Kepwam Self-Heating Travel Mug 20oz

Kepwam Self-Heating Travel Mug 20oz Instruction Manual

Model: Self-Heating Travel Mug 20oz

1. PACKAGE CONTENTS

Please verify that all items are present in the package:

- 1 x Kepwam Temperature Control Self-Heating Travel Mug (20oz)
- 1 x Charging Base with 6ft Cable
- 1 x Leakproof 2-in-1 Screw Lid
- 1 x User Manual

2. SETUP AND INITIAL USE

1. **Charge the Mug:** Thoroughly dry the mug and charging coaster. Place the mug on the charging base and connect the base to a power source. Fully charge the mug before its first use.
2. **Power On:** Press the power button located at the bottom of the mug to turn it on. The LED indicators will illuminate.
3. **Set Temperature:** Press the control button to cycle through the three preset temperature settings:
 - Warm: 113°F (45°C)
 - Hot: 131°F (55°C)

- Piping Hot: 149°F (65°C)

4. **App Activation (Optional):** For precise temperature control and customization, download the Kepwam App from the App Store or Google Play. Follow the in-app instructions to pair your mug via Bluetooth. You can then monitor real-time temperature and set your preferred temperature range (113°F to 149°F in 1°F increments).

Self-Heating Travel Mug

1 Charge the mug

Thoroughly dry the mug and charging coaster, then fully charge the mug for standby use

2 Power On

One-button power on/off, charging temperature control, and app activation

3 Set Your Temper

Press the control button to select:

- Warm – 113°F (45°C)
- Hot – 131°F (55°C)
- Piping – 149°F (65°C)

4 Enjoy every sip

Savor your favorite beverage at the perfect temperature — until the last sip

3. OPERATING INSTRUCTIONS

3.1 Temperature Control

The mug offers both manual and app-based temperature control. Use the physical button on the mug for quick adjustments or the Kepwam App for precise, 1-degree increment control.

- **Manual Control:** Press the power button to cycle through the three preset temperature levels. Long press to power off.
- **App Control:** Connect to the Kepwam App via Bluetooth to set custom temperatures between 113°F and 149°F. The app also allows monitoring of real-time temperature.

3.2 Battery Life and Heating

The mug features a 4000mAh battery, providing up to 10 hours of heating when fully charged and used

independently. For continuous heating, place the mug on its charging dock.

Extended Battery Life

4000mAh
Capacity

2-10H
Lasting Heat

3.3 Lid Usage

The 2-in-1 leakproof screw lid offers two drinking options:

- **Sip with Straw:** Recommended for beverages below 122°F (50°C) for safety.
- **Flip-Tab:** Ideal for enjoying hot drinks directly.

3.4 Safety Features

The mug is designed with safety and energy efficiency in mind:

- Automatically stops heating when empty.
- Automatically stops heating after 3 hours of no use.

4. MAINTENANCE AND CARE

Proper care ensures the longevity and performance of your Kepwam Self-Heating Travel Mug.

- **Hand Wash Only:** For best care, hand wash the mug.
- **Avoid Hot Water:** Do not clean with hot water.
- **No Dishwasher or Microwave:** Never place the mug in a dishwasher or microwave. Doing so may damage the internal battery and shorten the lifespan of the temperature-control system.

Safety Instructions

Do not use in dishwasher or microwave

5. TROUBLESHOOTING

If you encounter any issues with your Kepwam Self-Heating Travel Mug, please refer to the following common solutions:

- **Mug Not Heating:** Ensure the mug is fully charged. If using the charging base, verify it is properly connected to a power source and the mug is correctly seated. Check that the desired temperature setting is selected.
- **App Connectivity Issues:** Ensure Bluetooth is enabled on your device and the mug is within range. Try restarting both the mug and your device. If issues persist, reinstall the Kepwam App.
- **Leakage:** Confirm the 2-in-1 screw lid is securely fastened and the flip-tab or straw opening is properly closed.
- **Short Battery Life:** Battery performance can vary based on ambient temperature and selected heat setting. For extended heating, use the mug on its charging base. Ensure the mug is fully charged

before independent use.

If these steps do not resolve the issue, please contact Kepwam customer support for further assistance.
