3. PRODUCT FEATURES

- **2K Ultra HD Resolution:** Provides clear 2304x1296p video.
- **Full Color Night Vision:** Built-in spotlight enables vivid color monitoring in low light.
- **360° Pan-Tilt-Zoom (PTZ):** Remotely control 355° horizontal and 90° vertical rotation.
- **Auto Motion Tracking:** Smart AI automatically follows and records detected movement.
- **Dual-Band WiFi:** Supports both 2.4G and 5G WiFi for stable connectivity.
- **Two-Way Audio:** Built-in microphone and speaker for communication.
- **IP66 Weatherproof:** Durable design for outdoor use in various weather conditions (-4°F ~ 122°F).
- **Flexible Storage:** Supports local microSD card storage (up to 128GB, not included) and optional cloud storage.
- **24/7 Recording:** Continuous recording capability with stable power supply.

4. SETUP

4.1 Installation

1. **Choose a Location:** Select an outdoor location with a clear view of the area you wish to monitor. Ensure it is within range of your Wi-Fi network and a power outlet.
2. **Mount the Camera:** Use the provided screw positioning sticker to mark drill holes. Drill holes, insert wall anchors, and secure the camera body to the wall using the mounting screws.
3. **Connect Power:** Plug the 5V1A power adapter into the camera and then into a power outlet. The camera will power on and begin its startup sequence.

4.2 App Download and Account Creation

1. Download the official ARCCTV app from your smartphone's app store (iOS or Android).
2. Open the app and follow the on-screen instructions to create a new account or log in if you already have one.

4.3 Wi-Fi Connection

1. In the app, tap the "Add Device" or "+" icon.
2. Select your camera model and follow the prompts to connect it to your Wi-Fi network. The camera supports both 2.4GHz and 5GHz bands for stable connectivity.
3. Ensure your smartphone is connected to the same Wi-Fi network during the setup process.

Image 4.2: The camera supports both 2.4GHz (larger range) and 5GHz (faster speeds) Wi-Fi bands.

4.4 MicroSD Card Installation (Optional)

For local storage, install a microSD card (up to 128GB, not included) into the designated slot on the camera. Ensure the camera is powered off before inserting or removing the card.

*The cloud storage service is subject to a fee.

Image 4.3: Location of the microSD card slot on the camera.

5. OPERATING THE CAMERA

5.1 Live View

Open the ARCCTV app and select your camera to view the live feed. You can monitor your property in real-time.

5.2 Pan-Tilt-Zoom (PTZ) Control

On the live view screen, use the directional controls to rotate the camera horizontally (Pan: 355°) and vertically (Tilt: 90°) to adjust the viewing angle. You can also set preset points for quick navigation.

Image 5.1: The camera offers 360° coverage through remote pan and tilt controls.

Image 5.2: Setting up camera patrol routes between preset points.

5.3 Motion Tracking and Alerts

The camera features smart AI motion tracking that automatically follows detected movement. You can customize alert zones and receive instant notifications on your smartphone when motion is detected.

Image 5.3: The camera's smart motion tracking feature in action.

Instant Alerts

Flexible and customizable settings

Image 5.4: Instant alerts with customizable settings, including spotlight, siren, and two-way audio.

Specific Area Alert

Customized alert zones, which trigger an alarm immediately upon detecting a person, provide precise protection for critical areas

Image 5.5: Setting up specific area alerts for precise protection.

5.4 Night Vision Modes

The camera offers both full-color night vision (activated by the built-in spotlight) and infrared night vision for clear monitoring in various low-light conditions.

Image 5.6: Comparison of Color Night Vision and Infrared Night Vision.

5.5 Two-Way Audio

Use the two-way audio feature to communicate with visitors or deter unwanted guests directly through the camera's built-in microphone and speaker.

Two-Way Talk

Breaks spatial barriers, enables remote real-time communication, and clearly conveys voices

Image 5.7: Utilizing two-way talk for remote communication.

5.6 Recording and Playback

The camera supports 24/7 continuous recording. Footage can be saved to a local microSD card (up to 128GB) or to optional cloud storage. Access recorded videos through the app's playback function.

Image 5.8: The camera provides 24/7 recording capabilities.

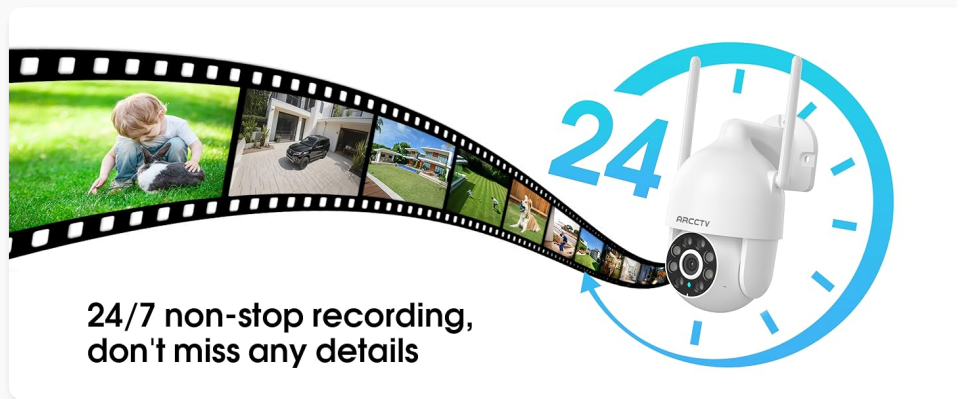

Image 5.9: Continuous 24/7 recording ensures no details are missed.

