User Manual

JURWHEER HEPA FILTER AND ROLLER BRUSH REPLACEMENT KIT

For Laesar M3 Cordless Wet Dry Vacuum Cleaner

Introduction

This manual provides essential information for the installation, care, and maintenance of your JurwheeR HEPA Filter and Roller Brush Replacement Kit, specifically designed for the Laesar M3 Cordless Wet Dry Vacuum Cleaner. This kit ensures your vacuum cleaner maintains optimal performance by effectively capturing dirt, dust, and debris, contributing to a thorough cleaning experience.

Figure 1: Overview of the JurwheeR replacement kit, showing one roller brush and two HEPA filters.

Product Components

The JurwheeR replacement kit includes the following components:

- **1x Main Roller Brush:** Designed for effective scrubbing and debris collection.
- **2x HEPA Filters:** High-efficiency particulate air filters to capture fine dust and allergens.

Installation Guide

Replacing the roller brush and HEPA filters is a straightforward process. Ensure your Laesar M3 vacuum cleaner is turned off and unplugged before proceeding with any replacement.

Replacing the Roller Brush

1. **Access the Brush Compartment:** Locate the brush compartment cover on the bottom of your Laesar M3 vacuum cleaner.
2. **Remove the Cover:** Open or unlatch the brush compartment cover. Refer to your vacuum cleaner's original manual for specific instructions on accessing this area.

3. **Remove Old Brush:** Carefully lift out the worn or damaged roller brush.
4. **Install New Brush:** Align the new JurwheeR roller brush with the slots in the vacuum cleaner. Ensure the end caps (as shown in Figure 3) are properly seated.
5. **Secure the Cover:** Close and latch the brush compartment cover securely.

Replacing the HEPA Filters

1. **Access the Filter Compartment:** Locate the filter compartment, typically found near the dustbin or water tank of your Laresar M3 vacuum cleaner.
2. **Remove Old Filters:** Open the compartment and carefully remove the used HEPA filters. Dispose of them responsibly.
3. **Install New Filters:** Insert the new JurwheeR HEPA filters into their designated slots. Ensure they are seated firmly to maintain an airtight seal.
4. **Close Compartment:** Close the filter compartment cover securely.

Care and Maintenance

Regular cleaning and proper maintenance of your replacement parts will extend their lifespan and ensure your vacuum cleaner continues to perform effectively.

- **Roller Brush:** After each use, inspect the roller brush for tangled hair or debris. Use scissors or a brush cleaning tool to remove any obstructions. The brush can be rinsed with water if heavily soiled; ensure it is completely dry before re-installing.
- **HEPA Filters:** Tap the filters gently over a trash can to remove loose dust. For deeper cleaning, the filters can be rinsed under running water. Allow them to air dry completely for at least 24 hours before re-installation to prevent mold growth and damage to the vacuum cleaner. Do not use a brush or abrasive materials on the filter media.
- **Replacement Frequency:** For optimal performance, it is recommended to replace the roller brush every 3-6 months and the HEPA filters every 2-3 months, depending on usage and environment.

Troubleshooting

If you encounter issues after installing the replacement parts, consider the following:

- **Poor Suction:** Ensure the HEPA filters are correctly installed and fully dry. Check for any blockages in the vacuum cleaner's air paths.
- **Brush Not Spinning:** Verify the roller brush is properly seated in its compartment and that its end caps are securely in place. Check for any debris obstructing the brush's rotation.
- **Unusual Noise:** Re-check the installation of both the roller brush and filters to ensure all components are correctly aligned and secured.

If problems persist, consult the original Laesar M3 vacuum cleaner manual or contact JurwheeR customer support.

Specifications

Feature	Detail
Product Name	Main Roller Brush and Filter Set
Brand	JurwheeR

Feature	Detail
Model Number	3XQ50O641WZ918B79RR86P5
Compatibility	Laresar M3 Wet and Dry Vacuum Cleaner
Components Included	1x Main Roller Brush, 2x HEPA Filters
Product Dimensions	5.91 x 3.94 x 1.97 inches (packaging)
Item Weight	9.2 ounces
Material	Plastic + Filter Paper (Filter)

Warranty and Support Information

For specific warranty details regarding your JurwheeR replacement kit, please refer to the product packaging or contact the seller directly. For technical support or further assistance, please reach out to JurwheeR customer service through their official channels or the retailer from whom the product was purchased.
