3. INSTALLATION GUIDE

Follow these steps carefully for a successful, bubble-free installation:

3.1. Preparation

1. **Clean Your Phone Screen:** Use the provided wet wipe to thoroughly clean the screen surface.
2. **Dry the Screen:** Use the dry cloth to remove any moisture or streaks.
3. **Remove Dust:** Use the dust absorber sticker to lift any remaining dust particles from the screen. Ensure the screen is completely free of dust and debris.

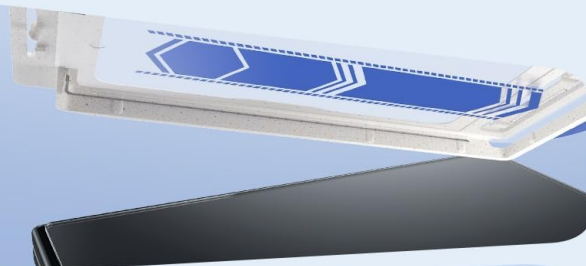

3.2. Using the Alignment Tray

4. **Install the Tray:** Place your Samsung Galaxy Z Fold 7 into the provided installation box (alignment tray). Ensure it fits snugly and is correctly oriented.
5. **Pull Static Dust Removal Tab:** Locate the 'STEP 1 Pull Out' tab on the installation tray. Slowly and steadily pull this tab to activate the automatic dust removal and screen protector application process.
6. **Auto Bubble Evacuation:** Once the tab is fully pulled, press the bottom lever of the tray to expel any remaining air bubbles automatically.

4.4. Silky Smooth, Anti-Fingerprint & Case Friendly

The screen protector features 4-layer electroplating and a nano-coating for a smooth, responsive touch, ideal for typing, swiping, and gaming. ClearShield technology minimizes fingerprints, keeping your screen clean. It is precisely cut to ensure compatibility with most phone cases, leaving sufficient space around the edges.

6. TROUBLESHOOTING

6.1. Air Bubbles After Installation

- **Small Bubbles:** Minor bubbles often disappear naturally within 24-48 hours.
- **Persistent Bubbles:** Use the provided squeegee to gently push bubbles towards the nearest edge. If a bubble is caused by a dust particle, carefully lift the nearest corner of the screen protector with a dust removal sticker, use another dust sticker to remove the particle, and then reapply.

6.2. Misalignment

- The alignment tray is designed for precise application. If misalignment occurs, it may be due to improper placement of the phone in the tray or not fully engaging the tray's mechanisms. For severe misalignment, a new screen protector may be required.

6.3. Fingerprint Sensor Issues

- After installing the screen protector, it is recommended to re-register your fingerprints for optimal sensor performance.
