Model: **Black 60 Inch** | Brand: **Fanbulous**

1. Important Safety Information

Please read and understand this entire manual before attempting to assemble, operate, or install the product. Failure to follow these instructions could result in electric shock, fire, or serious personal injury.

- All electrical connections must be in accordance with local codes, ordinances, or national electrical codes. If you are unfamiliar with wiring, consult a qualified electrician.
- Ensure the installation site allows the fan blades to rotate without obstruction. A minimum clearance of 7 feet from the floor to the blade trailing edge is recommended.
- Turn off power at the circuit breaker or fuse box before beginning installation to prevent electrical shock.
- The outlet box and support structure must be securely mounted and capable of reliably supporting a minimum of 35 lbs (15.9 kg). Use only UL Listed outlet boxes marked "Acceptable for Fan Support of 35 lbs (15.9 kg) or less."
- Do not operate the fan with damaged power cords or plugs.
- Do not insert objects into the fan blades while the fan is operating.
- This fan is intended for indoor use only.

2. Package Contents

Verify that all components are present before beginning installation. If any parts are missing or damaged, contact customer service.

4. Setup & Installation

Professional installation is recommended if you are not experienced with electrical wiring.

4.1 Pre-Installation Checks

- Ensure power is disconnected at the circuit breaker.
- Confirm the ceiling joist or support structure can hold the fan's weight.
- Gather all necessary tools: screwdriver, wire strippers, ladder, etc.

4.2 Mounting Bracket Installation

1. Attach the mounting bracket to the ceiling outlet box using the provided screws and washers. Ensure it is securely fastened.

4.3 Downrod and Fan Assembly

1. Select the appropriate downrod length (4", 8", or 12") for your ceiling height.
2. Feed the motor wires through the chosen downrod.
3. Secure the downrod to the fan motor assembly with the provided pin and clip.
4. Carefully lift the fan assembly and hang it on the mounting bracket hook.

4.4 Electrical Wiring

1. Connect the fan's electrical wires to the house wiring according to the wiring diagram in the full manual (typically black to black, white to white, and green/bare copper to ground). Use wire nuts to secure connections.
2. Ensure all connections are tight and insulated.

4.5 Canopy and Blade Attachment

1. Slide the canopy up and secure it to the mounting bracket with screws.
2. Attach each fan blade to the motor housing using the provided screws. Ensure they are firmly attached.

4.7 Remote Control Pairing

1. Install 2 AAA batteries into the remote control.
2. Restore power to the fan at the circuit breaker.
3. Within 30 seconds of restoring power, press and hold the 'Light' button on the remote control for 5 seconds until you hear a beep, indicating successful pairing.

5. Operating Instructions

The fan is operated using the included remote control.

5.1 Remote Control Functions

- **Power On/Off:** Press the power button to turn the fan on or off.
- **Fan Speed:** Use buttons 1-6 to adjust the fan speed. '1' is the lowest speed, '6' is the highest.
- **Light On/Off:** Press the light button to turn the LED light on or off.
- **Light Color Temperature:** Press the light color temperature button to cycle through 3000K (warm

white), 4500K (neutral white), and 6500K (cool white).

- **Reversible Fan Direction:** Press the reverse button to change the blade rotation direction for summer (downward airflow) or winter (upward airflow).
- **Timer Settings:** Press 1H, 4H, or 8H to set the fan to turn off automatically after 1, 4, or 8 hours.
- **Mute:** Press the mute button to silence remote control beeps.

6. Maintenance

Regular maintenance helps ensure the longevity and optimal performance of your ceiling fan.

- **Cleaning:** Periodically wipe the fan blades and motor housing with a soft, damp cloth. Do not use abrasive cleaners or solvents, as these can damage the finish.

- **Tightening Screws:** Check all screws on the fan blades and mounting hardware annually to ensure they are secure. Loose screws can cause noise and wobble.
- **Light Kit:** The LED light is integrated and not user-replaceable. If the light malfunctions, contact customer support.
- **Dusting:** Use a soft brush or vacuum cleaner with a brush attachment to remove dust from the fan blades and motor vents.

7. Troubleshooting

If you experience issues with your fan, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Fan does not start	No power to the fan; Loose wire connections; Remote control not paired or batteries dead.	Check circuit breaker; Verify all wire connections are secure; Replace remote batteries or re-pair remote.
Fan wobbles	Loose blade screws; Unbalanced blades; Loose mounting bracket.	Tighten all blade screws; Use a balancing kit (not included) to balance blades; Ensure mounting bracket is securely fastened.
Light does not work	Loose wire connection to light kit; Light kit malfunction.	Check light kit wiring connections; Contact customer support if light kit is faulty.
Remote control not working	Dead batteries; Remote not paired; Obstruction between remote and receiver.	Replace batteries; Re-pair remote control; Ensure clear line of sight to fan.
Fan is noisy	Loose screws; Motor issue; Blades hitting an obstruction.	Check and tighten all screws; Ensure no obstructions are in the fan's path; Contact customer support if motor noise persists.
