Attoe X3

Attoe X3 Wireless Gaming Mouse User Manual

Model: X3

INTRODUCTION

This manual provides detailed instructions for the Attoe X3 Wireless Gaming Mouse. Please read it thoroughly to ensure proper setup, operation, and maintenance of your device. The Attoe X3 is designed for gamers, offering a lightweight, hollowed-out design, high-precision sensor, and versatile tri-mode connectivity.

PACKAGE CONTENTS

- Attoe X3 Wireless Gaming Mouse
- User manual
- USB Type-C charging cable
- 2.4GHz USB receiver

PRODUCT OVERVIEW

The Attoe X3 features a unique hollowed-out design, contributing to its 70g lightweight profile. It incorporates a high-precision PAW 3311 sensor and customizable RGB lighting. The mouse supports three connectivity modes: wired, 2.4GHz wireless, and Bluetooth 5.1.

SETUP

1. **Charge the Mouse:** Connect the included USB Type-C cable to the mouse and a power source (e.g., computer USB port, USB wall adapter). The RGB lighting may indicate charging status.
2. **Select Connection Mode:** Use the mode switch button on the bottom of the mouse to select your desired connection type (Wired, 2.4GHz, or Bluetooth).
3. **Connect to Device:** Follow the instructions in the 'Connectivity Modes' section for your chosen connection method.

CONNECTIVITY MODES

The Attoe X3 offers three versatile connection options:

Image: Visual representation of the three connection modes (Wired, 2.4G, Bluetooth 5.1) with the mouse connected to a laptop and smartphone, highlighting the 500mA battery and USB-C cable.

1. Wired Mode

Connect the mouse directly to your computer using the provided USB Type-C cable. The mouse will function immediately and charge simultaneously.

2. 2.4GHz Wireless Mode

1. Locate the 2.4GHz USB receiver, typically stored in a compartment on the underside of the mouse.
2. Plug the USB receiver into an available USB port on your computer.
3. Switch the mode selector on the bottom of the mouse to the '2.4G' position.
4. The mouse should connect automatically.

3. Bluetooth 5.1 Mode

1. Switch the mode selector on the bottom of the mouse to the 'BT' position.
2. On your computer or device, navigate to Bluetooth settings and enable Bluetooth.
3. Search for new devices. The mouse should appear as 'Attoe X3' or similar.
4. Select the mouse to pair.

DPI SETTINGS

The Attoe X3 features adjustable DPI (Dots Per Inch) settings, allowing you to customize cursor sensitivity. There are five preset levels:

- 800 DPI
- 1600 DPI
- 3200 DPI
- 6400 DPI
- 12000 DPI

To cycle through DPI settings, press the dedicated DPI button located on the underside of the mouse (refer to the Product Overview button diagram). Each press will switch to the next DPI level.

PROGRAMMABLE BUTTONS AND SOFTWARE

The Attoe X3 features 6 programmable buttons. To customize button functions, assign macros, or adjust RGB lighting effects, dedicated software is required. Please visit the official Attoe website to download the latest driver software for your operating system.

CHARGING AND BATTERY LIFE

The mouse is equipped with a 500mAh rechargeable battery. A full charge provides approximately 40 hours of usage in Bluetooth mode. When the battery is low, the RGB lighting may change or flash to indicate the need for charging. Connect the mouse using the USB Type-C cable to charge it. The mouse can be used while charging in wired mode.

MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the mouse. For the hollowed-out areas, a can of compressed air can help remove dust and debris. Avoid using liquid cleaners or abrasive materials.
- **Storage:** Store the mouse in a cool, dry place away from direct sunlight and extreme temperatures.
- **Battery Care:** To prolong battery life, avoid fully discharging the mouse frequently. Charge it when the low battery indicator appears.

TROUBLESHOOTING

- **Mouse not responding:** Ensure the mouse is charged. Check the connection mode switch (Wired, 2.4G, BT) is set correctly. For 2.4GHz, ensure the USB receiver is securely plugged in. For Bluetooth, ensure it's paired correctly and Bluetooth is enabled on your device.
- **Lag or intermittent connection:** Ensure the mouse is within range of the receiver/device. Avoid interference from other wireless devices. Try connecting in wired mode to rule out wireless issues.
- **DPI not changing:** Ensure you are pressing the correct DPI button on the underside of the mouse.
- **RGB lighting not working:** Check if the RGB lighting is enabled via the software or a dedicated button (if available). Ensure the mouse has sufficient battery charge.

SPECIFICATIONS

Feature	Specification
Model	X3
Brand	Attoe
Connectivity	Wired (USB-C), 2.4GHz Wireless, Bluetooth 5.1
Sensor	PAW 3311 Optical
DPI Levels	800, 1600, 3200, 6400, 12000
Programmable Buttons	6
Battery Capacity	500mAh
Item Weight	2.47 ounces (approx. 70g)
Product Dimensions	4.3 x 2.1 x 0.04 inches

WARRANTY AND SUPPORT

For warranty information, technical support, or further assistance, please refer to the warranty card included with your product or visit the official Attoe website. Contact information for customer service can typically be found on the manufacturer's website.
