AIPER Seagull Pro-Renewed-Grey

AIPER Seagull Pro ZT6002 Cordless Robotic Pool Cleaner User Manual

Model: Seagull Pro ZT6002

INTRODUCTION

The AIPER Seagull Pro robotic pool cleaner is designed to revolutionize your pool maintenance, offering an effortless and efficient cleaning experience. With its advanced WavePath Navigation, powerful quad-motor system, and wall-climbing capabilities, it ensures comprehensive cleaning of your pool's floor, walls, and waterline. This manual provides essential information for setting up, operating, and maintaining your robotic pool cleaner to ensure optimal performance and longevity.

SETUP GUIDE

Unboxing

Carefully remove all components from the packaging. Ensure all parts listed in the packing list are present before proceeding.

Charging

Before first use, fully charge the robotic pool cleaner. The built-in 7,800mAh battery offers up to 150 minutes of continuous cleaning and fully recharges in just 3–4 hours. Connect the charger to the designated charging port on the unit and plug it into a power outlet. The indicator lights will show the charging status.

Initial Placement

Once fully charged, place the robotic pool cleaner into the pool. Ensure it is fully submerged before activating. The unit is designed for inground pools up to 1,600 sq.ft.

OPERATING INSTRUCTIONS

Control Dial and Cleaning Modes

The AIPER Seagull Pro features an intuitive control dial on top of the unit. This dial allows you to select from three distinct cleaning modes:

1. **Automatic Mode:** The cleaner will intelligently plan its path to cover the pool floor, walls, and waterline.
2. **Floor Only Mode:** The cleaner will focus solely on scrubbing the pool floor.
3. **Wall Only Mode:** The cleaner will primarily focus on climbing and cleaning the pool walls and waterline.

WavePath Navigation

Equipped with a four-motor WavePath navigation system, the cleaner ensures efficient and thorough coverage. This intelligent planning system optimizes the cleaning route for complete coverage of the pool floor, walls, and waterline, minimizing energy consumption.

Figure 4: WavePath Navigation in action

Wall-Climbing and Quad-Motor Performance

The four-wheel-drive system enables the pool cleaner to easily climb walls and effectively scrub the waterline. Powered by four motors delivering up to 196W, the unit filters up to 80 gallons of water per minute, ensuring powerful suction to capture various debris.

MAINTENANCE

Debris Filter Access and Cleaning

The AIPER Seagull Pro features an easy-access debris filter for convenient cleaning. Simply lift the top lid to remove the debris basket. Rinse the basket thoroughly with a hose to remove collected leaves, dirt, pebbles, and other debris. Regular cleaning of the filter basket is crucial for maintaining optimal suction and cleaning performance.

TROUBLESHOOTING

Common Issues and Solutions

- **Robot gets stuck on drains or covers the same area repeatedly:** Ensure pool drains are flush with the pool floor. The WavePath Navigation system is designed for efficient coverage, but complex pool shapes or uneven surfaces may require manual repositioning or additional cleaning cycles.
- **Robot does not climb steps or walls effectively:** Verify the battery is fully charged. Ensure the pool surface is free from excessive algae or slippery buildup that could hinder traction.
- **Reduced suction or cleaning efficiency:** Check and clean the debris filter basket. A clogged filter can significantly reduce performance.

SPECIFICATIONS

Feature	Specification
Brand	AIPER
Model Name	Seagull Pro-Renewed-Grey
Product Dimensions	16 x 10 x 16 inches
Item Weight	32 pounds
Power Source	Battery Powered
Battery Capacity	7,800mAh (1 Lithium Ion battery included)
Runtime	Up to 150 minutes
Charging Time	3–4 hours
Max Pool Size	Up to 1,600 sq.ft
Special Features	Quad-Motor Power, Wall-Climbing, Fully Wireless, WavePath Navigation
Control Method	Touch

WARRANTY & SUPPORT

The AIPER Seagull Pro ZT6002 robotic pool cleaner comes with a two-year product protection. For warranty claims, technical support, or any inquiries regarding your product, please refer to the contact information provided in your product packaging or visit the official AIPER website.
