatically uploaded to your 2GB cloud storage. Manage your cloud album directly from the app to select, download, or delete media.

Smart Cloud Storage

Automatically upload collision photos and short video clips (10 seconds before and after the collision, 720P@30fps, 4Mbps) to the cloud.

MAINTENANCE

- Regularly check the DDPAI app for firmware updates to ensure optimal performance and access to new features.
- Ensure the intelligent hardwire kit is properly connected to prevent battery drain. The IPS low-voltage protection is designed to safeguard your vehicle's battery.
- Periodically review your cloud storage and local dash cam footage. Delete unnecessary files to manage storage space effectively.
- Keep the dash cam lenses clean for clear recording quality.

TROUBLESHOOTING

- **No 4G Connectivity:** Ensure the SIM card is correctly inserted and activated. Check your data plan status in the DDPAI app. Verify network coverage in your area.
- **Dash Cam Not Waking Up Remotely:** Confirm the 4G LTE module is properly connected and has an active data plan. Some features may rely on traffic detection (phone calling) for wake-up, depending on your SIM card type.
- **Battery Drain:** The intelligent hardwire kit includes IPS low-voltage protection. If battery drain occurs, verify the hardwire kit installation and consult your vehicle's manual or a professional.
- **App Alerts Not Received:** Check your phone's notification settings for the DDPAI app. Ensure the app has necessary permissions and a stable internet connection.

SPECIFICATIONS

Product Dimensions	1.97 x 1.97 x 1.97 inches
Item Weight	1.98 ounces
Connectivity Technology	4G LTE
Special Features	Cloud Storage, Cloud Album Management, Instant App Alerts, 4G Connectivity, Live GPS Tracking, Geofencing, App Control, Remote Live View, Remote Screen Recording, Remote Photo Capture, Remote Wake-up of Dashcam
Color	Black
Manufacturer	ddpai
Model Name	4G Cloud Box
Video Capture Resolution	1080p, 2160p (Dash Cam dependent)
Mounting Type	Windshield Mount

WARRANTY & SUPPORT

- **Warranty:** 18 Months
- **Return Policy:** 7 Days
- **Return on Defects:** Yes
- **Customer Support:** QUICK 24/7 LIVE EMAIL SUPPORT at servicecenter@ddpai.com
