

Yomile AD005

Yomile AD005 4-in-1 Cordless Handheld Vacuum Cleaner User Manual

Model: AD005

1. INTRODUCTION

Thank you for choosing the Yomile AD005 4-in-1 Cordless Handheld Vacuum Cleaner. This versatile device combines vacuuming, blowing, inflating, and deflating functions, making it ideal for various cleaning and inflation tasks at home, in your car, or during camping. Please read this manual carefully before use to ensure proper operation and maintenance.

2. IMPORTANT SAFETY INSTRUCTIONS

WARNING: To reduce the risk of fire, electric shock, or injury, read all instructions before using this appliance.

- Do not use outdoors or on wet surfaces.
- Do not allow to be used as a toy. Close attention is necessary when used by or near children.
- Use only as described in this manual. Use only manufacturer's recommended attachments.
- Do not use with damaged cord or plug. If appliance is not working as it should, has been dropped, damaged, left outdoors, or dropped into water, return it to a service center.
- Do not pull or carry by cord, use cord as a handle, close a door on cord, or pull cord around sharp edges or corners. Do not run appliance over cord. Keep cord away from heated surfaces.
- Do not unplug by pulling on cord. To unplug, grasp the plug, not the cord.
- Do not handle plug or appliance with wet hands.
- Do not put any object into openings. Do not use with any opening blocked; keep free of dust, lint, hair, and anything that may reduce airflow.
- Keep hair, loose clothing, fingers, and all parts of body away from openings and moving parts.
- Do not pick up anything that is burning or smoking, such as cigarettes, matches, or hot ashes.
- Do not use to pick up flammable or combustible liquids, such as gasoline, or use in areas where they may be present.
- Do not pick up toxic material, such as chlorine bleach, ammonia, or drain cleaner.
- Do not use without dust bag and/or filters in place.

- Turn off all controls before unplugging.
- Use extra care when cleaning on stairs.
- Do not charge the unit outdoors.
- Use only the charger specified by the manufacturer.

3. PRODUCT OVERVIEW

The Yomile AD005 is a compact and powerful 4-in-1 device designed for various cleaning and inflation tasks. It features a brushless motor, high suction power, and multiple attachments for different applications.

Package Contents

- Yomile AD005 Main Unit
- Dust Collection Cup with HEPA Filter
- Flat Nozzle (for vacuuming)
- Brush Nozzle (for vacuuming)
- Multi-surface Nozzle (for vacuuming)
- Long Blowing Nozzle
- Short Blowing Nozzle
- Inflation Nozzles (various sizes)
- USB-C Charging Cable
- Storage Bag
- User Manual

4. SETUP

4.1 Initial Charging

Before first use, fully charge the device. The Yomile AD005 is equipped with a 9000 mAh battery and charges via a USB-C cable.

1. Connect the USB-C cable to the charging port on the device.
2. Connect the other end of the USB-C cable to a compatible USB power adapter (not included).
3. The LED indicator will show charging status. A full charge takes approximately 3-4 hours.

4.2 Attaching Accessories

The Yomile AD005 comes with various attachments for different functions. Ensure the device is turned off before attaching or detaching accessories.

- **For Vacuuming:** Attach the dust collection cup to the main unit. Then, select and attach the desired vacuum nozzle (flat, brush, or multi-surface) to the front of the dust collection cup.
- **For Blowing/Inflating/Deflating:** Remove the dust collection cup. Attach the desired blowing or inflation nozzle to the front outlet of the main unit.

5. OPERATING INSTRUCTIONS

5.1 Power On/Off and Speed Adjustment

The device features 3 adjustable speed settings.

- To turn on the device, press the power button. It will start at the lowest speed setting.
- Press the power button again to cycle through the speed settings (Low → Medium → High).
- To turn off the device, press the power button after the highest speed setting, or press and hold the button for a few seconds.

5.2 Vacuuming Function

Use the vacuum function to clean various surfaces. The device offers up to 25KPa suction power.

1. Ensure the dust collection cup and desired vacuum nozzle are securely attached.
2. Turn on the device and select the appropriate speed.
3. Move the nozzle over the surface to be cleaned.
4. **Recommended Nozzles:**
 - **Flat Nozzle:** Ideal for narrow gaps, corners, and car seats.
 - **Brush Nozzle:** Suitable for carpets, upholstery, and dislodging stubborn dirt.
 - **Multi-surface Nozzle:** For larger, flat surfaces like floors or car mats.

ACCESSOIRES MULTIFONCTIONS

5.3 Blowing Function

The blower function is excellent for dusting electronics, keyboards, and hard-to-reach areas. It provides a maximum rotation speed of 210,000 RPM.

1. Remove the dust collection cup.
2. Attach the desired blowing nozzle (long or short) to the front outlet.
3. Turn on the device and direct the airflow towards the area to be cleaned.

5.4 Inflating and Deflating Functions

The device can also inflate air mattresses, swimming rings, and other inflatables, or compress air for storage bags.

1. Remove the dust collection cup.
2. Attach the appropriate inflation nozzle to the front outlet for inflating.
3. For deflating/compressing, attach the appropriate nozzle to the rear intake port (where the dust cup normally attaches).
4. Turn on the device to begin inflation or deflation.

6. MAINTENANCE

6.1 Emptying the Dustbin

Regularly empty the dust collection cup to maintain optimal suction power.

1. Ensure the device is turned off.
2. Twist and detach the dust collection cup from the main unit.
3. Empty the contents into a waste bin.
4. Reattach the dust collection cup securely.

6.2 Cleaning the HEPA Filter

The HEPA filter is washable and reusable. Clean it regularly to prevent clogging and maintain performance.

1. Remove the dust collection cup and then carefully remove the HEPA filter.
2. Rinse the filter under running water until clean. Do not use detergents.
3. Allow the filter to air dry completely before reinserting it into the dust collection cup. Ensure it is completely dry to prevent damage to the motor.
4. Reassemble the dust collection cup and attach it to the main unit.

Image: A close-up of the Yomile AD005's washable HEPA filter being rinsed under water, emphasizing its reusability and multi-layer filtration system.

7. TROUBLESHOOTING

If you encounter any issues with your Yomile AD005, please refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Device does not turn on.	Battery is depleted.	Charge the device fully.
Low suction/blowing power.	Dustbin is full or filter is clogged.	Empty the dustbin and clean/dry the HEPA filter.
Attachments do not fit securely.	Incorrect attachment or not properly aligned.	Ensure you are using the correct attachment for the desired function and align it properly before twisting/pushing into place.
Device stops unexpectedly.	Battery is low or device overheated.	Recharge the battery. If overheated, turn off the device and allow it to cool down before resuming use.

8. SPECIFICATIONS

Feature	Specification
Brand	Yomile
