## LBH Wisp Roll Mudi

# LBH Wisp Roll Mudi Shampoo Unit User Manual

Model: Wisp Roll Mudi (RZMW020.A12.BA12)

## 1. INTRODUCTION

---

Thank you for choosing the LBH Wisp Roll Mudi Shampoo Unit. This unit is designed for professional hair salon use, offering comfort and functionality. It features an ergonomic design, a ceramic basin, and an integrated electric footrest. This manual provides essential information for the safe and efficient installation, operation, and maintenance of your shampoo unit. Please read these instructions carefully before use and retain them for future reference.

**Image 1.1:** The LBH Wisp Roll Mudi Shampoo Unit, showcasing its black upholstery, white ceramic basin, and the electric footrest in its extended position. This view highlights the unit's overall design and functionality.

**Image 1.2:** A top-down view of the LBH Wisp Roll Mudi Shampoo Unit, illustrating the ergonomic shape of the seat and the placement of the white ceramic basin.

## 2. SAFETY INSTRUCTIONS

---

- Ensure all electrical connections are performed by a qualified electrician and comply with local regulations.
- All plumbing connections must be installed by a licensed plumber to prevent leaks and ensure proper drainage.
- Do not operate the electric footrest if any part is damaged or if the power cord is frayed.
- Keep water and liquids away from electrical components.

- Do not allow children to operate or play near the unit.
- Regularly inspect the unit for any signs of wear, damage, or loose connections.
- Use only manufacturer-approved replacement parts for repairs.
- Ensure the unit is placed on a stable, level surface.

### 3. PACKAGE CONTENTS

---

Upon unpacking, please verify that all components are present and undamaged.

- LBH Wisp Roll Mudi Shampoo Unit (main chair and basin assembly)
- White Ceramic Basin (pre-installed)
- Monochrome Faucet with Stainless Steel Hose
- Chromed Shower Head with Polyamide Hose
- Stainless Steel Drain
- Power Cable for Electric Footrest

### 4. SETUP AND INSTALLATION

---

Installation of the LBH Wisp Roll Mudi Shampoo Unit requires professional plumbing and electrical work. It is recommended that a qualified technician performs these steps.

1. **Positioning:** Place the shampoo unit in its desired location, ensuring sufficient space for client access and operation of the electric footrest. Verify the floor is level and capable of supporting the unit's weight (79 kg).
2. **Plumbing Connections:**
  - Connect the hot and cold water supply lines to the corresponding inlets on the faucet assembly.
  - Connect the drain hose from the ceramic basin to the salon's wastewater system. Ensure all connections are watertight to prevent leaks.

**Image 4.1:** Rear view of the LBH Wisp Roll Mudi Shampoo Unit, illustrating the water supply hoses and drain pipe connected to the ceramic basin. This perspective is crucial for understanding plumbing installation.

- 3. Electrical Connection (for Electric Footrest):** Connect the power cable for the electric footrest to a suitable electrical outlet. Ensure the outlet meets the unit's power requirements and is properly grounded.
- 4. Testing:** After all connections are made, slowly turn on the water supply and check for any leaks. Test the electric footrest by pressing its integrated button to ensure smooth operation.

## 5. OPERATING INSTRUCTIONS

---

The LBH Wisp Roll Mudi Shampoo Unit is designed for ease of use.

1. **Client Seating:** Guide the client to sit comfortably in the chair. The ergonomic seat and backrest with springs provide support.
2. **Basin Adjustment:** The white ceramic basin is tilting. Gently adjust its angle to comfortably fit the client's neck, ensuring water drains properly.
3. **Water Control:** Use the monochrome faucet to control water flow and temperature. The chromed shower head provides a flexible spray for rinsing.
4. **Electric Footrest Operation:** The unit features an integrated electric footrest. Locate the button (usually on the side of the chair) and press it to extend or retract the footrest. This allows the client to recline for maximum comfort during the shampooing process.

**Image 5.1:** Side profile of the LBH Wisp Roll Mudi Shampoo Unit, showing the electric footrest fully extended, providing a reclined position for client comfort.

## 6. MAINTENANCE AND CARE

---

Regular maintenance ensures the longevity and optimal performance of your shampoo unit.

- **Upholstery Cleaning:** The high-quality black PVC leatherette upholstery can be cleaned with a damp cloth and mild, non-abrasive cleaner. Avoid harsh chemicals that may damage the material.
- **Ceramic Basin Cleaning:** Clean the white ceramic basin after each use to prevent soap scum and hair product buildup. Use a non-abrasive cleaner suitable for ceramic surfaces.
- **Faucet and Shower Head:** Periodically clean the faucet and shower head to remove mineral deposits. Check for blockages in the shower head nozzles.
- **Drain Maintenance:** Regularly clear the stainless steel drain of hair and debris to prevent blockages.
- **Electrical Components:** Ensure the power cord and electric footrest mechanism are free from obstructions and damage. Do not attempt to lubricate or repair electrical parts yourself.
- **General Inspection:** Routinely check all connections (plumbing and electrical) and structural components for tightness and integrity.

## 7. TROUBLESHOOTING

---

Problem	Possible Cause	Solution
Electric footrest not operating.	Power cord unplugged, circuit breaker tripped, motor malfunction.	Check power connection. Reset circuit breaker. If problem persists, contact qualified service personnel.
Water leak from connections.	Loose plumbing connections, damaged seals.	Tighten connections. Inspect and replace seals if necessary. Contact a plumber.
Slow drainage from basin.	Hair or debris blockage in drain.	Remove and clean the stainless steel drain. Use a drain snake if necessary.
Inconsistent water temperature.	Water heater issue, faulty mixing valve.	Check salon's water heater settings. Consult a plumber for faucet inspection.