Image 5.10: Cloud storage encryption for secure and accessible recordings (subscription may apply).

5.7 Family Sharing

The app supports multi-member sharing, allowing family members to view the camera feed and collaborate on security monitoring.

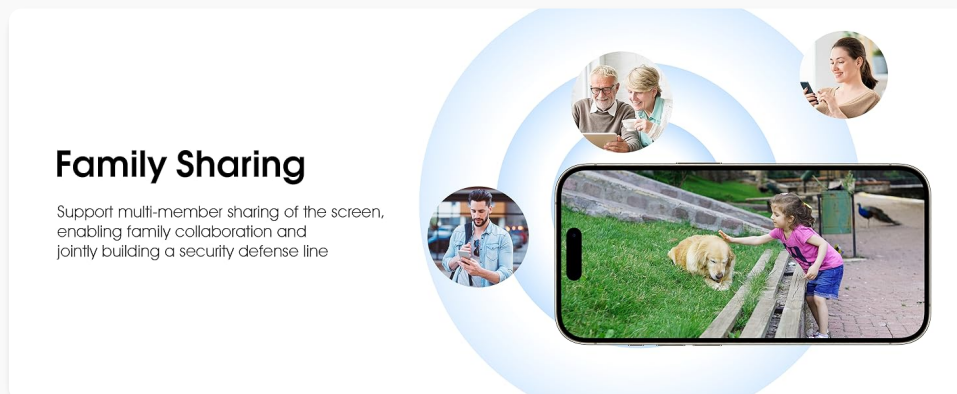

Image 5.11: The family sharing feature allows multiple users to access the camera feed.

5.8 Alexa Compatibility

The camera is compatible with Alexa, allowing you to check the monitoring screen using voice commands.

Compatible with Alexa

You can check the monitoring screen at any time using Alexa voice control

Image 5.12: Voice control via Alexa for convenient monitoring.

6. MAINTENANCE

6.1 Cleaning the Camera

Periodically clean the camera lens and housing with a soft, damp cloth to remove dust and debris. Do not use harsh chemicals or abrasive cleaners.

6.2 Firmware Updates

Ensure your camera's firmware is up to date for optimal performance and security. Check for updates within the ARCCTV app and follow the instructions to install them.

6.3 Storage Management

If using a microSD card, regularly check its status in the app. Format the card periodically to maintain performance. For cloud storage, manage your subscription and storage space through the app.

7. TROUBLESHOOTING

• Camera Not Connecting to Wi-Fi:

- Ensure your Wi-Fi network is 2.4GHz or 5GHz and has a strong signal at the camera's location.
- Verify the Wi-Fi password is entered correctly.
- Restart your router and the camera.

• Poor Image Quality:

- Clean the camera lens.
- Ensure adequate lighting for optimal night vision performance.
- Check your internet connection speed.

• Motion Detection Not Working:

- Verify motion detection is enabled in the app settings.
- Adjust sensitivity settings.
- Ensure there are no obstructions in the camera's field of view.

• No Recording to MicroSD Card:

- Ensure a microSD card is properly inserted and formatted in the app.
- Check if the card is full; consider formatting or replacing it.

- Verify recording settings in the app.

8. SPECIFICATIONS

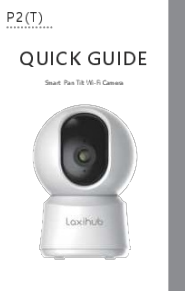

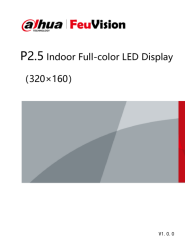

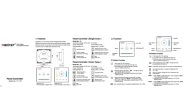

Feature	Specification
Model Name	P2
Indoor/Outdoor Usage	Outdoor
Video Capture Resolution	2K (2304x1296p)
Connectivity Technology	Wireless (Wi-Fi)
Wireless Communication Technology	Wi-Fi (2.4G/5G Dual-Band)
Viewing Angle	360 Degrees (355° Pan, 90° Tilt)
Night Vision Range	50 Feet
Water Resistance Level	IP66 Waterproof
Power Source	5V1A power adapter
Flash Memory Supported Size Maximum	128 GB (MicroSD)
Audio Visual Recording Capabilities	Video & Audio
Special Feature	2-Way Audio, Motion Tracking, Full Color Night Vision
Item Dimensions L x W x H	7.8 x 6.6 x 5.3 inches
Item Weight	1.39 pounds

9. WARRANTY AND SUPPORT
