iScooter IK1C

iScooter iK1 Electric Scooter User Manual

Model: IK1C

Brand: iScooter

INTRODUCTION

This manual provides essential information for the safe operation and maintenance of your iScooter iK1 Electric Scooter. Please read it thoroughly before use and retain it for future reference.

Safety Information

Always prioritize safety when operating the electric scooter. Adult supervision is recommended for children aged 6-10. Ensure all riders wear appropriate safety gear, including a helmet and protective pads.

- **Weight Limit:** Do not exceed 110 pounds (50 kg).
- **Age Range:** Suitable for children aged 6-10.
- **Battery Warning:** The iK1C kids electric scooter will automatically power off after 5 minutes of inactivity. When the battery is low, a red warning light will flash to alert you.
- **Charging Safety:** Use only the original charger to charge the battery. The magnetic charging technology is TUV certified anti-touch for enhanced safety.
- **Riding Conditions:** Always ride in safe environments, away from traffic and obstacles. Adhere to local traffic laws and regulations.

PACKAGE CONTENTS

Verify that all items are present in the package:

- iScooter iK1 Electric Scooter x 1
- Charger x 1
- Instruction Manual x 1 (This document)
- Brand Card x 1
- Tool Kit x 1
- Tag x 1

SETUP

The iScooter iK1 Electric Scooter requires minimal assembly. Only the handlebar and stem need to be assembled for quick use.

Handlebar Assembly

1. Insert the handlebar stem into the main body of the scooter.
2. Align the holes and secure the stem using the provided tools and fasteners from the tool kit.
3. Ensure all connections are tight and secure before riding.

Video: General overview of iScooter models, including assembly and features.

CHARGING

Before embarking on your first ride, make sure to fully charge your scooter for optimal performance. The iK1 features magnetic charging technology for safe and hassle-free connection.

1. Locate the magnetic charging port on the side of the scooter.
2. Connect the magnetic charger to the port. It will snap into place upon proximity.
3. The charging time is approximately 4.5 hours for a full charge.
4. Always unplug the charger when not in use.

Innovative & Magnetic Charging

Low alignment difficulty

Snap-to connect upon proximity

Effortless plugging & unplugging

Reducing wear and tear

Waterproof & dustproof

Enhancing safety

OPERATING INSTRUCTIONS

Power On/Off and Speed Modes

- **Power On/Off:** Long press the power button to turn the scooter on or off.

- **Speed Modes:** The iK1C offers dual speeds of 4 mph and 6 mph. Press the power button once while the scooter is on to switch between speed modes.
- **Non-Zero Start:** The scooter adopts a non-zero-start mechanism for safer coasting. The motor will engage after a slight push-off.
